Package Contents

1. Vanity Makeup Mirror
2. Charging Cable

Operating Instructions

1. Press the ON/OFF button located on the back of the mirror to turn the LED lights on or off.
2. Press the Light Button () to toggle the light on or off. Hold the Light Button () to adjust the brightness level.
3. Press the Color Switching Button () to select between different light settings (white light, warm light, or natural light).
4. The mirror features a memory function that stores the last light color and brightness settings, which will be restored upon the next use.

Note

1. Before using the sensor switch, ensure that the ON/OFF button on the back of

the mirror is powered on. The sensor switch will only function when the ON/OFF button is in the ON position.

- 2. To conserve power, the light will automatically turn off after 30 minutes of inactivity.
- 3. Please charge the mirror before the first use and recharge it every 3 months during storage.

Battery Indicator

Low Battery	The red light flashes every second.
Charging	The indicator light stays red while charging.
Fully Charged	The indicator light turns green once charging is complete.
Low Voltage Protection	If the battery is drained, the mirror will turn off. Please press the ON/OFF button again to restart the mirror after charging is complete.

Care and Storage

- 1. Turn off the LED light before cleaning the mirror.
- 2. Use a damp cloth and glass cleaner to wipe the mirror surface.
- 3. Store the mirror in a dry place to prevent corrosion.
- 4. Keep away from children.

Attention

- 1. Keep the product away from water.
- 2. Do not place the product in areas where it might fall.
- 3. Avoid using the product while taking a shower.

4. Children should use the product under adult supervision.
5. Non-professionals should not attempt repairs if the product malfunctions.
6. Keep the mirror surface away from hard objects to prevent scratches.
7. Avoid using the product in direct sunlight to prevent eye strain from reflected light and to maintain the lighting effect.

Troubleshooting

Problem	Solution
The lighting is not working.	<ol style="list-style-type: none">1. Make sure the mirror is charged.2. Make sure the ON/OFF button on the back of the mirror is powered on.
The device is not charging.	<ol style="list-style-type: none">1. Make sure you are using the correct cable and that the cable is properly connected.2. Make sure to use the DC 5V charger to charge.3. Make sure the PC or USB charger is turned on.
The brightness is either too high or too low.	Press and hold the Light Button () to adjust the brightness to your desired level.
The device is still not working.	For further assistance, please contact a service center.
