4. Air Outlet
5. Type-C Interface

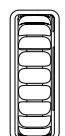

6. Cooling Key (or Cool Mode Button)

7. Lanyard Hole

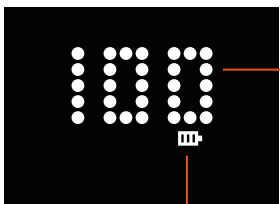

Instructions for Use

A. Function Buttons and Gear Adjustment

-  Speed Regulating Roller: Roll the roller up or down to adjust the fan speed, offering a range from 1 to 100 levels for customized airflow.
-  Switch Button: Press this button to power the fan on. Press it again to turn the fan off.

B. Display Status Description

-  Wind Speed and Battery Indicator: The display shows the current wind speed along with the remaining battery charge level.

Battery/Charging Indicator: This indicator shows the battery status, reflecting the current charge level or charging progress.

Wind Speed

Battery Display

Expression Display

Operation / Status	Display
Power On	The current wind speed is displayed when the fan is powered on. When the fan is idle, the screen cycles through the display of wind speed, battery level, and other indicators.
Wind Speed Regulation	When adjusting the wind speed, the current speed is displayed.
Battery Indicator	The power icon glows bright green when the fan is on.
Cannot Start Without Power	Press the button; the power display shows "0," the power icon blinks and shrinks, and the display turns off.
Low Battery Warning	When the battery is low, the battery icon changes from green to red.
Charging in Progress	During charging, the current battery level is shown, and the battery icon turns bright red.
Fully Charged	Once fully charged, "100" is displayed, and the battery icon turns bright green.

C. Product Cleaning

1. Before cleaning the product, ensure that the power supply is turned off.
2. The product cover cannot be removed. Use a clean cloth and brush to wipe the surface of the fan cover and air inlet grid.
3. Do not use water or other liquids to clean electrical components (such as the

motor, power switches, etc.).

4. Avoid touching the power supply or electrical components with wet hands or rags.

Specifications

Input	5V/1A
Rated Power	7W
Battery Capacity	3000mAh
Operating Speed	13000RPM
Wind Speed	1-100 Levels
Working Time	Up to 5H
Charging Time	5H
Charging Port	USB-C
Product Size	56 × 58 × 170mm
Model Number	LFS152

Safety Precautions

- 1.** This product is not a toy. Please ensure that infants and young children do not use this product for play. For children under 14 years old, ensure use is under the supervision of a guardian.
- 2.** This product is not intended for use by individuals (including children) with insufficient physical, perceptual, mental, or experiential abilities or knowledge, unless used safely under the supervision of a responsible adult.
- 3.** Avoid blowing air directly onto the human body for extended periods, especially for the elderly and children, to prevent physical discomfort.
- 4.** During use, do not insert fingers, sharp objects, or metal items into the product, as this can cause damage and increase the risk of electric shock or injury.
- 5.** When operating the device, do not use wet hands, wet towels, or other damp materials. Always ensure the power supply is plugged off to avoid the risk of electric shock.
- 6.** This product is not waterproof. Do not wash it directly with water or use it in environments with high humidity, such as bathrooms. If water is present on the surface, dry it promptly before attempting to use it. Avoid using the device if it has been fully submerged in water.
- 7.** Do not obstruct the air outlets and inlets with items such as towels, cloths, or other objects, as this may cause product malfunction.
- 8.** The product must not be used or stored in high-temperature environments (above 60°C), including areas like greenhouses, construction sites, furnaces, sun-exposed vehicles, and other similar locations. Such conditions may lead to deformation, combustion, or battery failure.
- 9.** Do not apply excessive pressure to or disassemble the battery, especially in high-temperature environments (60°C and above). Prolonged exposure to such temperatures may result in leakage or risk of explosion.
- 10.** When using a power adapter to charge the device, ensure that the rated voltage and current of the adapter fall within the range of 5.0V 2.0A. The product should only be used once the adapter has obtained the necessary safety

certifications.

11. This product is equipped with a lithium-ion battery. Overcharging or discharging may negatively affect its service life. If the product has not been used for an extended period (over 3 months), it is important to fully charge it before use. Avoid using the product without charging it fully.

12. In the event of smoke, fire, or any other malfunction during use, immediately turn off the power and cease operation. Contact the dealer or manufacturer for further assistance. Do not attempt to disassemble the product yourself to prevent potential risks or further damage.

Note: To prevent poor contact, avoid bending or pulling the power cord while charging.

Material Content Table

Unit Name	Harmful Substance					
	Pb	Hg	Cd	Cr (VI)	PBB	PBDE
Body	X	O	O	O	O	O
Package	O	O	O	O	O	O
Attachment	O	O	O	O	O	O

This form is prepared in accordance with the provisions of SJ/T11364.0: A symbol indicating that the content of hazardous substances in all homogeneous materials of the part is below the limit specified in GB/T26572. X: A symbol indicating that the content of hazardous substances in at least one homogeneous material of the part exceeds the limit specified in GB/T26572. All parts listed in this table with an "X" in their name are exempt from the Exceptions List for the Application of Restricted Substances under China RoHS compliance. All parts in this table with an "X" in their name comply with EU RoHS legislation.

Note: The environmental protection life reference label depends on the temperature and humidity conditions under normal working conditions.

Environmental Note

The number in the label indicates the product's environmental protection life under normal use is 5 years. Some parts may carry a specific environmental life label, which corresponds to the number in the label. Depending on the model, the product may not include all components other than the host.

Disposal Instructions

Handling Lithium Battery Waste:

The handheld refrigeration fan must be powered off before removing the battery.

Ensure that the battery is disposed of properly and safely.

The battery must be removed before disposing of the handheld refrigeration fan.

Battery Removal Procedure:

To remove the battery, follow these steps:

Open the rear cover of the handheld refrigeration fan using a tool.

Detach the battery lead terminal from the circuit board.

Remove the battery.

Dispose of the battery at the designated recycling point for lithium batteries.

Warranty

Products that you buy directly from our **Porodo** website or shop come with a 24-month warranty.

When you buy **Porodo** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at **porodo.net/warranty** and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.
