USER MANUAL

**3 IN 1  
WIRELESS CHARGER**

## **Thank you for purchasing and using this multifunctional wireless charging base!**

This is a desktop wireless charger that supports one touch to automatic lift and can wirelessly charge mobile phones, headphones and watches (with additional chargers) at the same time, saying goodbye to wired shackles and starting the wireless experience. In order to give you a better experience, please read this manual carefully before using this product and keep it properly for future reference.

### **Basic Parameters**

<b>Product Name</b>	Multifunctional Wireless Charger
<b>Product Model</b>	GL-WS2
<b>Product Size</b>	15.4mm*13.6mm*38mm
<b>Transmission Distance</b>	≤6mm
<b>Input Voltage</b>	9V/3A 12V/2.5A
<b>Material</b>	ABS + PC
<b>Output Power</b>	Phone 15w, Earphone 5w, iwatch 2.5W

\*All the above parameters come from the experimental test of this product, and the actual parameters will vary according to the product or other factors. The picture is for reference only. The actual delivery should be based on the kind purchased by the customer.

**In order to ensure the normal wireless charging function and the stable lighting effect, it is recommended to match the adapter [charging head] with a power of more than 27 watts. Lower than this power may lead to charging instability, charge failure, hot, microphone sensitivity reduction and other adverse phenomena.**

## **Product Usage Guide**

1. Before use, please connect the multi-function wireless charging equipment to the appropriate type-c power data cable.
2. This product realizes short-distance radio energy transmission by magnetic induction, and all electronic devices that conform to the QI standard protocol can use this wireless charging equipment for charging.
3. When mobile phones /iwatches/ headphones (that support wireless charging ) need to be charged, they can be wirelessly charged by placing them in the appropriate position on our product panel.
4. Touch the button to control the rise or fall of the mobile phone wireless charging bracket (note: when the mobile phone is placed in the bracket, the bracket cannot rise or fall due to the protection mechanism).

## **Product Precautions**

**Please pay attention to the following problems, otherwise there may**

**be abnormal charging, high charging temperature, intermittent charging, or even no charging.**

1. It is recommended to match 9V 3A QC3.0 quick charge plug for better charging performance.
2. The product supports QC and PD protocols.
3. When charging wirelessly, there must be no metal or magnetic objects within 4 cm of the center point on the back of the phone.
4. The lower the temperature, the faster the charging speed, and the charging speed in winter is faster than that in summer.
5. Please do not charge in the hot and humid environment, so as to avoid damage to the circuit and danger.
6. Please keep it away from the children in order to avoid unnecessary accidents.
