- D:** Anti-slip foam
- E:** Flexible legs
- F:** Bubble level indicator
- G:** Ball lock knob
- H:** 1/4" screw hole at the bottom of the head
- I:** Anti-slip contact point on leg tip

Features Description

The tripod can be contorted into a variety of shapes, allowing for a free twist to suit different shooting angles and surfaces. The tripod is adaptable to different devices, such as a smartphone and a camera, and can secure equipment in both conventional and unconventional positions for creative photography.

The compact and portable tripod can easily fit into a pocket or small baggage, offering flexible storage solutions for on-the-go photography. It features a detachable head for added versatility, making it convenient for travel.

The tripod features high-density foam legs for grip, ensuring an anti-slip and stable platform and guarantees that the tripod can steadily support the mounted device.

Removable Head

This device is universally compatible with a variety of devices via its versatile head with a 1/4" screw. Examples of compatible devices include SLR cameras, compact cameras, mobile phones, GoPro devices, digital video cameras, and lighting equipment.

This tripod head features a 360° panoramic capability, allowing for seamless arbitrary angle adjustments, and is designed for limitless creativity in photography and videography.

1/4" Screw

Digital Camera

DSLR Camera

Video Camera

Mobile

The tripod incorporates a novel groove design, which allows for quick transitions between horizontal and vertical shooting orientations.

The tripod features an adjustable lock knob, which ensures smooth movement and secure locking of the mounted device in place for stable shooting.

The tripod is supplied with a versatile 3-in-1 multifunctional loading plate, which can be transformed into a mobile phone clip or used to mount a camera via a 1/4" screw. The maximum length of the clip reaches 108mm.

The tripod features a 360° horizontal panorama ball head component, boasting well-crafted and smooth lines for aesthetic appeal. The head is designed for secure locking of the mounted devices and simplicity in operation while performing panoramic photography. The head component has a built-in ball knob that includes a grooved ball part and an adjustable knob handle.

Application Guide

The versatile tripod has diverse applications and can be used in various settings, such as capturing selfies as the tripod is fixed on bars, supporting a camera for nature photography when placed on flat surfaces, and stabilizing a smart-phone for video recording when positioned on curved surfaces.

Configurations

Instances of tripod configuration settings are as follows:

Warranty

Products that you buy directly from our **Porodo** website or shop come with a 24-month warranty.

When you buy **Porodo** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at **<https://porodo.net/warranty>** and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.
