## Overview

This wireless charger offers a multi-device charging solution with a built-in smart chip, capable of charging three devices simultaneously: a phone, smartwatch, and earbuds. It features a hidden compartment for charging the watch and earbuds, a built-in night light for added convenience, and a magnetic, auto-rotating phone charging position that also serves as a stand. Designed for stable performance and fast charging, this charger ensures an efficient and reliable experience. It also supports wireless charging for other Qi-compatible devices.

# Operating Guide

**Mobile Phone Charger Rotary Button:** Touch this button to rotate the phone charging area counterclockwise by 90°. Press the button again to rotate it clockwise by 90° and return it to the original position.

**Stand Extension Button:** Touch this button to slowly extend the watch charging stand. Press the button again to slowly retract and hide the stand.

## Nightlight

**Nightlight:** This product offers five adjustable lighting modes, allowing you to choose the most suitable lighting based on your needs.

# Specifications

Input	9V/3A
MagSafe Output	5W/7.5W/10W/15W
Earbuds Output	5W
Watch Output	2.5W
Charging Interface	Type-C
Charging Distance	3-8mm
Operating Frequency	110-205kHz

Product Size	96 x 105 x 105mm
Product Weight	400g
Model Number	PDMSWC

## FAQ

### **1. Why is my phone not charging?**

The phone may not be properly aligned with the sensing area, or the receiving coil may not be installed correctly.

### **2. Why is the charging process generating heat?**

It is normal for the receiving coil or transmitter board to become warm during wireless charging.

### **3. Why is my phone charging intermittently?**

The charging current of the adapter might be insufficient or the voltage could be unstable. It is recommended to use a QC3.0 fast charging head.

Additionally, the charging position may be too partial, resulting in weak electromagnetic induction. Adjusting the charging position can improve this.

### **4. Why is my phone charging slowly?**

The phone itself or the external receiving coil might allow different sizes of wireless charging current. Alternatively, the phone's standby power consumption could be too high while charging. It is suggested to reduce the standby program of the phone to improve charging speed.

## Cautions

1. Do not pull the power cord forcefully to avoid damage or detachment.
2. Avoid disassembling the product or exposing it to fire or water to prevent short circuits or leakage.
3. Keep the product away from extreme heat, humidity, or corrosive environments to prevent damage from circuit leakage.
4. Keep the product out of the reach of children to prevent accidents.
5. When using fast charging, ensure you use a qualified QC3.0 adapter and fast charging cable to avoid instability.
6. Do not place metal objects or magnetic cards on the charging board, as they may damage the charger.
7. If the charging product overheats during use, stop charging and allow it to cool down before resuming.

## Compatibility

### 1. Smart Phone

For iPhone 16, iPhone 16 Pro, iPhone 16 Pro Max, iPhone 16 Plus  
iPhone 15, iPhone 15 Pro, iPhone 15 Pro Max, iPhone 15 Plus  
iPhone 14, iPhone 14 Pro, iPhone 14 Pro Max, iPhone 14 Plus  
iPhone 13, iPhone 13 Pro, iPhone 13 Pro Max, iPhone 13 mini  
iPhone 12, iPhone 12 Pro, iPhone 12 Pro Max, iPhone 12 mini  
iPhone SE (2nd Generation)

**Note:** Magnetic charging of cell phones is only applicable to iPhone 12/13/14/15/16 series.

### 2. Smart Watch

For Apple Watch Ultra / Ultra 2 / SE / 10 / 9 / 8 / 7 / 6 / 5 / 4 / 3 / 2 Series  
For Galaxy Watch 2(40mm) / Galaxy Watch 3(45mm) / Galaxy Watch

4(40/41/44/46mm)

Galaxy Watch 5 (44mm) / Galaxy Watch 6 (44/40mm) / Galaxy Watch 6 Classic (47mm)

Galaxy Watch 7 Ultra (47mm) / Galaxy Watch FE (40mm) / Galaxy Watch Active (40mm)

**Note:** Apple Watch and Galaxy Watch have compatibility differences in certain system environments. Specifically, in some systems, the two may not be compatible with each other, while in other systems, they can be compatible. For detailed compatibility information and technical support, please consult official customer service.

### 3. Earbuds

For AirPods 2 (with wireless case) / AirPods Pro / AirPods Pro 2 / AirPods 3 / AirPods 4 (can work with A3059, A2968, A2700, A2566, A2190, A1938 AirPods case)

Does not support AirPods charging case: A3058, A2897, A1602

Samsung Galaxy Buds, Buds+, Buds Pro, Buds Live; Soundcore Liberty Air 2, Air 2 Pro, 2 Pro

**Note:** Adapt to all devices that support wireless charging.

## Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

## **Warranty**

Products that you buy directly from our **Porodo** website or shop come with a 24-month warranty.

When you buy **Porodo** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at **porodo.net/warranty** and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.

For more info, please check:  
**porodo.net/warranty**
