- 1. Aluminum Alloy Shell.
- 2. Suitable for USB Type-C PCs/Tablets/Mobile Phones.
- 3. Compatible with mainstream Windows/Mac OS/Android.
- 4. Supports Plug and Play, Hot Swappable.

Multi-Port USB-C Hub Overview

Operation Instructions

1. Connect the hub to your PC, tablet, or mobile phone.
2. Insert your devices into the 7-in-1 Type-C Hub.

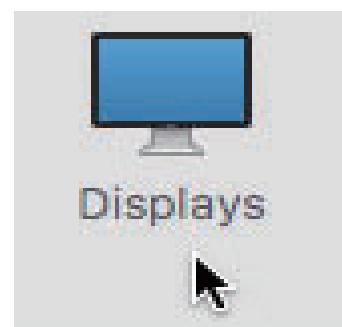

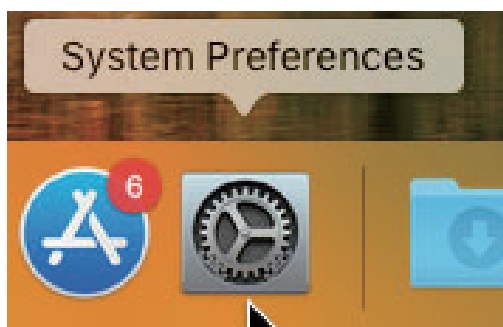

The USB hub can be utilized for two display modes: the Mirror Mode replicates your laptop's screen onto a larger display, showing the same content on both screens. In contrast, the Extend Mode allows you to expand your workspace by using the second screen as an additional desktop, displaying different content from the laptop.

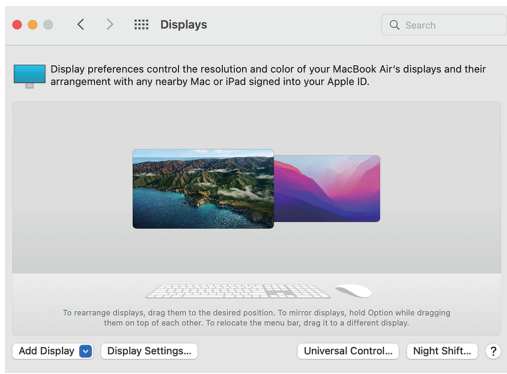

Expand your screen:

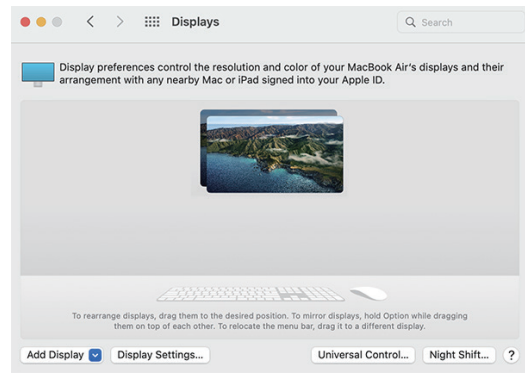

Display OS Configuration Instructions

- Step 1.** Navigate to the Apple menu, select 'System Preferences', and then click on 'Displays'.
- Step 2.** Choose the 'Arrangement' tab.
- Step 3 and 4.** Press and hold the 'Option' key while clicking and dragging an image with the mouse to reposition it to another display.

Step 3

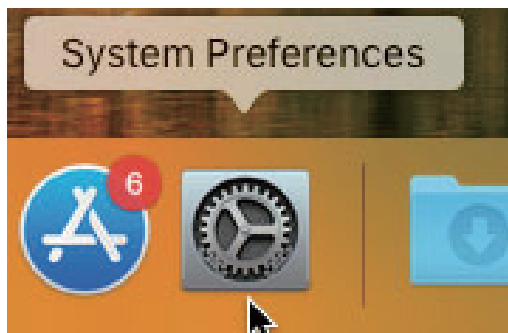

Step 4

Sound Output Procedure

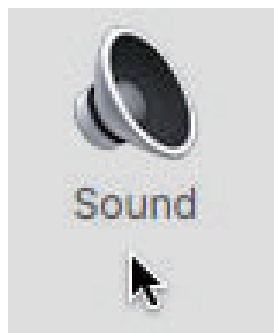

Step 1. Navigate to the Apple menu, select 'System Preferences', and then click on 'Sound'.

Step 2. In the 'Sound' preferences, click on the 'Output' tab.

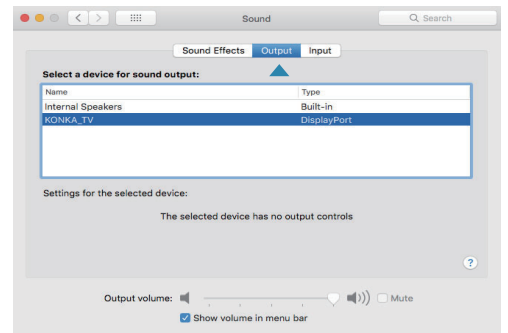

Step 3. From the list provided, choose a device for sound output.

Step 1

Step 2

Step 3

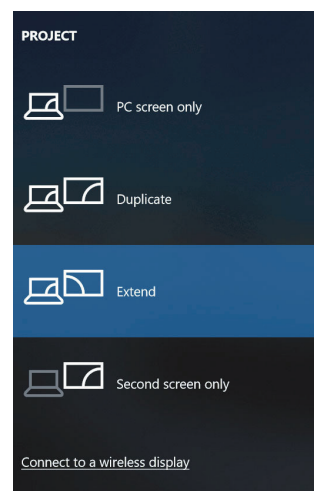

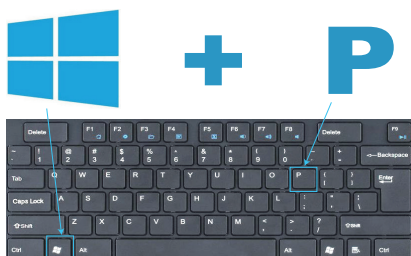

Display Control

The shortcut key 'Windows+P' allows for quick toggling between display modes when a device is connected to a USB hub. Pressing these keys simultaneously presents options to use the PC screen only, duplicate, extend, or use a second screen exclusively.

Windows:
