Product Overview

Thank you for selecting this product. This device is a compact and sleek smart wireless charger car phone holder, designed for efficiency and simplicity. It supports a single channel with a maximum output of 15W and incorporates intelligent voltage mutation detection, overcurrent protection, and a coil peak temperature threshold to ensure your phone charges within a safe operating range. The product features a built-in ring magnet, which provides a strong and stable suction. This allows your mobile phone to automatically attach when in proximity to the product and align itself with the wireless charging area for enhanced driving safety. Please consult this manual thoroughly prior to utilizing this product and retain it for future reference.

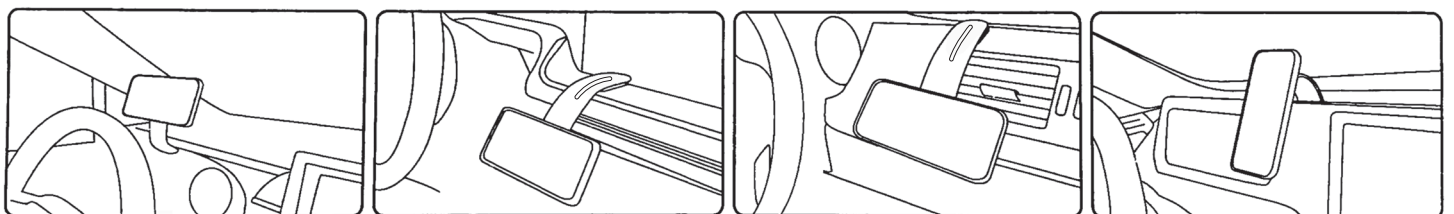

Installation Instructions

A. Suggested application areas are:

1. Center console
2. Dashboard
3. Behind the control panel

B. Instructions

1. Thoroughly clean the intended surface area with the provided alcohol pad, allowing it to dry completely to ensure an optimal bond before applying the 3M adhesive tape.
2. Remove the backing from the 3M tape and firmly press the Velcro base onto the center console/dashboard/behind the control panel. Allow the adhesive to set by waiting for a period of 2 hours.
3. Attach the holder to the Velcro base and adjust the handle part to your desired angle for optimal viewing and access.

Attention

1. This product is compatible with iPhone 12 and newer models. For older iPhone and Android models, a supplemental metal plate is required for secure attachment.
2. Using a phone case may diminish the strength of the magnetic attraction; if needed, attach the metal plate directly to your phone case for improved magnetic connectivity.
3. Ensure that the surface is both clean and dry prior to applying the 3M tape for a secure attachment.
4. After affixing the 3M tape, allow a setting period of 2 hours for maximum adhesion.
5. To maintain the integrity of the product, please refrain from bending it at an angle greater than 180 degrees.

Specifications

Input	9V/2A
Power	5W/7.5W/10W/15W
Operation Distance	≤ 8mm
Size	224.5×59.5×18mm

Light Indicator Guide

- Colorful Flowing Light: Indicates power is on and the device is in standby mode.
- Colorful streamer extinguished: Signifies that the device is either actively charging or the battery is fully charged.
- Flashing red light: Alerts to the presence of a foreign object detected.

Instructions for Use

1. Clean the desired surface with the alcohol pad provided and ensure it is dry and free of debris before applying the 3M adhesive tape.
2. Adjust the holder to the desired angle and connect the Type-C data cable to activate the indicator light.
3. Position your phone at the center of the wireless charging zone to commence charging.

Package Contents

Car Mount ×1

Data Cable ×1

Velcro ×1

Precautions

1. Store the product out of children's reach.
2. Do not use in wet or damp conditions.
3. Refrain from disassembling the product without authorized permission.
4. Avoid handling the product roughly or subjecting it to knocks, bumps, or impacts.
5. Only undertake repairs if you possess the necessary expertise; otherwise, seek professional assistance.
6. For optimal charging, please use a QC2.0/QC3.0 compatible adapter.
7. The phone's back should not have any attachments like ring holders (sockets) or any other items that might interfere with the wireless charging zone, as these can impede charging efficiency.

Warranty

Products that you buy directly from our **Porodo** website or shop come with a 24-month warranty.

When you buy **Porodo** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at **<https://porodo.net/warranty>** and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.
