Wireless Speaker 100W

SKU: PD-STDISCO-OG

Table of Contents

Thank You for Choosing Our Product. We appreciate your decision to select our swimming pool floating speaker. This product meets IP67 standards, making it ideal for both swimming pool parties and outdoor use. Please thoroughly read the enclosed manual and retain it for future reference.

Features

1. Delivers robust and powerful sound performance with a maximum output of 100 watts, ensuring high-quality audio that fills any space.

2. Features dynamic lighting that reacts to the music, creating an immersive audio-visual experience.

3. Includes a Micro SD card slot allowing you to play music directly from a memory card.

4. Certified with an IPX7 rating, making it fully water-resistant.

**5.** Equipped with a long-lasting battery that provides up to 13 hours of playtime on a single charge.

## Safety Warning

A. General Guidelines

1. Please read the safety instructions carefully and keep them for future reference.

2. Keep this product out of the reach of children.

3. Prevent the product from falling to avoid damage.

4. For products containing lithium batteries, avoid exposure to heat sources and never dispose of them in fire.

5. Ensure that electrical outlets are grounded before use to prevent electric shock.
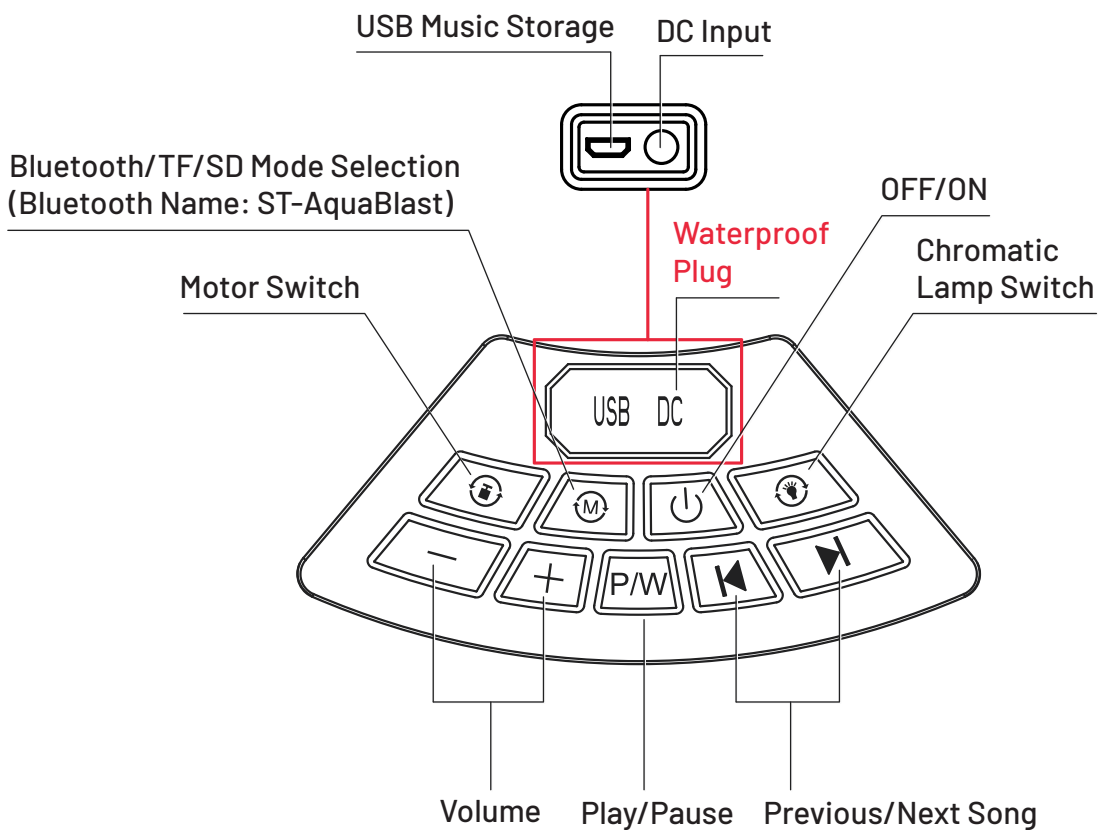

B. Waterproof Precautions

Confirm that the waterproof plug is securely in place before immersing the product in water.
