Before installing and using the product, please carefully read this User Manual to guarantee correct usage and keep it secure for future reference.

## Product Overview

1. Bluetooth/Play/Call Button ○
2. Volume + / Next Track Button ●
3. Volume - / Previous Track Button ○
4. Bluetooth LED
5. Built-in Microphone for speakerphone functionality
6. USB-C Charging Port for Charging
7. Charging Indicator LED
8. Wearable Neckband for Speakers
9. Dual USB Type-C Recharge Cord

## Features

- 'Click-and-Go' Neckband Wearable: Offers an exceptional 3D auditory experience.
- Detachable True Wireless Stereo (TWS) Speakers: Easily converts into a set of high-fidelity wireless stereo speakers.
- IPX-4 Splash Proof Design: Engineered for optimal performance in sporty and outdoor environments.
- Dynamic 2W+2W Surround Sound: Provides an immersive audio experience with deep, rich stereo sound.

**Hands-free & Ears-free Functionality:** Ideal for active users, ensuring convenience during sports activities.

**Enhanced Bass Vibration:** Amplifies the gaming experience with deep, resonant bass effects.

**Seamless Call Management:** Features an intuitive hands-free calling function that simplifies user interaction.

**Advanced Bluetooth v5.3 Technology:** Ensures robust, seamless wireless connectivity for uninterrupted listening.

## **Charging**

1. Lift up the covers on both speakers to expose the USB-C port.
2. Insert the USB end of the recharge cord into a USB power source.
3. The RED LED will illuminate to indicate that charging is in progress.
4. When fully charged (approximately 1.5 hours), the LED light will change to GREEN.

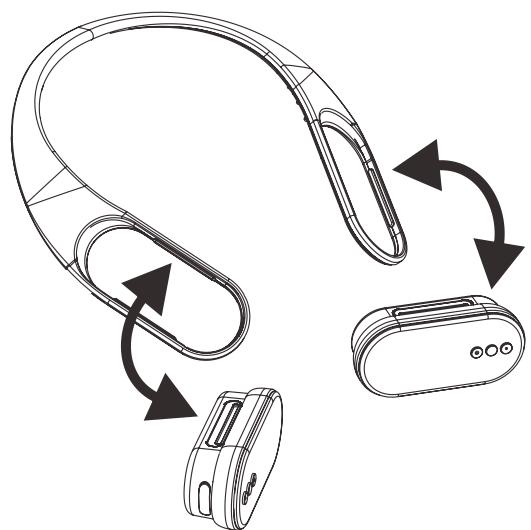

## **Wearing the Speakers**

### **A. Wearing**

1. Attach the speakers to the holder ring on the wearable neckband.
2. Ensure the speakers are facing upwards, with the button side positioned near the ends of the neckband for easy access.
3. Gently expand the neckband to make it easier to place the product around your neck and shoulders.

### **B. Removing**

1. Expand the neckband to facilitate the removal of the product.
2. Ensure the speakers are oriented upwards with the button side near the ends of the neckband for easy access.
3. Detach the speakers from the holder ring.

**Note:** After removal, store the headset in the charging case for safekeeping or transportation.

## Pairing

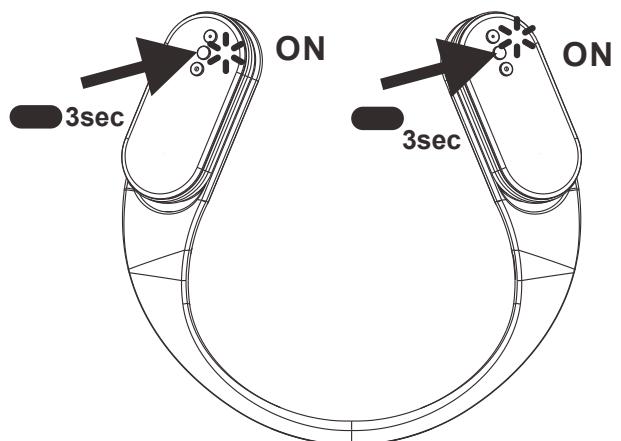

1. Press and hold the Bluetooth/play/call button  for 3 seconds to turn on both the left and right speakers simultaneously until you hear the sound "dodooo."
2. Upon turning on, both speakers will have their LEDs flashing rapidly—the left speaker with a blue LED and the right speaker with a white LED. Wait for the "dodu" sound.
3. After approximately 5 seconds, one speaker will automatically pair with the other. You will hear the sound "dodu." The right speaker's white LED will remain lit continuously, while the left speaker's blue LED will flash quickly, indicating readiness for Bluetooth pairing.
4. Turn on Bluetooth on your phone, search for, and select "ST-NeckAudio" from the list of available devices.
5. Listen for the "buloop" tone indicating a successful connection. The left speaker's blue LED will then remain constantly on.
6. The speakers are now successfully paired with your phone.

**Tip:** Besides wearing the speakers on your shoulders, you can place them approximately 2-1 meters apart on a desktop for an enhanced stereo effect.

**Note:** This product consists of a pair of stereo speakers. For optimal functionality, ensure that both speakers are powered ON simultaneously to facilitate automatic pairing.

In case you accidentally pair only one speaker with your phone, please follow these corrective steps:

1. Remove all previous "ST-NeckAudio" connections from your phone's Bluetooth settings.
2. Disable and then re-enable your phone's Bluetooth.
3. Restart the pairing process for the speakers.

## Disconnecting

1. Turn off the Bluetooth function on your phone.
2. The main speaker's blue LED will flash rapidly.
3. Press and hold the Bluetooth/play/call button  for 3 seconds on both speakers until you hear the sound "beepbeep," indicating the speakers are off (the pairing memory is retained).

## Re-connecting

1. Ensure your phone's Bluetooth is turned on before powering on the speakers.
2. Press and hold the Bluetooth/play/call button  for 3 seconds on both speakers simultaneously, until you hear the sound "dodooo."
3. Wait approximately 5 seconds for one speaker to automatically connect with the other. You'll hear "dodu," and the right speaker's white LED will stay lit, while the left speaker's blue LED will flash rapidly, indicating readiness.
4. After 5 seconds, listen for the "buloop" sound; the main left speaker's blue LED will then remain lit, showing a stable connection.
5. The speakers are successfully re-paired with your phone.

## Pair with Another Phone

1. Turn off the Bluetooth function on your previous phone.
2. Activate the Bluetooth function on the new phone.
3. When the main speaker emits a "beep beep" sound and the blue LED flashes rapidly, it is ready to pair.
4. Turn on Bluetooth on your phone, search for, and select "ST-NeckAudio" from the list of available devices.
5. Listen for the "buloop" tone indicating a successful connection. The left speaker's blue LED will then remain constantly on.
6. The speakers are now successfully paired with the new phone.

# Music Playback Guide

## 1. Play/Pause Music

To Play Music: Short-press the Bluetooth/play/call button  once to play music from the last track played.

To Pause Music: Short-press the Bluetooth/play/call button  again to pause the music.

## 2. Volume Adjustment

During music playback or calls:

Press the volume + / next  button to increase volume.

Press the volume - / previous  button to decrease volume.

**Note:** Continue pressing as needed to adjust the volume to your desired level.

## 3. Track Navigation

During music playback only:

Press and hold the volume + / next  button to skip to the next track.

Press and hold the volume - / previous  button to go back to the previous track.

# Call Management

**Note:** This feature uses the main speaker only.

## A. Answer/End Calls

1. If music is playing, stop the music.

2. A "ring, ring, ring..." will be heard.

3. To answer the call, press the Bluetooth/play/call button , then begin talking.

4. To end the call, press the Bluetooth/play/call button  again, and resume music playback.

## B. Reject Calls

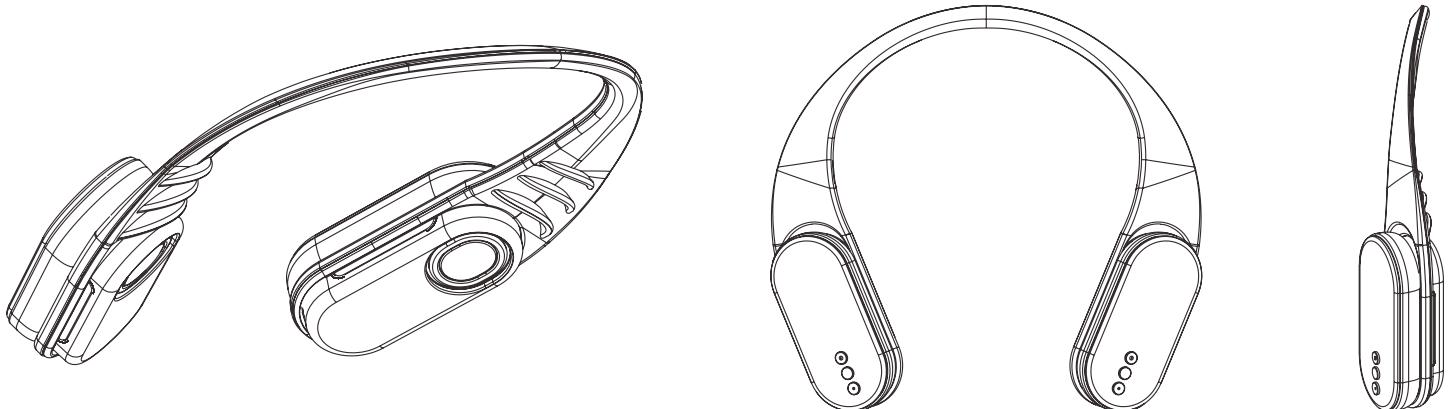

Press and hold the Bluetooth/play/call button  for 1 second to reject the call directly and resume music playback.

## C. Redialing

If there is no incoming call, double-click the Bluetooth/play/call button  to redial the last number in the call log of the phone.

## K Battery Low Alarm

1. During playback, a beeping alert will indicate a low battery.
2. Charge the two speakers following the steps outlined in the "Charging" section.
3. You can continue to play music while the speakers are charging.

## K Troubleshooting

Should you experience any of the following issues:

1. Only the left (L) side speaker is active, and the speakers are not functioning as a pair.
2. Your phone displays an unusually high number of the same speaker pairing names.
3. There is an unexpected loss of sound and subsequent failure to reconnect for regular playback.

Please proceed with the following steps to address these problems effectively:

1. Power down both the left (L) and right (R) speakers.
2. Connect and recharge both L & R speakers until the LED indicators on both show GREEN, signaling a full charge.
3. Remove or unpair all existing speaker pairing names from your phone's Bluetooth settings.
4. Disable Bluetooth on your phone, and subsequently initiate the pairing process again.

# Factory Reset Function

## A. Left Speaker

1. Press and hold the Bluetooth/play/call button  for 3 seconds to power on the left (L) speaker.
2. Press and hold the volume - / previous button  for 15 seconds until you hear 'beep beep' and observe the Blue LED blinking.
3. This action clears all previous pairing memory for the left speaker.
4. To turn off this speaker, repeat the previous step.

## B. Right Speaker

1. Press and hold the Bluetooth/play/call button  for 3 seconds to power on the right (R) sub speaker.
2. Press and hold the volume - / previous button  for 15 seconds until you hear 'beep beep' and see the Blue LED blinking.
3. This clears all previous pairing memory for the right speaker.
4. To turn off this speaker, repeat the corresponding power off step.

# Specifications

Product Name	Porodo Soundtec Neck Audio Wireless Speaker
SKU	PD-STWLEP024-BK
Battery	400mAh ×2
Output	Max. 2W ×2
Charging Voltage	DC 5V (Max. 5.5V)
Recharge Time	1.5h
Play Time	Up to 9h
Standby Time	Up to 12h
Bluetooth Version	V5.3
Bluetooth Name	ST-NeckAudio

Signal Noise Ratio	≥ 85dB
Transmission Distance	Up to 10m
Driver	31mm
Weight	169g
Dimensions	198×45×187mm

## **Warranty**

Products that you buy directly from our **Porodo** website or shop come with a 24-month warranty.

When you buy **Porodo** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at <https://porodo.net/warranty> and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.
