SUNCHARGE
Outdoor Solar Fan

SKU: PDLFSTFNBKOG

Table of Contents

Features

1. The fan is equipped with solar technology, allowing it to operate efficiently using renewable solar energy.

2. The fan offers four adjustable speed settings, providing personalized airflow for different needs and preferences.

3. The built-in light includes three brightness options, allowing for easy customization of lighting to suit various environments.

4. The fan features automatic oscillation with a 150° range, ensuring broad and effective air circulation across the room.

5. The fan includes a foldable hook that allows for easy hanging and storage, offering versatile placement options.

6. The fan's battery can last up to 30 hours on a full charge, providing extended usage without frequent recharging.

Specifications

Input	5V/2.4A
Rated Power	5W
Battery Capacity	6000mAh
USB-A Output	5V/2A
USB-C Input	5V/2.4A
LED Brightness	3 Levels

| Working Time	30H (Level 1), 20H (Level 2), 14H (Level 3), 8.5H (Level 4)
Wind Speed Levels	4 Levels (25% ,50% ,75% ,100%)
Product Weight	883g
Product Size	14 x 16.4 x 22.5cm
Model Number	PDLFSTFN

Installation Guide

Rotate the base circle to adjust the fan's orientation according to the selected usage mode (standing or hanging), ensuring the light panel or solar panel is positioned optimally.

Operation Modes

1. The fan is designed for use in a standing position, providing versatile air circulation in a stationary setup.
2. The fan can also be mounted or hung, allowing for flexibility in placement in various spaces.
3. The fan head oscillates 150° to the left and right, ensuring even air distribution across a wider area.

Product Components

1. Wind Speed/Battery Level/Charging Indicator: Displays the wind speed setting, battery level, and charging status.

2. Shows the charging status when the fan is powered via solar energy.

3. Controls the oscillation function, allowing the fan to move and distribute airflow across a larger area.

4. Adjusts the fan's speed across four different settings, providing flexibility for various needs.

5. Offers three levels of brightness for the light panel to suit different lighting preferences.

Indicator Guide

1. The green LED indicator shows the current wind speed setting, battery level, and charging status.
2. The red LED light indicates the charging status when using solar energy to charge the fan.

Operation Settings

1. Press the button to control the fan's oscillation and adjust the airflow direction.
2. The fan features four adjustable speed settings to suit various cooling preferences.
3. The light panel offers three adjustable brightness levels, providing flexibility to match your needs.
4. The USB-A output port allows you to charge other devices with a 5V DC output.
5. The fan is compatible with both USB-A and Type-C input ports for convenient charging.
6. Rotate the base circle to flip the light or solar panel for optimal adjustment and exposure to sunlight.

Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

Warranty

Products that you buy directly from our **Porodo** website or shop come with a 24-month warranty.

When you buy **Porodo** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at **porodo.net/warranty** and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.
