# Indicator Light Guide

**Red:** Indicates straight flash card reader activity.
**Blue/Red:** Shows the state of charge (Red when charging).

# Power On

Press and hold the power button. The headset will power on, indicated by alternating blue and red lights. The headset is now in pairing mode, waiting for a connection.

# Connectivity

**A. Wireless Functionality**
**1.** Navigate to the Wireless settings on your phone.
**2.** Search for and select the headset listed as " PD-STWLEP026" from the available devices.
**3.** Once the connection is successful, the headset's indicator light will flash.
**Note:** You may need to enter the password "0000" to connect.

**B. Bluetooth Connection**
**1.** On your mobile phone, navigate to Settings > Wireless & Networks > Bluetooth.
**2.** Enable Bluetooth connection and scan for available devices.
**3.** Connect to the device named " PD-STWLEP026" from the list of devices.
**4.** This enables the Bluetooth function of your mobile phone to pair with the headset.

# TF Card Play

To Play Music from a TF Card:
**1.** Insert the TF card into the slot on the headset.
**2.** Long press the 'M' key to activate the card reader mode; the indicator light will start flashing.
**3.** The system will automatically decode the audio files, allowing you to enjoy your music.

## Call Management

**To Answer a Call:** Quickly press the switch button.
**To Reject a Call:** Long press the switch button for 3 seconds.

## Charging

**1.** Turn off the headset to prepare it for charging.
**2.** Connect the charging cable to the headset and a USB port on your computer.
**3.** The indicator light will turn red to show that the headset is charging.
**4.** The headset will automatically shut down when the battery is low to conserve power. Please recharge the headset as soon as possible to meet system requirements.

**Note:**
**1.** The headset includes a built-in battery capacity test and fire protection for safety.
**2.** The indicator light will turn off automatically once the charging is complete.
**3.** Do not power on the headset during the charging process to avoid damaging the battery.

## Precautions

**1.** This headset is not waterproof. Avoid exposing it to water and moisture to ensure optimal performance.
**2.** This device primarily supports charging via a computer USB port. Do not connect it to high-power charging sources as it may damage the headset.
**3.** Do not leave the headset uncharged for extended periods. Regularly charge and discharge the battery at least once a week to prolong its life.
**4.** To reduce noise interference while using the headset connected to a phone for music, turn off the headset's power supply.
**5.** The headset will automatically shut down if not connected to a device within 3 minutes.
**6.** When the headset is not connected, you can switch the language of voice prompts by double-clicking the play button.

# Warranty

Products that you buy directly from our **Porodo** website or shop come with a 24-month warranty.

When you buy **Porodo** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at **porodo.net/warranty** and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.

For more info, please check:
