Before installing and using the product, please carefully read this User Manual to guarantee correct usage and keep it secure for future reference.

Features

1. Designed with advanced cooling technology to efficiently dissipate heat, ensuring your device operates at optimal temperatures even under heavy usage.
2. Features a high-performance fan that spins at 6000 RPM, providing exceptional airflow to cool down your device quickly.
3. Equipped with a digital display that shows the real-time temperature, allowing for easy monitoring of your device's thermal status.
4. Delivers a cooling power of 18 watts, capable of significantly reducing your device's temperature during intensive operations.

Product Overview

Instructions for Use

A. Installation

1. Extend the spring clip of the phone cooler while avoiding the button positions on your mobile phone.
2. Place your mobile phone into the cooler and adjust to ensure the cooling surface is aligned with the back of your phone.

B. Power On

1. Connect the Type-C charging cable to the input interface located at the bottom of the phone cooler.
2. Activate the device by toggling the power switch. When the ambient lights illuminate and the fan begins to rotate, the cooler is operational.
3. The cooler will automatically power off when charging.
4. Use the mode switch button to cycle through different cooling modes.

Mode Switch

-  Icebound Mode: Operates silently with extended cooling duration.
-  AI Mode: Features intelligent frequency conversion for consistent temperature regulation (maintained at 15°C).
-  Freezing Mode: Operates at full power for maximum cooling effect.

Specifications

Product Name	Porodo Gaming Freezing Semiconductor Mobile Cooling with Display
SKU	PDX632
Input	9-5V/3A
Cooling Power	18W
Fan Speed	6000RPM
Cooling Efficiency	Freeze at 25C ambient temperature
Mount Method	Spring Clip
Charging Port	Type-C
Product Weight	90.7g
Product Size	59×85.5×43mm
Standard	GB 4943.1-2022
Compatible Phone Width	72 to 93mm

Safety Precautions

Thoroughly review all the safety information before operating your device.

- 1.** Disconnect the adapter when you finish using the device to ensure safety and conserve energy.
- 2.** Do not insert fingers or any other objects into the air inlet as this could damage the device. Ensure that both the air inlet and outlet remain unblocked while the device is active to facilitate effective heat dissipation.
- 3.** Ensure the air inlet and outlet remain unobstructed while the device is operational to prevent impaired heat dissipation and reduced cooling efficiency.
- 4.** This device may interfere with medical equipment, such as heart pacemakers. Maintain at least a 15cm distance between your mobile device and a pacemaker to prevent potential interference.
- 5.** Individuals with pacemakers should not carry the device in their shirt pocket or close to their heart to avoid health risks.

6. To maintain optimal cooling performance, keep the air pathways clear to prevent heat build-up.
7. Do NOT dispose of this product as common household waste to prevent harm to the environment and human health.

Warranty

Products that you buy directly from our **Porodo** website or shop come with a 24-month warranty.

When you buy **Porodo** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at **porodo.net/warranty** and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.
