Peak Power	30W ×2=60W
Weight	2.01kg
Size	370×164.6×106mm

Instructions for Use

A. Power On/Off

Long-press the Power button  to turn the speaker on and off.

B. Bluetooth

Turn the power button  to "ON". The speaker will automatically enter Bluetooth mode.

Activate the Bluetooth on your mobile phone and search for the device name "Galactic" then connect to it.

Play music from your mobile phone and enjoy.

Long-press the Forward  or Backward  button to select songs.

Short-press the Forward  or Backward  button to adjust the volume up or down.

Short-press the Play/Pause button  to pause or resume the music.

Long-press the TWS button  for 2 seconds to disconnect the mobile phone from the device GALACTIC.

Short-press the button  to activate the Scene light and toggle between different projection colors (10 colors in total).

Long-press the button  to turn off the Scene light.

Short-press the EQ button  to toggle between different sound effects.

Long-press the EQ button  to switch the playing mode (Bluetooth/USB/AUX).

C. TWS Function

To pair two identical speakers, turn both on under Bluetooth (BT) mode. Only one of the two units needs to be set for pairing.

Short-press the TWS button  to initiate pairing. The white TWS indicator remains lit after successful pairing and will turn off if pairing fails within one minute.

To play music through both speakers, ensure your mobile phone's Bluetooth is connected to them.

Short-press the TWS button  again to exit the TWS function.

D. USB Port Input

Turn the Power button to "ON".

Insert a USB flash disk into the slot, and the speaker will automatically play the stored music.

Long-press the Forward  or Backward  button to select your preferred songs. Short-press these buttons to adjust the volume up and down.

Short-press the Play/Pause button  to play or pause the music.

Short-press the button  to activate the Scene light and cycle through different projection colors (10 colors in total).

Long-press the button  to deactivate the Scene light.

Short-press the EQ button  to toggle between two different sound effects.

Long-press the EQ button  to switch the playback mode (Bluetooth / USB/AUX).

Notes: Under any playing mode, when you insert a USB disk to the speaker, it will switch to play the USB disk.

E. AUX-IN

Connect other compatible music devices using an audio cable from the device's "Line Out" to the "Aux In" of this speaker and enjoy.

When an audio cable is used, the speaker automatically switches to AUX mode regardless of the previous setting.

Short-press the Play/Pause button  to mute the speaker while in AUX mode.

Short-press the button  to activate the Scene light, cycling through 10 different projection colors.

Long-press the button  to turn off the Scene light.

Short-press the EQ button  to toggle between two different sound effects.

Long-press the EQ button  to switch the playback mode among Bluetooth, USB, and AUX.

When using an external device, all functions are controllable via the connected or external device through the app "ZOOM life".

F. Activating Voice Assistant

Establish a Bluetooth connection with your mobile phone.

Long-press the Play/Pause button  to activate the voice assistant.

G. Hands-free Call

If there is an incoming call while connected via Bluetooth, you can short-press the Play/Pause button  to accept the call or long-press it to reject the call. During the call, you can press the Play/Pause button  to toggle between speaking through the phone and the device GALACTIC.

To end the call, short-press the Play/Pause button  or use your mobile phone's end call function.

Reset Functionality

If the speaker does not turn off or respond, use a small round pin to short-press the bottom of the AUX port to reset the speaker.

Long-press the TWS button  for 5 seconds to turn off the speaker and clear the Bluetooth connection memory.

Remarks

The default volume is set at 50 % of the maximum volume.

Playback time may vary depending on the volume level and the type of music being played.

Auto Power Off

To conserve battery life, the device will automatically power off in any of the following scenarios:

In Bluetooth mode but not connected to a mobile phone within 30 minutes.

In Bluetooth mode and connected to a mobile phone, but no music has been played for 30 minutes.

In USB mode but with music paused for 30 minutes.

In AUX mode but with music paused for 30 minutes.

Charging

1. When the battery voltage is low, the speaker will emit a sound and the pink LED indicator will blink as a prompt to recharge in a timely manner.
2. The charger is not included in the package. Please charge this speaker using a rated 5V/2A charger or a PC fast charger (rated 9V/2A) as supported.
3. After connecting the charging cable and initiating charging, the pink LED indicator (or red LED if the speaker is off) will remain illuminated.
4. Charging time should be approximately 3-4.5 hours. Once the speaker is fully charged, the Power LED indicator will turn off.
5. To protect the battery, avoid using the speaker while it is charging.

Warning

1. Please store and use this product in an environment of normal temperature.
2. Do not expose this product to rain or environments with high moisture levels.
3. Do not disassemble, repair, or modify this product without proper authorization.
4. When cleaning this product, use a soft cloth and, if necessary, a minimal amount of water; do not use chemical cleaners.
5. To extend the product's life and protect your hearing, avoid listening to music at maximum volume for extended periods.
6. This product contains a built-in lithium battery. To avoid hazards, please do not discard it carelessly or place it in the trash without following proper disposal procedures.

App Connectivity

1. To download the “Zoom Life” application, search for the app name in Google Play or the App Store. Alternatively, you can download the app by scanning the QR Codes provided below.

Android

iOS

2. After installing the app, first connect your mobile phone to the device via Bluetooth, then select the device “Galactic” in the app to enable remote control through the app.
3. To preserve the service life of the product, avoid setting the timer function for excessively long durations.
4. Before setting the timer, ensure that the speaker is actively connected via Bluetooth and ready to play music.
