Overview

The Porodo MagSafe Magnetic Phone Dash Mount is designed to enhance safety and convenience. The sleek and robust mount employs powerful magnets to secure your smartphone firmly, which ensures seamless access to your GPS, music, and hands-free communication, allowing you to stay focused on the road with minimal distractions.

Key Features

1. This mount is equipped with high-quality neodymium magnets, ensuring that it securely holds devices of all sizes and weights—from lightweight smartphones to those encased in heavy-duty protective covers.
2. This mount is designed to accommodate a wide range of smartphones, including but not limited to models from iPhone, Samsung, and Google Pixel. The versatile metal plate can be placed between the phone and its case or directly adhered to the back of the phone, all without hindering wireless charging capabilities.
3. Customize your viewing angle with the mount's 360° rotational capability and adjustable tilt feature, which together provide optimal visibility and enhance driving comfort and safety.
4. Effortlessly mount or unmount your phone using just one hand, ensuring quick and easy access to your device even while driving.
5. This product is meticulously designed with a robust base that securely clips onto your car's air vent or dashboard. It includes a dashboard pad for smooth surfaces to guarantee your phone remains stable, even on rough terrain.

Installation Guide

1. Fix the metal plate either to the back of your phone or inside its case. Ensure the adhesive side faces your device. Position the plate centrally on the phone or case for optimal magnetic hold.

2. Select whether you prefer to mount the device on your car's air vent or the dashboard. If opting for the dashboard, first attach the included dashboard pad.
3. Fasten the base of the mount to your chosen location, ensuring it is tightly secured. Be careful not to obstruct air vents completely.
4. Place your phone against the magnetic surface of the mount. The strong magnets will automatically secure your device in place.

Safety Tips

1. Always operate your phone hands-free while driving to ensure safety and compliance with traffic laws.
2. Periodically verify the security of the mounting location to ensure the mount remains firmly attached.
3. Do not place the mount in direct sunlight for prolonged periods, as this can lead to overheating.
4. Keep the magnetic area of the mount clean and free from dust and debris to ensure maximum magnetic connection.

Warnings

1. Refrain from placing heavy objects on the stand to prevent potential damage or instability.
2. Ensure the stand is kept out of reach of children to avoid accidental injuries.
3. Avoid the use of harsh chemicals, cleaning agents, or strong detergents for cleaning this product. Use mild cleaners to preserve the integrity of the surface.
4. Do not use or store this product in areas where it may be exposed to liquids to prevent damage and ensure operational safety.

Warranty

Products that you buy directly from our **Porodo** website or shop come with a 24-month warranty.

When you buy **Porodo** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at **porodo.net/warranty** and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.
