Features

1. Automatic Lifting Squeeze: The juicer features an automatic lifting mechanism that gently squeezes fruits to extract juice efficiently without manual effort.
2. High Juice Yield: Engineered to maximize juice extraction, yielding more juice and less waste from every fruit.
- 100 .3W Power Motor: Equipped with a powerful 100-watt motor that ensures consistent performance and durability.
4. Filter Hole Extraction: Incorporates precision filter holes to ensure smooth, pulp-free juice.
5. Easy to Clean: Designed with simplicity in mind, all removable parts are easy to clean and dishwasher safe.
6. On/Off Button: Simple one-touch operation with an on/off button for straightforward juicing.

Safety Precautions

1. This device is intended for home use only. Please do not use it for other purposes.
2. To prevent damage or hazards, do not open the product casing without authorization.
3. Do not submerge the main body in water for cleaning. To clean, detach the upper accessories by releasing the buckles and then wash them with water.
4. Do not use abrasive cleaners or corrosive liquids such as gasoline for cleaning.
5. This device should not be operated by children or individuals who are sensory impaired, mentally impaired, or lack sufficient experience.
6. Store and operate this device only within a temperature range of 0-45°C.
7. If disposing of the product, please do so responsibly and in accordance with local regulations.

Schematic View

Specifications

Power	AC 240-220V, 60/50Hz, 100W
Motor	100 % Copper
RPM	15000
Product Weight	1.85 kg
Power Plug	UK Plug

Instructions for Use

1. Before first use, clean the parts that come into contact with food.
2. Press the switch for two seconds; the green light indicates the device is on.
3. Position a half-cut orange on the grinder at the center for optimal results, then lock the cover clockwise.
4. Press the button to start the motor, ensure the limit switch is activated, then reset if necessary.
5. Press the button again to stop the motor during operation.
6. The device will automatically turn off if inactive for five minutes.
7. If an orange jams the machine, the motor will cease operation and the green light will flash for five seconds.
8. Continue pressing the button for two seconds to turn off the device.

Troubleshooting

Problem	Possible Cause	Solution
The blade is jammed	The device stopped due to an orange jamming the mechanism.	1. Hold down the power button until the device turns off. 2. Rotate the lower cover counterclockwise, remove the upper cover, and then remove the orange. 3. Continue pressing the start button to initiate the recovery process.
Shuts down abruptly during operation	The motor automatically shut off to prevent damage from overload.	Stop for 30 minutes, then restart the device.

Warranty

Products that you buy directly from our **Green Lion** website or shop come with a 24-month warranty.

When you buy **Green Lion** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at **<https://www.greenlion.net/warranty>** and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.
