### Product Introduction

## **Specifications**

Model No.	GL-HD16
Material	PC+ABS
Rated Power	1600W
Rated Voltage	220-240V
Rated Frequency	50Hz

Motor	BLDC Motor
Heating Element	Copper
Wind Settings	Low-High
Airflow Rate	13m/s-15.5m/s
Heat Settings	3 Level
Temperature	26-68-82°C
Noise Level	68 dB
Power Plug	UK Plug 1.8
Product Weight	455 g
Product Dimensions	290*75*98 mm

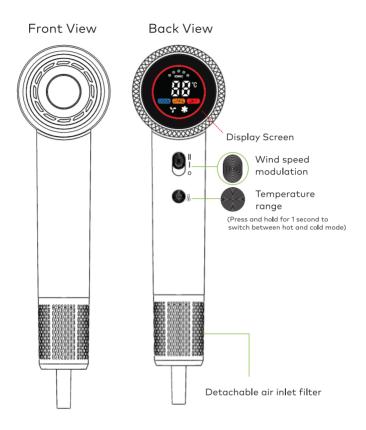

#### **Usage Method**

This product will turn off automatically when overheated. Please unplug this product and allow it to cool for a few minutes. Before using this product again, check the inlet and outlet to ensure they are not blocked by fluff, hair, etc.

Before using the product, please make sure that the product is in the off state (the switch key is at the bottom). Insert the power plug, slide the switch, and switch to the appropriate gear.

## Product Overview

# Gear Function

Wind Speed/Power Switch (Push up and down)

Before connecting the power plug, make sure the switch is in the Off (O) position.

Temperature/Wind Speed Control

Usage: After connecting the power supply, set the wind speed to the Off (O) position.

When pushed to (I), the product starts the first gear wind speed.

Wind speed in second gear when moving to (II).

There are three heat levels in the temperature range, with a short press to switch.

Temperature (long press the temperature button for 1 second to have the function of cold and hot cycling).

### **Display Corresponding Function**

- 1. Install the Filter
- 2. Remove the protective film from the new filter and install the filter.
- **3.** Hold the machine body with one hand while using the other hand to press down and rotate the cover to the right to secure the filter in place.

### Alternating Function of Hot and Cold Air

- 1. The cold air and hot air circulate automatically every 3 seconds.
- 2. Prevent heat concentration and style your hair as you dry it.
- 3. Function Entry: Boot operation in any temperature gear, long press

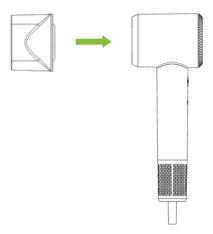

the temperature gear key for 1 second to enter the function of alternating hot and cold in the corresponding wind speed gear.

4. Function Exit: Press the temperature gear button once to exit.

#### **Nozzle Operation**

Installation Method: This product is equipped with a magnetic collection air nozzle. When using, the air nozzle can be easily absorbed by aligning the air nozzle with the outlet. It can be rotated arbitrarily for easy use.

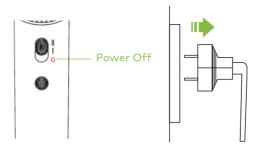

#### **Cleaning and Maintenance**

The filter needs regular cleaning and maintenance to avoid debris blockage to ensure smooth air intake.

Before cleaning the filter, make sure that the hair dryer is turned off and the power plug has been removed.

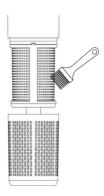

Power Off: Ensure the power is off before starting any cleaning.

The air inlet filter is fixed with a buckle design. Hold the handle tightly, pull down, and the filter can be removed from the handle.

The air inlet Tilter is Tixea with a buckle aesign. Hold the handle tightly, pull down, and the filter can be removed from the handle.

After cleaning, insert the inlet air filter into the slot of the matching handle. A click indicates that the air filter is in place.

#### **Safety Precautions**

To ensure the correct and safe use of the product and avoid personal injury or property damage, read all the instructions and warnings in this manual carefully before using the product.

#### Warnings:

- **1.** If the power cord is damaged, it must be replaced by professionals from the manufacturer, its maintenance department, or similar departments in order to avoid danger.
- 2. When using a hair dryer in the bathroom, unplug it after use, as it is still dangerous to approach water even if the hair dryer is switched off.
- **3.** For added protection, it is recommended to install a residual current (RCD) device with rated residual working current not exceeding 30mA in the bathroom power circuit. Please consult your RCD installer.
- **4.** Do not use this device near water bath, shower, wash basin, or other appliances.
- **5.** Do not cover the outlet and entrance when using, otherwise it will lead to combustion or mechanical damage.

- 6. Do not use this appliance near water.
- 7. Do not use a hair dryer near gas or other flammable objects.
- **8.** Do not press the hair needle or other inappropriate items into the hair dryer inlet and outlet, otherwise it will cause hair dryer damage, and even electric shock accident.
- **9.** This device is not intended for use by persons with physical disabilities, sensory or neurological disorders, or inexperienced for use by persons (including children) who do not know how to use the equipment unless they are under the supervision and direction of the person responsible for their safety.
- 10. Watch your children and don't let them play with devices.
- **11.** Do not use a hair dryer near braids, paper, or other flammable materials, as this could cause a fire.

#### Forbid:

- 1. Do not immerse the product in water.
- 2. Do not use this product in a bath or shower.
- 3. Do not transform, disassemble, or repair the product by yourself.
- **4.** Do not knock or drop the product. If the product is damaged due to collision or fall, please stop using it.
- **5.** Do not use in the vicinity of petroleum gas or other flammable materials (such as volatile agents, paint thinner, spray, etc.) in order to avoid explosion and fire.

#### **Important Usage Instructions**

This product complies with all standards related to electromagnetic fields (EMF). Current scientific evidence proves that this product is safe when used correctly and operated according to this instruction manual.

# Electromagnetic Field

This product complies with all standards related to electromagnetic fields (EMF). Current scientific evidence proves that this product is safe when used correctly and operated according to this instruction manual.

#### **Environmental Disposal Guidelines**

When disposing of products, do not place them in general household garbage. Instead, take them to a government-designated recycling center. It's better for the environment.

### **Troubleshooting Guide**

problem	cause	solution		
This product doesn't work at all	The power socket connected to this product is not powered on	Ensure the outlet is plugged in		
	The product may overheat and automatically power off	Unplug the product and let it cool for a few minutes. Before turning the power back on, ensure the air outlet is clear of fluff, hair, and debris		
	The power supply voltage connected to the product may not be consistent with the product voltage	Verify that the voltage marked on the product type nameplate matches the current supply voltage		

## Hazardous Substance Description

	Hazardous Substance					
Component Name	Plumbum	Mercury	Cadmium	Hexavalent Chromium	Polybrominated Biphenyls	Polybrominated Diphenyl Ethers
Products	0	0	0	0	0	0
Hardware		$\circ$				
Heating Element Assembly	0	$\circ$

Adapter						

This form is prepared in accordance with SJT 11364.

O: Indicates that the content of the harmful substance in all homogeneous materials of the component is below the limit requirements specified in GB/T 26572.

X: Indicates that the hazardous substance in at least one homogeneous material of the part exceeds the limit requirements specified in GB/T 26572.

- a: The content of hazardous substances in the materials of the parts conforms to the limits of exempted items of the EU RoHS Directive (65/2011/EU).
- The "hazardous substances" and corresponding parts shown in this table will not cause any harm to the human body or the environment under normal use of the product. It is used to provide information about relevant substances to consumers and recycling practitioners, helping to properly dispose of the product when it is discarded.

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

# Warranty

Products that you buy directly from our **Green Lion** website or shop come with a 24-month warranty.

When you buy **Green Lion** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at **https://www.greenlion.net/warranty** and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.
