Product Overview

The Green Lion Solar X Power Bank offers a 30000mAh capacity with fast PD 20W charging, ensuring your devices stay powered while on the go. Equipped with a solar-powered design, it features a digital display and multiple charging ports, including USB-C, USB-A, and USB-Lightning. This portable power bank also includes a 2-mode flashlight with SOS and steady modes, providing convenience and reliability in outdoor settings.

Specifications

Model No.	GL-PX49
Material	PC
Battery Capacity	30000mAh
Solar Power Input	5V
USB-C Input	5V/3A, 9V/2A, 12V/1.5A (PD18W)
USB-Micro Input	5V/2A
USB-Lightning Input	5V/2A
USB-C Port Output	5V/3A, 9V/2.2A, 12V/1.67A (PD20W)
USB-A1 Output	4.5V/5A, 5V/3A, 9V/2A, 12V/1.5A (22.5W Max)
USB-A2/A3/A4 Output	5V/2A
USB-C Cable Output	5V/3A, 9V/2.2A, 12V/1.67A (PD20W)
Lightning Cable Output	5V/2A
Solar Panels	55*105 mm

Light Modes	Flash-SOS
Product Weight	645 g
Product Dimensions	43*71.5*149 mm

Features

1. The device is equipped with a USB-C input/output port, allowing for fast charging and data transfer, offering versatility in both charging and connectivity options.
2. Featuring four USB-A output ports, the power bank enables the simultaneous charging of multiple devices, making it an ideal solution for charging several gadgets at once.
3. With USB-Lightning input and output capabilities, the power bank provides compatibility for devices such as iPhones and iPads, ensuring convenient charging for Apple users.
4. The USB-Micro input allows for easy charging of the power bank using a standard Micro USB cable, enhancing its compatibility with a wide range of devices.
5. Designed with a portable handle, this power bank ensures ease of transportation, offering added convenience for users who require a mobile power solution.
6. The power bank incorporates multiple built-in protection features, safeguarding against overcharging, short circuits, and overheating, ensuring safe and reliable usage.

Package Contents

1. Power Bank
2. Charging Cable

Product Components

Power Display Description

The power bank features a four-speed digital display for easy monitoring of battery power. When charging externally, the power display gradually shifts through the four stages. When all four stages of the display turn off, it indicates that the power bank requires charging.

Safety Precautions

1. If the device is left unused for an extended period, ensure that the battery is charged at least once every three months.
2. During use, the device may become slightly warm; however, it is normal for the surface not to get too hot to the touch.

3. With USB-Lightning input and output capabilities, the power bank provides compatibility for devices such as iPhones and iPads, ensuring convenient charging for Apple users.
4. The USB-Micro input allows for easy charging of the power bank using a standard Micro USB cable, enhancing its compatibility with a wide range of devices.
5. Designed with a portable handle, this power bank ensures ease of transportation, offering added convenience for users who require a mobile power solution.
6. The power bank incorporates multiple built-in protection features, safeguarding against overcharging, short circuits, and overheating, ensuring safe and reliable usage.

Troubleshooting

1. When the mobile power supply cannot be charged:
 - 1.1 Verify that the power adapter is suitable and that the connecting cable and adapter are functioning correctly.
 - 1.2 It is advisable to use a compatible brand of power adapter for optimal charging.
2. When the mobile power supply cannot charge other devices:
 - 2.1 If the mobile power supply's battery level is too low, please recharge it.
 - 2.2 Ensure that the voltage of the device being charged is compatible with the output voltage of the mobile power supply. Verify the charging voltage of the device.
 - 2.3 Check that the connection between the charged device and the mobile power supply is correct, and confirm that the connection cable and adapter are properly connected.
 - 2.4 In the case of an internal circuit malfunction within the mobile power supply, please contact a service center for assistance.

Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

Warranty

Products that you buy directly from our **Green Lion** website or shop come with a 24-month warranty.

When you buy **Green Lion** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at <https://www.greenlion.net/warranty> and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.
