Overview

Thank you for choosing our Bluetooth FM Transmitter. This device enables the streaming of music and calls directly from your Bluetooth device to your car's stereo system. Equipped with the latest Bluetooth version, it offers an exceptional hands-free function and includes multiple charging ports (PD 45W 5V/2.4A max), which significantly reduces your mobile device's charging time. Please read the user manual carefully before using. We hope this device makes your driving experience both more enjoyable and safer.

Features

1. Transmits phone calls and audio streaming to the car FM stereo system via Bluetooth.
2. Features hands-free calling for driving safety.
3. Supports offline voice commands.
4. Charging ports: PD 45W (max) + 5V/2.4A (max), totaling 57W (max) to meet diverse charging needs.
5. Supports full duplex communication.
6. Includes dual built-in microphones for more accurate voice command recognition.
7. Supports USB disk reading up to 32GB.
8. Enables Siri & Google Voice Assistant activation.
9. Features an Apple Homepod style mood light with an on/off switch.
10. Equipped with the latest Bluetooth 5.4 technology.

USB Flash Drive Support	Supports up to 32GB (Not Included)
Music Format Compatibility	MP3, WMA, WAV, APE, FLAC
FM Frequency Range	87.5-108.0MHz
Bluetooth Version	V5.4
Bluetooth Name	PD-BTFMTVC
Frequency Range	2402-2480MHz
Weight	42g
Dimensions	55×43×76.5mm

Compatibility

This device can be paired as a hands-free kit with any Bluetooth-enabled devices.

Precautions

Please read all safety instructions and warnings carefully before using this product. Improper use of this product may result in damage. To ensure it works well, please never use this product under the following conditions:

1. Moist or underwater conditions.
2. Conditions near a heater or in high-temperature environments.
3. Conditions with direct and strong sunshine.
4. Conditions where falling has occurred.

Warning: Never disassemble the product.

Installing the Product

Plug the auxiliary power plug (10.) into an auxiliary power outlet. The LED display (4) first shows the voltage of the car battery for a few seconds and then displays "BT" to indicate that Bluetooth pairing mode is activated.

Bluetooth Connection

1. When the LED display shows "BT" the device will enter Bluetooth pairing mode.
2. Enable Bluetooth on the device you want to pair.
3. Search and select "PD-BTFMTVC" from the list of available Bluetooth devices on your smartphone to pair and connect.
4. If prompted, enter the pairing code '0000' or '1234'.

Connect to FM Radio

1. Once Bluetooth is connected, the LED display shows the FM frequency.
2. Select a frequency that is not occupied by a radio station to avoid signal disturbance.
3. Tune your car radio to an unused FM frequency, the same as the one you tuned

on the FM transmitter.

4. Short press the frequency button (6) until the frequency (4) starts blinking.
5. Use buttons (8) and (9) to tune the frequency of this product to match your car radio.

Music Controls

1. To stream music from the product to the FM radio, choose one of the following options:
2. Play music directly from the mobile device that is connected to the product via Bluetooth.
3. Insert a USB flash drive (not included) into the USB-A music port (1); it will be played automatically.
4. Insert a USB disk containing MP3/WMA/APE/FLAC/WAV files into the left USB slot. It will automatically play and transmit the music to the car stereo system.
5. Press the button (5) to play or pause music.
6. Press the button (8) to go back to the previous song.
7. Press the button (9) to skip to the next song.
8. Long press the button (8) to increase the volume.
9. Long press the button (9) to decrease the volume.

Note: In case you receive a call while playing music, the product automatically switches to the phone call.

Making Phone Calls

1. To answer an incoming call, press (5).
2. During a call, press and hold (5) for 2 seconds to switch to private mode.
3. During a call, press (5) to end the call.
4. To ignore a call, press and hold (5) for 2 seconds.
5. When making a call, you must dial the phone number on your mobile phone, but once the call is connected, you can use the hands-free function to enjoy it.

Activating Voice Assistant

When in Bluetooth mode, long press (5) to activate the voice assistant on your mobile phone (Siri or Google Assistant).

Using Offline Voice Command

Say the following words to experience the voice command functions: Play music, Pause music, Play next song, Play previous song, Volume up, Volume down.

Charging Mobile Devices

Connect the USB charger port to your mobile phone using a USB cable. When this product is powered from the car lighter socket, it will serve as a mobile phone charger.

Light Switch

Quickly press the (7) light switch button to turn on/off the dynamic spinning RGB light.

FM ON/OFF

Press and hold the button (6) for 3 seconds to turn off FM, display, and Bluetooth functions on the product, while continuing to charge.

Warranty

Products that you buy directly from our **Porodo** website or shop come with a 24-month warranty.

When you buy **Porodo** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at **porodo.net/warranty** and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.
