F. Automatic Standby

If inactive for more than five minutes in normal mode, the device will automatically shut down to conserve power.

G. Low Battery Shutdown

The device automatically powers off when the battery level is low.

Installation Guide

There are four installation modes available. The default mode is the Velcro traceless installation, while the others require customization.

[A] Velcro Traceless Installation

Step 1: Identify a suitable wall location near a power socket. Clean the surface thoroughly to ensure it is free of dust and moisture, which could cause the Velcro to detach during subsequent use, potentially creating safety hazards.

Step 2: Remove the backing tape from the Velcro strips. Affix the hook side of the Velcro to the wall, ensuring it is aligned correctly and parallel to the floor.

Step 3: Place the other side of the Velcro on the back of the product, covering all specified slots.

Step 4: Position the product against the hook Velcro on the wall. Press firmly and hold for a few seconds to secure. Before using the product, check that it is securely attached and stable.

Note: Do not attach Velcro to wallpaper or latex painted walls as it may not adhere properly and could damage the surface when removed.

Warranty

Products that you buy directly from our **Porodo** website or shop come with a 24-month warranty.

When you buy **Porodo** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at **porodo.net/warranty** and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.
