3.5 You can also press and hold to turn off the RGB light in the middle.

D Charging Other Devices

1. Connect the power bank to the device using a USB charging cable.
2. Press the power button to initiate the charging process. The mobile phone or digital device will display the charging status.
3. Unplug the charging cable once the mobile phone or digital device is fully charged.

Notice: Before charging mobile phones or other devices, ensure that the voltage and current requirements are compatible. Incompatible **charging may result in:** Battery bulging, Reduced battery lifespan, and Damage to devices lacking short-circuit protection.

D Notes

1. Charging the power bank: Use a USB charger with an output voltage of 5V, 9V, or 12V, or connect it to a computer USB port.
2. Check voltage compatibility: Ensure the device you are charging is compatible with the voltage of this product.
3. Stop using immediately: If the product shows any abnormal smell, temperature deformation, or malfunction during charging or storage, discontinue use and contact a professional service center immediately.
4. Please fully charge the product when using it for the first time. If the product has not been used for a long period, make sure to charge it at least once within three months. When the product is used for extended periods, it may become slightly warm but should not overheat, which is normal.
5. When using this product to charge mobile phones or other digital devices, please confirm that the charged device is in the charging state. This ensures that the product is functioning properly.

- 6.** When charging a device through the product, the device uses the power of this product first. After a full charge, please unplug the charging cable in time to avoid power loss.
- 7.** Improper use or self-consumption of this product may cause a shortened lifespan or other damages to the product, which will not be covered under warranty.

Cautions

- 1.** Do not disassemble or attempt to repair the product yourself.
- 2.** Avoid exposure to liquids or moist environments. Always keep the product dry.
- 3.** Read the instructions carefully when charging using alternative methods.
- 4.** Do not modify any parts of the product without proper authorization.
- 5.** **Inspection and Handling:** All products undergo strict inspection. If the product has been overheated, deformed, damaged, or scratched, stop using it and contact the dealer or manufacturer immediately.
- 6.** **Recycling:** Do not dispose of the product in regular garbage. Please take it to your local professional recycling center.

Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

Warranty

Products that you buy directly from our **Powerology** website or shop come with a 24-month warranty.

The 24-month warranty applies to products purchased directly from our **Powerology** website or store. If **Powerology** products are bought from any of our verified retailers, then the product is eligible for only a 12-month warranty. To extend your product's warranty, visit our website [**powerology.me/warranty**](http://powerology.me/warranty) and fill in your details in the provided form along with an uploaded picture of the product to process your request. Once approved, you will receive a confirmation email of the extended product warranty. Upload the required information within 48 hours of purchase to be eligible for a 24-month warranty period.
