## Safety Instructions

When using electrical appliances, always adhere to basic safety precautions. Retain these instructions for future reference:

1. Thoroughly read and familiarize yourself with all operating instructions before using the kettle.
2. Prior to connecting the kettle to the mains, visually inspect it to ensure it is intact and undamaged from transit.
3. Verify that the voltage specified on the data plate matches the local power supply before plugging in the appliance.
4. Use this kettle only with the provided base.
5. Exercise close supervision when the appliance is in use near children.
6. Keep the appliance out of reach of children at all times.
7. This appliance may be used by children aged 8 years and older if they are supervised or instructed on its safe use and understand the associated hazards.
8. Cleaning and user maintenance must not be performed by children under 8 years unless supervised.
9. Ensure the appliance and its cord are inaccessible to children under 8 years.
10. Persons with reduced physical, sensory, or mental capabilities or lack of experience and knowledge may use the appliance if supervised or properly instructed on its safe use and if they understand the potential risks. Children must not play with the appliance.
11. Never leave the appliance unattended during use.
12. Do not leave the appliance connected to the mains supply unattended.
13. Always operate the appliance on a stable, level, and non-flammable surface.
14. Do not use the appliance outdoors.
15. Always unplug the power cord after use, before cleaning, or when servicing the appliance.

16. If the power cord becomes damaged, it must be replaced by a service agent or a similarly qualified professional to prevent hazards.
17. When operating, never place the kettle in a closed space such as cabinets.
18. Repairs to electrical appliances should only be performed by qualified professionals. Improper repairs can pose serious risks to the user.
19. Do not operate the appliance if the plug or cord is damaged, after a malfunction, or if it has been dropped or otherwise damaged.
20. Conduct regular inspections of the mains cable to ensure it is free from damage. If any damage is found, do not use the appliance.
21. Prevent the mains cable from hanging over sharp edges or making contact with hot surfaces.
22. Do not route the mains cable under carpets, rugs, or similar coverings.
23. Allow the appliance to cool completely before storing it.
24. Keep the appliance away from flammable materials and high-pressure containers.
25. This appliance is designed for household use only and is not intended for industrial purposes.
26. Use only accessories or attachments supplied or recommended by the manufacturer.
27. Do not immerse the appliance, its base, or its cord in water or any other liquid.
28. Use this appliance exclusively for its intended purpose.
29. Do not insert objects into any openings, as this may damage the appliance and cause electric shock.
30. Ensure the appliance is positioned in an open area and is not in contact with cupboards, curtains, wall coverings, clothing, or other flammable materials.
31. Always unplug the appliance after each use by grasping the plug not the cord.
32. Do not cover the appliance during use or storage.
33. Never place the appliance on an electric, gas, or any other type of hob.
34. Children must be supervised to ensure they do not play with the appliance.

**35.** This appliance is intended for use in households and similar applications including:

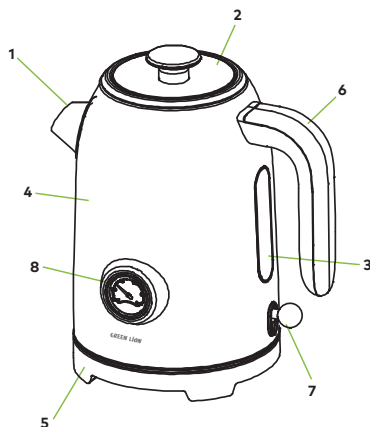

- Staff kitchen areas in shops, offices, and other work environments.
- Farmhouses.
- By clients in hotels, motels, and other residential-type environments.

**36.** Keep the manual for future references.

## Warning

1. Do not remove the lid while the water is boiling.
2. Never fill the kettle beyond its maximum capacity. Ensure the water level remains between the minimum and maximum marks. Overfilling may cause boiling water to be ejected.
3. Always ensure the lid is securely fitted during use and refrain from removing it while the water is boiling.
4. Caution: The exterior surface of the kettle will become hot during use.
5. Ensure the kettle is turned off before removing it from the base.

## Before First Use

**Note:** Please read these operating instructions carefully and store them in a safe place for future reference.

1. Fill the kettle to the maximum mark and bring the water to a boil.
2. Discard the boiled water and repeat the process.
3. If a slight taste or odor persists, repeat the procedure once more.

## Instructions for Use

1. Place the kettle on a flat, level surface.
2. Fill the kettle with water to the desired level, ensuring it is above the MIN mark and below the MAX mark.
3. Secure the lid on the kettle and position it on the base.
4. Insert the mains plug into the mains socket using dry hands.
5. Push the power on/off switch down. The light on the bottom edge will illuminate, and the water will begin to boil.
6. At the end of the boiling cycle, the power on/off switch will automatically turn off.
7. Wait until the water has finished boiling before lifting the kettle from the base unit.
8. Ensure the lid is securely fitted before pouring boiling water. Take caution to avoid scalding.

## Cleaning Instructions

**Warning:** Always disconnect the kettle from the mains power supply before cleaning.

1. Do not clean the kettle in a dishwasher.
2. Wipe the exterior of the kettle that comes in contact with water with a soft, damp cloth. Avoid using harsh or abrasive cleaners on any part of the kettle.
3. Do not immerse the base, mains cable, or any part of the kettle in

water or other liquids.

4. Ensure all cleaned surfaces are thoroughly dried with a clean, dry cloth before reassembling or storing the appliance.

## Decalcification Guide

1. The frequency of decalcification depends on the hardness of the water in your area and the frequency of use.
2. If the kettle switches off before reaching a boil or white deposits are visible inside, it likely requires decalcification.
3. Avoid using vinegar. Instead, use a commercially available decalcification agent and carefully follow the recommended quantities and instructions provided with the agent.

## Specifications

Model No.	GL-EK3
Material	SUS304+PP+BS
Heating Element	SUS304
Rated Power	1850-2200W
Rated Voltage	220-240V
Rated Frequency	50/60Hz
Capacity	1.7L
Temperature	0 to 100°C
Heating Time	4 to 6 min
Power Cord	UK Plug 75 cm
Product Weight	1 kg
Product Dimensions	218×152×257 mm

## Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

## Warranty

Products that you buy directly from our **Green Lion** website or shop come with a 24-month warranty.

When you buy **Green Lion** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at <https://www.greenlion.net/warranty> and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.
