# K Installation Guide

1. Screw the stand column into the base tank by turning it clockwise.

**2.** Place the wash basin on top of the column and secure it by pressing it down by hand or gently tapping it with a hammer.

For the initial installation, you may apply a small amount of lubricating oil to the top of the column to facilitate easier assembly.

**3.** Guide the water pipe through the designated rings and hole.

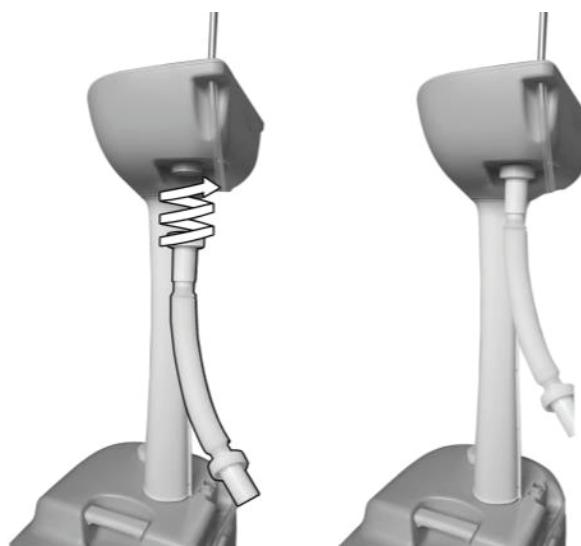

**4. Insert the faucet into the water pipe, then securely push it back into the hole of the washbasin.**

**5. Pour the liquid soap into the tank, then attach and secure the dispenser.**

**6. Attach the flexible drain hose to the washbasin by screwing it securely in place.**

## 7. Fill the base tank with water either directly or by using a funnel.
