Connection Guide

1. Place the wireless headset and your mobile phone (or other connected device) close together.

2. Ensure the headset is powered on. Open the charging case or remove the headset from the case. Make sure both the left and right earbuds are connected, and the headset will enter pairing mode.

3. Enable the wireless function on your mobile phone (or other wireless device) and search or scan for nearby wireless devices. When the device appears, click the corresponding model name to connect. Once paired and connected, you can use the headset for calls, music, and more.

Notes on Connection

- 1.** Keep the distance between the wireless headset and your mobile phone (or other connected devices) within 1 meter for the best connection. The closer, the better.
- 2.** Place the earbuds in the charging case and open the lid to begin the connection process.
- 3.** When removing the earbuds from the case, ensure that both the left and right earbuds are properly connected.
- 4.** Do not close the charging case lid during the connection process.
- 5.** Make sure the charging case has sufficient power. If the earbuds do not turn on when you open the case, place them back in the charging case, close the lid, and plug in the charger. Allow at least one hour of charging before attempting to connect again.
