Before using the product, please carefully read this User Manual to guarantee correct usage and keep it secure for future reference.

Features

- 1. The power strip features integrated protective measures to prevent overcurrent overvoltage, and short circuits, ensuring device safety and reliability.
- 2. Equipped with a manually operable switch, this power strip allows for a quick power cut-off, enhancing safety by providing immediate control over electrical flow.
- 3. Constructed from PC material, this shell is fireproof up to 1382°F (750°C). It includes insulating material that provides protection from electric shock.
- 4. Ideal for use in any indoor setting, including bedrooms, bathrooms, kitchens offices, meeting rooms, and student dormitories.

Precautions

- 1. Always hold the plug itself rather than the cable when disconnecting from the power source.
- 2. Do not use the device if it has been hit hard or dropped until it has been checked by a professional.
- 3. Keep the device away from moisture and water.
- 4. Ensure that children do not have access to the power strip.
- 5. Verify the power specifications of the device before plugging it in.
- 6. Avoid exposing the device to high temperatures.
- 7. Do not place the device near any materials that could catch fire.

Specifications
