## Instructions for Use

1. Align the electronic device parallel to the vacuum suction cup head, press the suction cup firmly, and hold for one second until the device is securely attached. Once attached, you can release it for use. If the battery is low, a continuous buzzer will sound as a reminder to recharge. During charging, the red light will flash slowly, and the green light will illuminate when fully charged.
2. This product features a strong N52 double magnet. To ensure proper use, attach the magnetic sheet to the back of your phone case. This prevents the magnetic sheet from sticking to the outer surface of the phone case due to the product's powerful magnet.

## Important Note

1. To maintain the cleanliness of the silicone product do not use the product in dusty areas to avoid exposure to dust particles.
2. Ensure that the power level is sufficient. Please charge it promptly to prevent weak adsorption, which can cause the product to detach and result in service failure.
3. If the product's suction is ineffective for more than a minute, ensure the suction cup is clean, free of foreign objects, and that the surface is smooth and clean.

## Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.
