# Specifications

Brightness	100 to 150lm
Waterproof Rating	IP66
Input	5V/2A
Battery Capacity	2000mAh
Charging Time	3h
Material	TPU
Operating Temperature	-20°C to 40°C
Product Size	10×30cm
Product Weight	107g
Working Time	[(15h, %30), (10h, %60), (5h, %100) Warm Light], [6h SOS White Light]
Model Number	LFS136

# Schematic View

## USB Charging cable

### Light Settings

1. Press the button once to activate the memory light.
2. The memory light recalls the previous warm and white light settings and brightness chosen when using the stepless dimming feature.
3. Press the button twice to turn on 30% warm light.
4. Press the button three times to turn on 60% warm light.
5. Press the button four times to turn on 100% warm light.
6. Press the button five times to activate the SOS white light.
7. Press the button six times to turn it off.
8. How to use the stepless dimming: When powered on and in any lighting mode, press and hold the button until the LED cycle changes the warm or white color temperature and brightness (1%-100% warm light → 100%-1% white light).
9. Memory lighting: The white or warm light settings will be saved when the button is released in stepless dimming mode, and these settings will be used as the first illumination the next time the light is turned on.

### Working Time

Memory mode LED at 1% brightness: Over 30 hours

100% warm and white light: 3 hours

30% warm light: 15 hours

60% warm light: 10 hours

100% warm light: 5 hours

SOS white light: 6 hours

## Instructions for Use

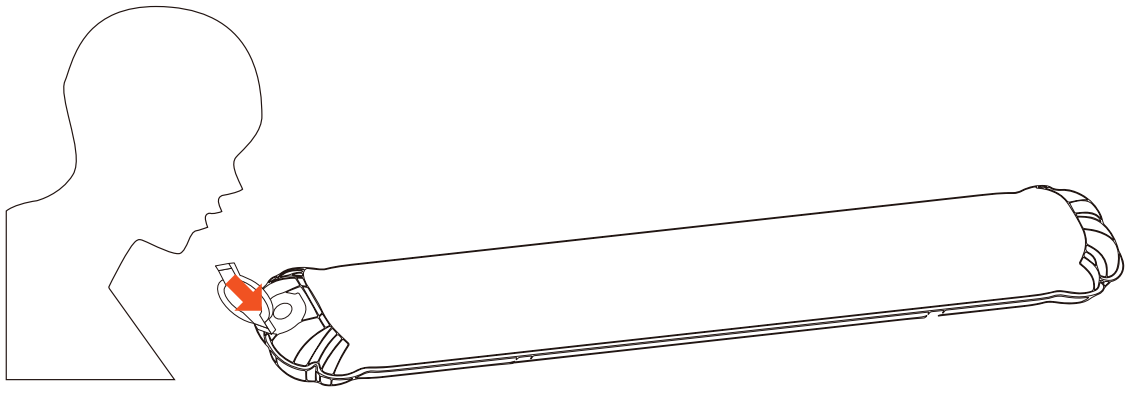

1. When you receive the light tube, charge it first to ensure the battery has enough power.
2. Open the air valve of the tube and inflate it carefully. Close the air valve once it is fully inflated.
3. Press the power button to turn on the device and select the appropriate lighting mode according to the LED working specifications.
4. When in use, avoid contact with sharp objects and keep the tube away from fire.
5. When not in use, turn off the power, open the air valve, and press it down slowly to deflate the tube and fold it.

## Charging Guide

1. The light tube can be charged using a USB charger.
2. Connect the included USB cable to the USB port on the tube, and plug the other end into a USB adapter.
3. The charging indicator will flash red during charging and turn solid red once the tube is fully charged. The blue battery indicators display the current battery level.
4. When all indicators are solid blue, the light tube is fully charged.
5. If the blue indicators decrease or there are no blue indicator lights, the light tube needs to be charged. You can check the power level by observing the status of the indicators.

## Inflation and Deflation

1. Inflation: The tube has a closed air shut-off, and the tube can be filled by blowing air directly through the air valve.

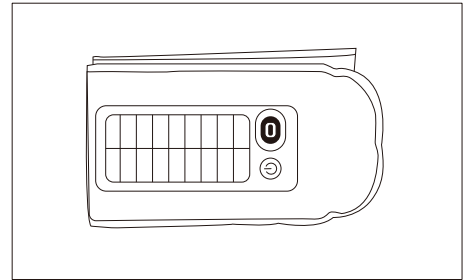

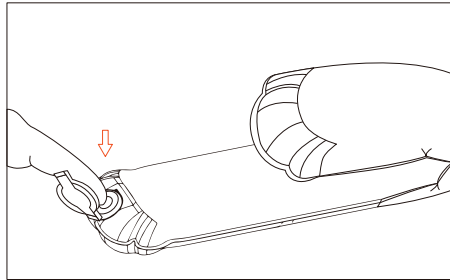

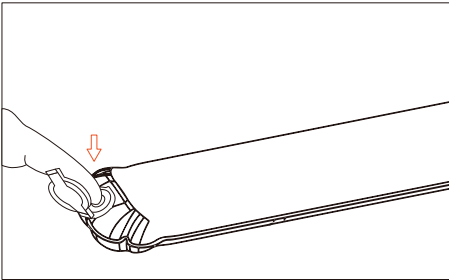

## 2. Deflation

**2.1** The tube is not a toy. Keep it away from children.

**2.2** Do not press down on or pull the tube with excessive force, as this may damage the tube.

**2.3** The tube contains a rechargeable Li-ion battery that cannot be replaced.

## Safety Information

**1.** To release the air, open the Inflation/Deflation port and press your finger down on the port. This will allow the air to escape.

**2.** To ensure that all the air in the lamp tube is completely discharged, you can fold the tube from the opposite end, guiding it toward the air valve. Gently press to squeeze out any remaining air.

## Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

## **Warranty**

Products that you buy directly from our **Porodo** website or shop come with a 24-month warranty.

When you buy **Porodo** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at **[porodo.net/warranty](https://porodo.net/warranty)** and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.
