█ Import Game

A. Insert a FAT32 formatted memory card into the external card slot of the game console. A new folder for each platform will be created. Simply place the game into the respective folder and select it from the game rooms.

B. Supported platforms include: ported games, PSP, PS1, N64, DC, NDS, ARCADE, GBA, GBC, GB, SFC, FC, MAME, MD, GG, PCE, Sega32x, NGPC, SMS, and WSC.

█ Common Settings

1. Language Settings
1.1 Select Settings > Language Settings in the main interface.
1.2 Available languages include: Chinese, English, Japanese, Korean, Russian, French, German, Spanish, and Portuguese.

2. Backlight Brightness
2.1 Select Settings > Backlight Brightness in the main interface.
2.2 There are 5 levels of backlight brightness.

3. Backlight Time
3.1 Select Settings → Backlight Time in the main interface.
3.2 Options include 1 minute, 2 minutes, 5 minutes, 10 minutes, and always on.
3.3 The screen backlight will turn off after the set time has elapsed.

4. Key Customization
4.1 Select Settings > Button Custom in the main interface.
4.2 You can customize the button mapping of the body buttons or the gamepad.

5. Game Quality
Options include high-definition, scan line, fast, dot matrix. Different options will present different screen filter display effects.

Game Settings

1. Game Quality
The game quality can be adjusted to various options: high-definition, scan line, fast, and dot matrix. Each setting provides different screen filter effects to enhance your gaming experience.

2. Game Streaming
2.1 Ensure both the game console and the computer are connected to the same Wi-Fi network.
2.2 Navigate to Settings > Moonlight in the main interface.
2.3 Enter the IP address of your computer to initiate pairing.
2.4 Input the PIN code to pair the devices successfully, then select Connect.
2.5 During streaming, press Menu + START to exit.

3. Bluetooth Settings
3.1 Select Settings > Bluetooth Settings in the main interface.
3.2 Enable Bluetooth by selecting Enable Bluetooth, then press the X key to scan for devices in the Search device section.
3.3 Select the desired controller from the list and connect according to the device name.

Indicator Light Guide

The product is packaged with a 5V/1.5A four-line charging data cable. Plug in the charging cable to begin charging the machine. The GL-GC9 has two indicators:

1. The lower indicator is the charging indicator.
2. The upper indicator is the working indicator.

🟢 **Green light**	**Working**
🔴 **Red light**	**Low power**
🟡 **Yellow light**	**Charging**

Emulator Shortcuts

Menu	Press Menu to access the main menu.
Menu+R2	Use Fast Forward to speed up the game.
