Specifications

Motor Type	60W Copper Motor
Pressure	10 to 30 kg
Rated Voltage	100 to 240V
Adjustable Press Time	1 to 3 Times
Portafilter Compatibility	58mm Portafilter
Weight	5.5kg
Dimensions	170*170*350mm

Product Overview

Control Panel

Product Features

1. Compact and Space-Efficient Design: This powder compactor is designed to be exceptionally compact, weighing 4.5kg, making it easy to carry and store. Its small footprint ensures that it occupies minimal space, helping optimize valuable bar area.

- 2. Consistent and Precise Pressure Control:** The device is designed for simplicity and precision. It utilizes a digital pressure system, allowing for a pressure range of 30-10kg. The weighing sensor system provides accurate control and ensures compatibility with various coffee extraction methods. Additionally, the powder hammer can be set to apply full pressure 3-1 times, offering flexibility for different brewing techniques.
- 3. Automatic Induction for Efficient Operation:** Equipped with a high-sensitivity sensor, the device automatically detects when the powder bowl is inserted. Upon contact with the sensor, the powder hammer engages to apply consistent pressure, ensuring even tamping of the coffee powder. This feature enhances efficiency, saving time while ensuring a perfectly pressed espresso every time.
- 4. Quick Powder Compaction, Efficient and Reliable:** Quick powder compaction with a single touch significantly improves production efficiency and enhances profitability. It also reduces errors that can occur when manually pressing the powder. The pressed powder surface is evenly compacted at a 360° angle, ensuring uniformity and a flat surface for consistent results.
- 5. Unique Powder Hammer Design:** The powder hammer is easy to clean, preventing dirt and static electricity buildup. It remains consistently clean, ensuring smooth operation and long-lasting performance.
- 6. Adjustable Horizontal Deck:** The adjustable bracket allows precise control, with a printed horizontal adjustment scale. This feature enables operators to adjust the height based on the amount of powder used. It is compatible with the standard 58mm coffee handle, providing flexibility and accuracy for consistent compaction.

Operating Instructions

1. Turn on the powder press and set the desired pressure and number of pressing cycles.
2. Place the coffee handle onto the handle holder and wait for 2–3 seconds.
3. Once the powder pressing hammer has finished, remove the coffee handle.

Troubleshooting

Issue: The coffee powder press does not start

Possible Causes:

1. The power plug is not connected.
2. The power adapter is damaged.

Recommended Actions:

1. Ensure the power plug is inserted correctly.
2. Replace the power adapter if it is damaged.

Safety Notes

1. Only connect the coffee powder press to a power supply with the same voltage as specified on the nameplate and socket.
2. If the powder press, power cord, or plug shows any visible damage, do not operate the device.
3. If the power cord is damaged, it must be replaced by the manufacturer or a qualified professional to prevent hazards.

- 4.** Never immerse the coffee powder press, power cord, or power plug in water or any other liquids.
 - 5.** Do not clean the coffee powder press with running water or a water flow.
 - 6.** Never handle the power plug with wet hands.
 - 7.** When unplugging, do not pull the power cord; always hold and pull out the plug directly.
 - 8.** Keep the powder press, power cord, and power plug away from open flames and hot surfaces.
 - 9.** Lay the power cord flat and avoid creating tripping hazards.
 - 10.** Do not bend the power cord or place it at sharp corners.
 - 11.** Operate the coffee powder press only indoors. Do not use it in humid environments or expose it to rain.
 - 12.** Ensure children do not insert objects into the coffee powder press. Always keep the device out of reach of children.
 - 13.** Never place fingers or other objects under the powder pressing hammer.
 - 14.** If you are not using the powder press, need to clean it, or if it is malfunctioning, turn off the power and unplug the device.
 - 15.** Do not attempt to open the device housing or perform maintenance yourself. Contact a qualified service technician for repairs.
- Unauthorized repairs or use of non-original parts will void the warranty and may cause damage or hazards.

Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

Warranty

Products that you buy directly from our **LePresso** website or shop come with a 24-month warranty.

The 24-month warranty applies to products purchased directly from our **LePresso** website or store. If **LePresso** products are bought from any of our verified retailers, then the product is eligible for only a 12-month warranty. To extend your product's warranty, visit our website **<https://www.lepresso.com/warranty>** and fill in your details in the provided form along with an uploaded picture of the product to process your request. Once approved, you will receive a confirmation email of the extended product warranty. Upload the required information within 48 hours of purchase to be eligible for a 24-month warranty period.
