1. Mug

2. Base

3. Power Cable

# Function Introduction

1. Choose a temperature between 65-35 degrees Celsius to maintain a constant temperature.
2. The device can be placed on the base for charging while simultaneously maintaining a constant temperature.
3. The device has a built-in battery that allows it to be moved while still maintaining a constant temperature.

**Important Note:** Only use the attached power plug to power the base.

Using other power supplies may prevent the device from working properly.

## Instructions for Use

- 1. Ensure the mug is charged before use.**
- 2. To activate the mug, connect the power supply and place the mug on the charging base.**
- 3. Isothermal Mode:** In this mode, you can set and maintain a desired temperature through heating.

4. Click the touch button to wake up the temperature setting button.
5. Set the temperature and begin operation once the screen flashes 3 times.
6. During operation, the display screen remains on, showing the real-time temperature.
7. To turn off: Long press the touch button to turn off the heating and switch to sleep mode.

## Sleep Mode

1. In this mode, only the real-time temperature is displayed. Heating is turned off, and the constant temperature cannot be maintained.
2. Temperature Check: Click the touch control button to view the current temperature, but the display screen will not stay on.
3. To turn on a constant temperature mode again, you need to reset the temperature.

## Overheat Protection

1. Empty Cup Warning: If the cup is empty, it will not heat, and the display will show E1.
2. No Operation for 24 Hours: If there is no operation on the charging base for more than 24 hours, the heating will stop, and the display will show E2.

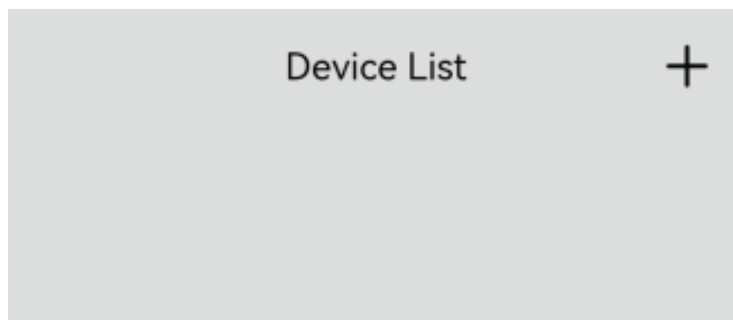

## App Instructions

1. For Android Devices: Scan the QR code below to download the app.

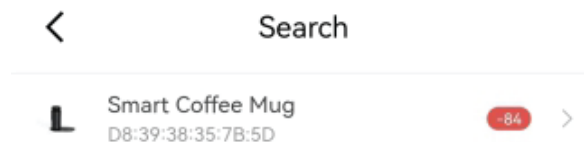

2. For iOS Devices: Search for "joozan" in the App Store to download the app.
3. Once connected, you can set and view the temperature directly in the app.

1. Open the app and go to the "Device List" section. Click the "+" to search for the Smart Coffee Mug.

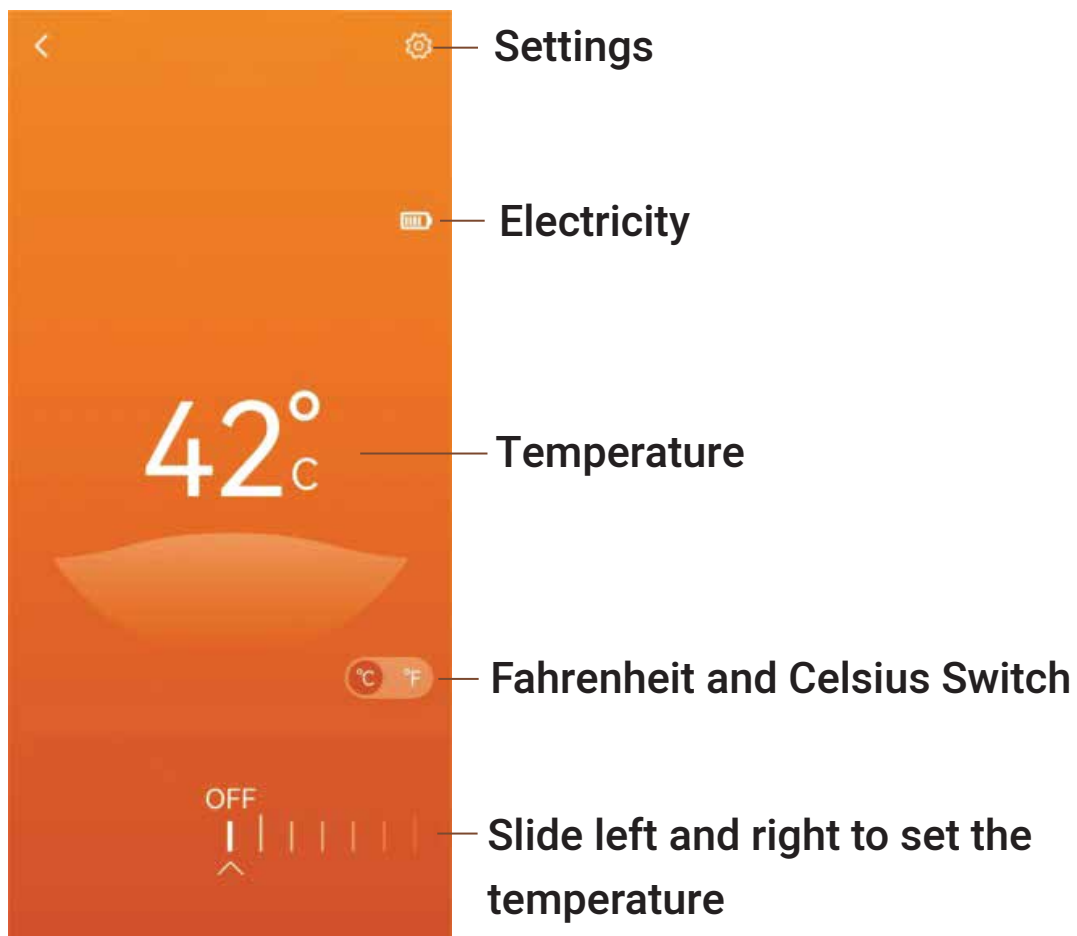

2. Once the mug appears in the search list, select it to connect.

3. After connecting, click on the mug to go to the Actions page where you can control the mug's settings.

## App Control

## Warning

1. Do not expose the product to the sun for long periods to prevent overheating.

- 2. Do not insert or unplug the plug with wet hands to avoid electric shock.
- 3. Do not disassemble the product.
- 4. Keep the product away from fire sources. Always carry it carefully and ensure the cover is tightened.
- 5. Do not use a microwave oven to heat the product.
- 6. Do not place the product in the refrigerator to avoid short circuits caused by water vapor.
- 7. Do not use dishwashers, dish dryers, or other machines to clean the product.

## Specifications

Capacity	355ml
Material	Stainless Steel + Ceramic Glaze
Input Voltage	12V/5A
Battery Capacity	4000mAh
Charging Interface	DC Port
Product Weight	498g
Temperature Range	35°C to 65°C
Product Size	83 x 70 x 180 mm

## Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

## **Warranty**

Products that you buy directly from our **LePresso** website or shop come with a 24-month warranty.

The 24-month warranty applies to products purchased directly from our **LePresso** website or store. If **LePresso** products are bought from any of our verified retailers, then the product is eligible for only a 12-month warranty. To extend your product's warranty, visit our website **<https://www.lepresso.com/warranty>** and fill in your details in the provided form along with an uploaded picture of the product to process your request. Once approved, you will receive a confirmation email of the extended product warranty. Upload the required information within 48 hours of purchase to be eligible for a 24-month warranty period.
