Preface

Thank you for purchasing this product. Please read the instructions carefully before use and retain them for future reference.

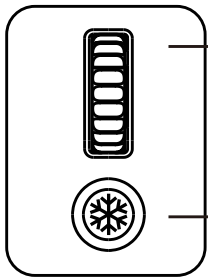

Product Overview

- | | |
|-------------------------|--------------------|
| 1. Air Outlet | 6. Type-C Port |
| 2. Cooling Unit | 7. Lanyard Hole |
| 3. Display Screen | 8. Air Intake |
| 4. Speed Control Roller | 9. Indicator Light |
| 5. Cooling Button | |

Instructions for Use

A. Function Button/Gear Adjustment

Speed Setting Roller

Roll the roller up or down to adjust the fan speed, ranging from 1 to 100.

Function Key

Press the button to turn on the fan. In the startup mode, press and hold to activate the cooling function. Press and double-click to enable the lighting function; the screen will not display lighting when this mode is active.

B. Display Status Description

Wind Speed/Electricity Display

The screen shows the wind speed and the battery or charge level.

Cooling Indicator

When the cooling function is activated, the screen will display "CL" and the cooling indicator will light up.

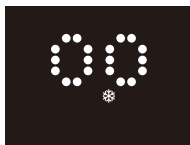

Wind Speed

Cooling Function

Battery Indicator

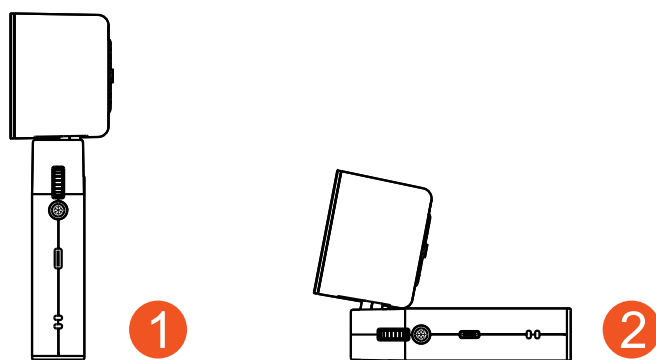

Expression Display

Operation/Status	Display Content
Power On	When the device is powered on, the current wind speed is displayed. When not in use, the screen cycles through power, wind speed, and expression. When cooling is on, it shows wind speed, battery level, cooling indicator ("CL"), and the expression cycle.
Regulating Wind Speed	Displays the current wind speed.
Battery Display	Shows the power level with the power icon lit up in green.
Does not turn on	Press the button, and if the power is 0, the power icon blinks and shrinks, then the display turns off.
Low Battery Reminder	When the battery is low, the battery icon changes from green to red.
Charging	During charging, the current battery level is displayed, and the battery icon lights up in red.
Fully Charged	When fully charged, "100" is displayed, and the battery icon lights up in green.

C. Using the Fan

1. Hold the handle to operate the fan.
2. Rotate the mask to 100° and place it on a flat surface.

D. Product Cleaning

1. Before cleaning the product, ensure that the power supply is disconnected.
2. The product mask cannot be removed. Use a clean cloth and brush to wipe the surface of the fan cover and air inlet grid.
3. Do not use water or any other liquids to clean electrical components (such as motors, power switches, etc.).
4. Avoid touching the power supply or electrical components with wet hands or cloths.

Specifications

Model Number	LFS151
Input	5V/1A
Rated Power	11W
Battery Capacity	3000mAh
Operating Speed	13000RPM
Wind Speed	1-100 Levels
Charging Time	5H
Charging Port	USB-C
Flashlight	50 Lumens
Working Time	Up to 4H
Product Size	59 x 47 x 163mm
Product Weight	182g

Safety Precautions

- 1.** This product is not a children's toy. Ensure that infants and young children do not play with this product as a toy. For children under 14 years old, use under the supervision of a guardian.
- 2.** This product is not intended for use by individuals (including children) with insufficient physical, sensory, or mental abilities, or those lacking experience or knowledge, unless supervised by a responsible person.
- 3.** Avoid blowing air directly onto the body for extended periods, especially for the elderly and children, to prevent physical discomfort.
- 4.** Do not insert fingers, sharp objects, or metal items while using the product, as this could lead to product malfunction, electric shock, or injury.

- 5.** Do not use wet hands, wet towels, or similar items to plug in or unplug the power supply, to avoid electric shock.
 - 6.** This product is not waterproof. Do not expose it to water or use it in damp environments, such as bathrooms. If the product is exposed to water, ensure it is completely dry before using it again. Do not attempt to use the product until it has dried completely.
 - 7.** Do not cover the air outlets or inlets with items such as towels, cloths, or other objects to prevent damage to the product.
 - 8.** It is prohibited to use or store the product in high-temperature environments (above 60°C) or confined spaces, such as greenhouses, construction sites, furnaces, sun-exposed cars, or other similar conditions. These environments can cause plastic deformation, flame exposure, battery explosion, and other failures or accidents.
 - 9.** Do not squeeze, disassemble, or place the battery in a high-temperature environment (60°C or above) for extended periods, as this may result in leakage or explosion.
 - 10.** When using a power adapter for charging, ensure the input voltage and current are within the range of product's technical specifications. The product should only be used after obtaining the necessary national mandatory safety certification.
 - 11.** This product uses a lithium-ion battery with no memory function. Overcharging or over-discharging will impact the service life of the product. Please ensure the battery is fully charged and disconnect the power supply if not used for an extended period (more than 3 months).
 - 12.** If smoke, fire, or any other faults occur during use, immediately turn off the power, cease use, and contact the dealer or manufacturer for assistance. Do not attempt to disassemble or repair the product yourself to avoid potential danger or damage.
- Warning:** Do not bend or pull the power cord during charging, as this may cause poor contact.

Material Contents

Part Name	Harmful Material					
	Lead (Pb)	Mercury (Hg)	Cadmium (Cd)	Hexavalent Chromium (Cr(VI))	Polybrominated Biphenyls (PBB)	Polybrominated Diphenyl Ethers (PBDE)
Product Body	X	○	○	○	○	○
package	○	○	○	○	○	○
Attachments	○	○	○	○	○	○

This form is prepared in accordance with the provisions of SJ/T11364.0:

O: Indicates that the content of the hazardous substance in all homogeneous materials of the part is below the limit requirements specified in GB/T 26572.

X: Indicates that the content of the hazardous substance in at least one homogeneous material of the part exceeds the limit requirements specified in GB/T 26572.

All parts listed in this table with an "X" in their name are exempt from the Exceptions List for the Application of Restricted Substances in the China RoHS Compliance Management Directory. These parts also comply with EU RoHS legislation.

Note: The reference label of the environmental protection life depends on the temperature and humidity of the product under normal working conditions.

Environmental Statement

The number in this label indicates the environmental protection life of the product under normal use, which is 5 years. Some parts may also have an environmental life label, based on the number in the label. Depending on the model, the product may not include all the above components other than the host.

Disposal

About Lithium Battery Waste:

1. When removing the battery, ensure that the handheld refrigeration fan is turned off.
2. The battery must be disposed of safely.

3. Before disposing of the handheld refrigeration fan, the battery must be removed.

Removing the battery:

To remove the battery, use a tool to open the rear cover of the handheld refrigeration fan, disconnect the battery lead terminal from the circuit board, and remove the battery. Dispose of the battery at the designated recycling point for lithium batteries.

Warranty

Products that you buy directly from our **Porodo** website or shop come with a 24-month warranty.

When you buy **Porodo** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at **porodo.net/warranty** and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.
