Introduction

Thank you for choosing to purchase this product! This is a two-in-one wireless charger with a simple and elegant design. It is compatible with magnetic wireless charging series phones, iWatches, and other Qi-enabled wireless charging devices. It provides you with a convenient, fast, safe, and hassle-free wireless charging experience.

Specifications

Model No.	GL-PX48
Material	ABS + Aluminum
Magnets	N16*52
Input Port	USB-C
Power Input	9V/3A (18W)
Phone Output	5W / 7.5W / 10W / 15W

Watch Output	5W Max
Charging Efficiency	≥%73
Product Weight	152g
Folded Dimensions	62 x 116 x 15 mm
Expanded Dimensions	62 x 65 x 104 mm

Usage Method

1. Insert the Type-C data cable provided with the product and connect it to a power supply.
2. When the power indicator light on the side of the product illuminates, place your wireless charging-enabled magnetic phones and watches one by one at the center of their respective charging areas to begin charging.

Attention

1. When using this product for the first time, please read the user's manual thoroughly and follow the instructions to ensure correct operation.

2. Use an adapter that complies with local safety standards to avoid unstable charging.
3. Do not place metal sundries or magnetic cards on the product to prevent damage or abnormal charging.
4. Do not use the product in high temperature, humid, or corrosive environments to prevent damage to the circuit.
5. Do not disassemble this product on your own. If maintenance or repairs are required, please hand it over to after-sales or professional maintenance personnel.
6. Keep out of reach of children.
7. Protect the device from impacts and extreme temperatures.
8. Avoid placing it near fire.
9. Do not expose to water. Discontinue use if it becomes wet.

FAQ

Q1. The phone does not charge.

A: The phone is not aligned with the charging sensing area or the receiving coil is not installed correctly.

Q2. Charging fever.

A: It is normal for the receiving coil or transmitter to generate heat during wireless charging.

Q3. Mobile phone charging intermittently.

A: The charging current from the power adapter is insufficient or the voltage is unstable. Please use a qualified adapter.

A: The charging position is too biased, the electromagnetic induction is not in place, and the charging position needs to be adjusted.

Q4. Slow charging.

A: The wireless charging current allowed by the mobile phone itself or the external receiving coil is different, or the standby power consumption of the mobile phone is large when charging. It is recommended to reduce the standby program of the mobile phone.

Q5. Other questions.

A: Please contact after-sales customer service directly.

Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

Warranty

Products that you buy directly from our **Green Lion** website or shop come with a 24-month warranty.

When you buy **Green Lion** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at **<https://www.greenlion.net/warranty>** and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.
