## Product Care & Usage

1. Before connecting other devices to the hub, first connect the hub to the host device.
2. Use the laptop's original power adapter to charge the laptop through the USB-C PD port on this hub.
3. When connecting an external hard drive or multiple devices to the hub, first connect the laptop's power adapter to the USB-C power transfer port, as the host device may not be able to provide the required power.
4. The USB-C power transmission port can be used to power laptops or charged devices, and can also be used to transfer data at standard speeds.
5. SD and microSD card slots cannot be used at the same time. Your host device will recognize the card slot used first.
6. Keep away from liquids and extreme heat.
