## Product Features

1. You can input current to the fan through USB socket, mobile power supply, mobile phone adapter, etc., to meet different scenarios.

2. Use of brushless motor:

Low interference, smooth operation, long service life, safer, more stable, and more silent.

3. Switch Mode:

-Press and hold to start the main engine and activate the remote control, then click to switch the 5-gear wind cycle.

-Tap to turn the head shaking function on or off.

-Press and hold to start timing (3h, 6h, 9h) to turn on or off the light.

## Cleaning & Maintenance

1. When cleaning this product, ensure that the fan is disconnected from the power supply before removing the protective housing.

2. The front screen of the fan can be removed, and the outside of the fan blade, rear cover, and battery compartment can be wiped with clean rags. After cleaning, please leave the parts to be completely dry before installation and use.

3. It is forbidden to use water or other liquids to clean electrical parts (such as motors, power switches, etc.).

4. Do not touch the power supply and electrical components with wet hands or rags.

5. Do not immerse in water or other liquids.

## Specification

Model No.	GL-DF12
Material	ABS+PP

Battery	8000mAh
Power	12W
LED Light	Warm Mode
Fan Speed	5 Levels
RPM Range	2280-110 RPM
Airflow	10.8 m/s
Oscillation	140°
Angle Adjustable	90°
Timer	3h-6h-9h
Noise Level	42 dB
Charging Port	USB-C
Charging Time	4 Hrs
Working Time	4-8 Hrs
Product Weight	1.72 kg
Product Dimensions	260*260*858 mm

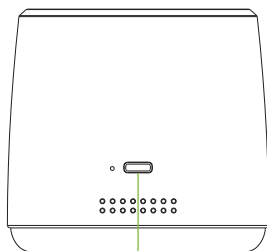

## Warning

1. Please fully charge the battery for the first time. The battery of the product is specially supplied by our factory. Please do not replace the battery not configured by our factory without authorization, in order to avoid short circuit and chip damage.
2. When the fan is working, the fan blade rotates at high speed. It is forbidden to put your fingers into it to avoid danger.

3. This product is not a children's toy. Children under 12 years old should use it under the supervision of a guardian.
4. Do not squeeze, disassemble the battery or put the battery in a high-temperature environment (60°C and above) for a long time. Otherwise, there may be liquid leakage or explosion risk.
5. National mandatory CCC certified power adapter (output current  $\approx 2.4\text{A}$ ) must be used for charging or direct power supply.
6. This product uses a large-capacity 18650 lithium-ion battery. Over-charge or over-discharge will affect the service life of the product. Please charge in time and disconnect the power after fully charging.
7. It is forbidden to shake the fan head violently to avoid damaging the machine.
8. In the process of using the product, please stop using it immediately in case of any abnormality.

## Quick View

Parts of the Fan:

Type-C interface

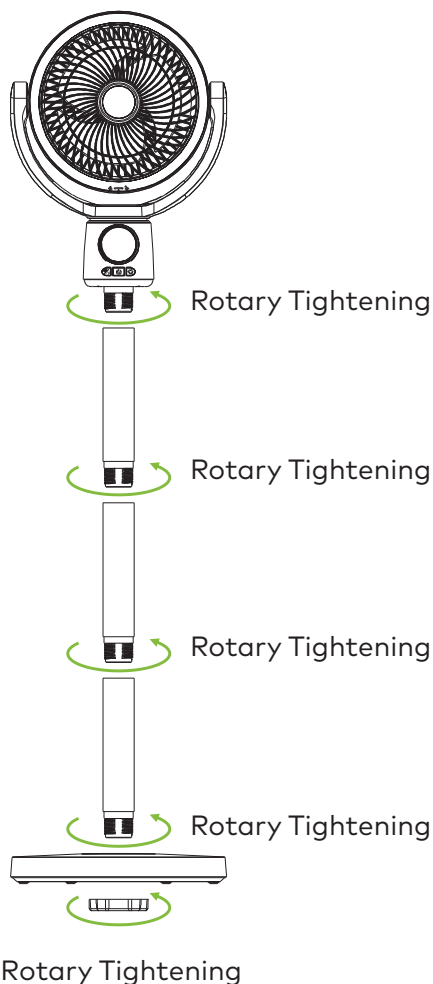

Front Windshield:  
(The front windshield can be removed by rotating it anticlockwise. When installing it, align it with the detent and then rotate it clockwise.)
