Features

1. Products use well-known and high-quality chips, making charging more efficient and safe.
2. Uses high-quality and powerful batteries with optimized charging and discharging power to make power banks safe, reliable, and long-lasting.
3. Adopts a high-quality TFT color screen that can display functional parameters in real-time, improving the consumer experience.
4. Super small design, easy to carry and use.
5. Built with a USB-C cable, supporting PD65W max discharge. Special design for laptops. Compatible with iPhone 15-16 series and all Android phones for fast charge.
6. Built-in USB-C cable supports fast charge input, allowing direct charging via wall charger.
7. Products adopt innovative design appearance, optimize high-quality materials, and select high-standard manufacturing processes with strict quality control to provide consumers with good products.

Product Overview

Specifications

Model No.	GL-PX52
Material	PC + ABS
Battery Capacity	20000mAh
USB-C Port Input	5V/3A, 9V/3A, 12V/3A, 15V/3A, 20V/2.25A (PD45W)
USB-C Cable Input	5V/3A, 9V/3A, 12V/3A, 15V/3A, 20V/2.25A (PD45W)
USB-C Port Output	5V/3A, 9V/3A, 12V/3A, 15V/3A, 20V/2.25A (PD65W)
USB-A Port Output	5V/3A, 9V/2A, 10V/2.25A, 12V/1.5A (22.5W Max)
USB-C Cable Output	5V/3A, 9V/3A, 12V/3A, 15V/3A, 20V/3.25A (PD65W)
Total Output	5V/3A (15W Max)
Cable Length	16.8 cm
Product Weight	345 g
Product Dimensions	33*68*103 mm

Power Indicator

100 % Power

0 % Power

The LED display will go from 100 % to 0%, when it's around %0, means the power is low, please recharge it.

Notes

1. If this device is not used for an extended period, please charge it at least once every 3 months.

2. It may generate slight heat during charging, which is normal as long as the temperature remains below 55°C.
3. Always keep this device dry and avoid cleaning it with chemical agents.
4. Go green with XIPIN and recycle this device at the designated location.
5. Children should use this device only under adult supervision.
6. Do not crash, disassemble, impale, or expose this device to humid conditions.
7. Do not use this device to charge devices with incompatible current and voltage, as this may cause fire or other hazards.

FAQ

1. When this device is not charging:
2. Please check if the cable, charger, or adapter used are functioning properly.
3. If not, please select compatible components to charge it.
4. When charging the phone:
5. Ensure that the power is on and that there is sufficient charge in the device.
6. If the above steps are checked and everything seems fine, please visit a local retailer for assistance.

Warning

1. If the battery is not replaced properly, there is a risk of explosion. Only the same type or an equivalent type of battery should be replaced; replacement must be done by maintenance personnel, not by ordinary users.
2. The battery should not be exposed to direct sunlight, fire, or any similar overheating conditions.

3. If consumers use a power adapter for charging, they should ensure the adapter is certified and meets the required standards.
4. When the product is used, it should be placed on a desktop.

Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

Warranty

Products that you buy directly from our **Green Lion** website or shop come with a 24-month warranty.

When you buy **Green Lion** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at <https://www.greenlion.net/warranty> and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.

For more info, please check:
