Notes

1. If this device is not used for an extended period, please charge it at least once every 3 months.
2. It may generate slight heat during charging, which is normal as long as the temperature remains below 55°C.
3. Always keep this device dry and avoid cleaning it with chemical agents.
4. Upon attempting to dispose of the product, please recycle this product at a designated location according to the regulations.
5. Children should use this device only under adult supervision.
6. Do not crash, disassemble, impale, or expose this device to humid conditions.
7. Do not use this device to charge devices with incompatible current and voltage, as this may cause fire or other hazards.

Troubleshooting

If the device is not charging, check if the cable, charger, or adapter is functioning properly. If not, please use compatible components for charging. When charging your phone, ensure that the power is on and the device has sufficient charge. If everything seems fine after checking the above steps, please visit a service center for assistance.

Warnings

1. If the battery is not replaced properly, there is a risk of explosion. Only the same type or an equivalent type of battery should be replaced; replacement must be done by maintenance personnel, not by ordinary users.

2. The battery should not be exposed to direct sunlight, fire, or any similar overheating conditions.
3. If consumers use a power adapter for charging, they should ensure the adapter has obtained CCC certification and meets the required standards.
4. When the product is used, it should be placed on a desktop. If it needs to contact the human body, the contact time should be less than 10 seconds.
5. Do not use the product after it has been soaked in water.

Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.
