## Product Overview

The Porodo Flamemaster Butane Gas Lighter is designed for those who need precise control over flame intensity. With a maximum heat of 1300°C, it allows you to adjust the flame for various tasks, ensuring flexibility and efficiency. The lighter features a lightweight and safe design, equipped with Piezo ignition for quick and easy use. Its multi-purpose functionality makes it a great tool for different applications, from cooking to DIY projects. This adjustable flame lighter combines convenience and power, making it an essential tool for both professional and personal use.

## Specifications

Fuel Type	Butane Gas
Gas Consumption	150 g/h
Max Temperature	1300°C
Injector Size	14mm
Product Weight	80.4g
Product Size	14 x 65 x 200mm
Model Number	PDLFST930

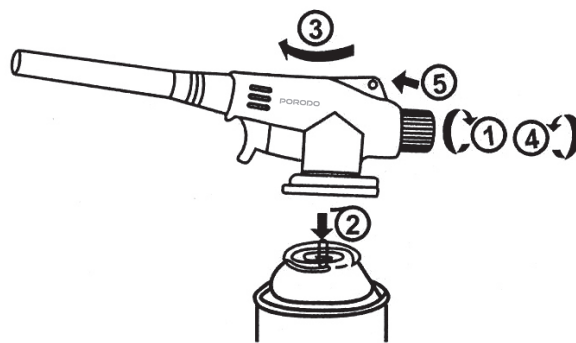

# Installation Guide

## Base 1:

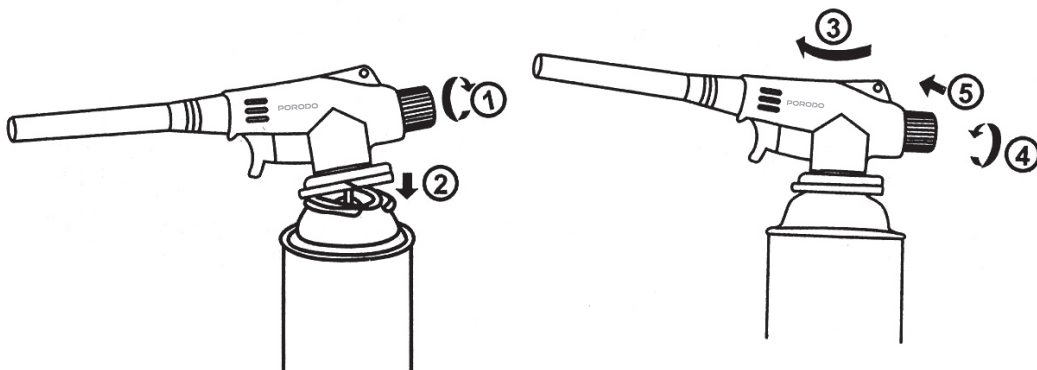

1. Tighten the knob clockwise.
2. Insert the bayonet of the gun into the socket of the butane gas cylinder and press it.
3. Turn the gun body about 25° clockwise until it is securely fastened to the cylinder.

## Base 2:

1. Tighten the knob clockwise.
2. There are two bayonets on the gun:
  - a. Use the first bayonet to seize the rim of the butane gas cylinder.
  - b. Aim the second bayonet at the socket of the cylinder and press down.
3. Turn the gun body about 25° clockwise until it is securely fastened to the cylinder.

## Operation Instructions

### 1. Ignition

- a. Keep the gas cylinders upright. Turn the knob about 1/4 turn counterclockwise, then press the ignition switch.
- b. If ignition is unsuccessful, adjust the gas flow using the knob and try again.
- c. Flame size is adjustable.

### 2. Turning Off the Flame

Turn the knob clockwise until the fire is extinguished.

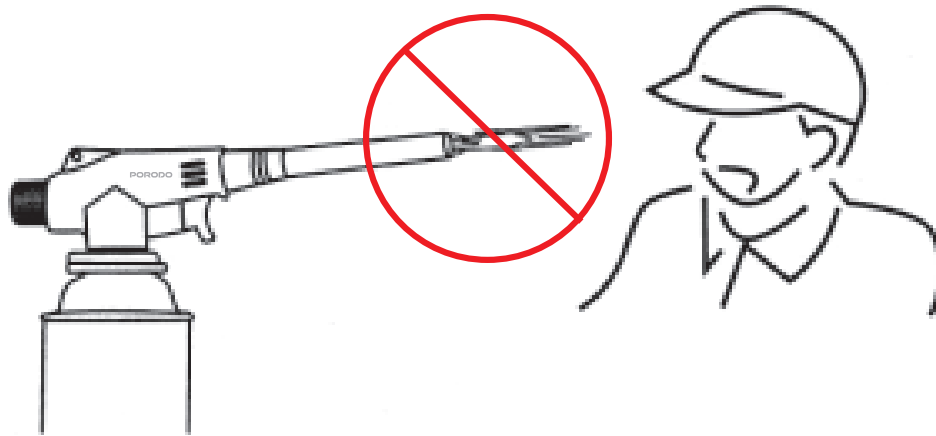

### 3. Removing the Cylinder

Rotate the gun body back to its initial position (about 25°) and lift it until the cylinder is disconnected.

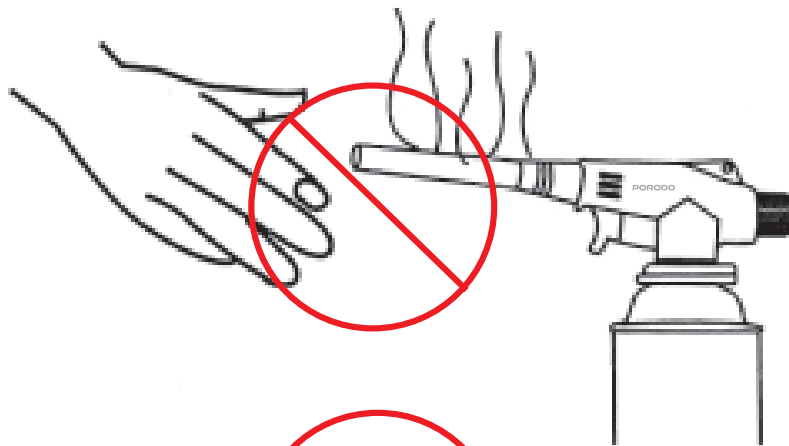

## Safety Precautions

- 1. Never aim the gun at people or animals – Always ensure the nozzle is directed away from others to avoid injury.
- 2. Keep a safe distance from the gun barrel – The barrel remains extremely hot during and after use. Avoid touching it or getting close to combustible materials.
- 3. Always operate the gun with one hand – Ensure you have full control over the device while using it.
- 4. Do not place gas cylinders upside down – This can cause a dangerous malfunction. Ensure cylinders are positioned correctly.
- 5. Wear proper protective gear – Always wear safety gloves and goggles to protect yourself from potential heat or debris.
- 6. Ensure proper ventilation – Use the gun in a well-ventilated area to avoid inhaling harmful fumes.
- 7. Check for leaks – Before use, inspect the gas cylinder and connections for any potential leaks.

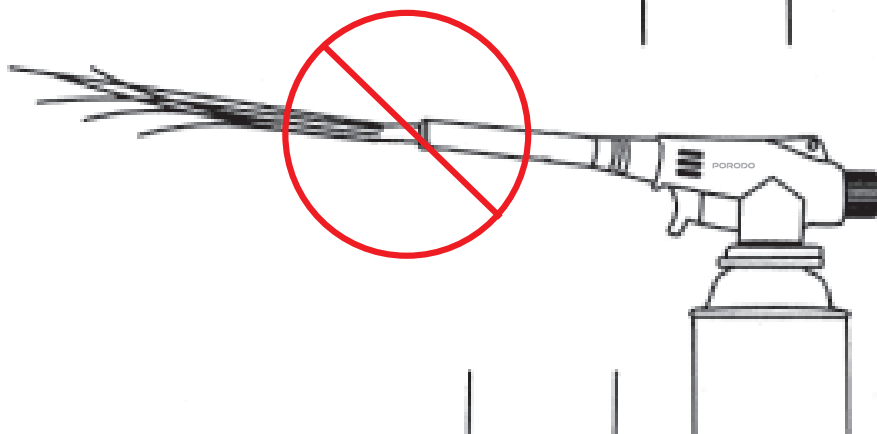

- 8. Turn off when not in use – Always switch off the device when you are done with your work to prevent accidents.
- 9. Keep the workspace clear of flammable objects – Ensure that no combustible materials are nearby during operation.
