MINI WIRELESS ADAPTOR
Carplay & Android Auto

SKU: GNMWLACPABK
Model No: GL-CP7

Table of Contents

Device compatibility

1. Ensure your car supports wired CarPlay/Android Auto.

2. iPhone Compatibility: Requires iPhone 6 or later with iOS 10 or higher for wired CarPlay.

3.Android Compatibility: Requires an Android smartphone that supports Android Auto and runs Android 11 or higher for wireless Android Auto.

How to Confirm If Your Car Supports Apple CarPlay or Android Auto:

Connect your iPhone or Android smartphone to your car via a USB cable. Look for the CarPlay or Android Auto logo on your car display.
 or   or

How to Use

1. Start the car and wait for the system to load.

2. Connect the Wireless CarPlay/Android Auto adapter to the USB-A or USB-C port in your car. Please ensure the adapter is plugged into the port for wired Apple CarPlay or Android Auto.

3. Open Wi-Fi and Bluetooth on your iPhone/Android smartphone. Find the Bluetooth device named "GL-CP7", select it, and click Pair. Then, click Allow, and select either Use CarPlay or Use Android Auto.

4. You are now ready to enjoy Wireless CarPlay or Android Auto

Note:

1. The wireless CarPlay/Android Auto adapter works by using Bluetooth to establish a pairing between the iPhone/Android smartphone and the vehicle, then switches to Wi-Fi to maintain the wireless connection. After the Bluetooth pairing is successful, the iPhone/Android smartphone will automatically connect to the adapter's Wi-Fi, then disconnect the adapter's Bluetooth connection for CarPlay and automatically reconnect to the vehicle's Bluetooth for Android Auto.

2. Please ensure that the wireless CarPlay/Android Auto adapter's power indicator light is on.

3. Please ensure that your vehicle supports wired CarPlay/Android Auto.

Compatible Devices

1x Wireless Smart Car Adapter
1x USB-C OTG Adapter

FAQ

1. What is the Wi-Fi password for the Wireless CarPlay Adapter?
A:You don't need a Wi-Fi password. First, connect via Bluetooth. Once Bluetooth is paired successfully, Wi-Fi will automatically connect. Just make sure your Wi-Fi is on and not being used by other devices during the pairing process.

2. After pairing the Android Auto adapter, I can't start Android Auto or my system doesn't recognize the USB.

A1: If your car is using the Android Auto function for the first time, please use a USB cable to connect your phone to activate Android Auto through a wired method.
A2: Make sure Android Auto is enabled on your Android phone and that you've updated to the latest version.
A3: Turn off Bluetooth on your phone and clear the auto cache in your mobile app settings. Once that's done, restart the adapter and reconnect via Bluetooth.

3. Audio issues (e.g., calls not going through, music interrupted, microphone not working):

A1: Check if your phone is connected to other Bluetooth devices (like earphones). If it is, disconnect them and reconnect your phone to the car's Bluetooth for Android Auto.
A2 :If you're on a call, check that the "Audio" option is set to CarPlay/Android Auto.

4. The indicator light on the adapter stays on even after the car is turned off.

A:This is normal. You only need to connect via Bluetooth, not Wi-Fi. After Bluetooth connects, Wi-Fi will automatically turn on. Just make sure your Wi-Fi is on and not being used by other devices during pairing.

5. How can I use Wi-Fi while using the Wireless CarPlay Android Auto Adapter??

A: When the adapter is connected, your phone's Wi-Fi will be used, so you won't be able to use other internet connections. You can only use the

mobile internet from your phone's SIM card at the same time.

6. Unable to reconnect automatically?

A1 : Make sure Bluetooth and Wi-Fi are on, and Bluetooth is not being used by other devices when you get in the car.

A2 :Clear the pairing record, restart your phone, and then repair the adapter.

7. Can the adapter be paired with multiple phones?

A: The adapter can pair with up to five phones, but only one phone can be connected at a time. If you want to connect a new phone, disconnect the current one. The adapter will automatically reconnect to the last paired phone.

8. Can't find the Bluetooth or Wi-Fi for the Wireless CarPlay Android Auto Adapter?

A: Make sure the indicator light on the adapter is on and that it's plugged into the right port for wired CarPlay Android Auto.

9. Does the Wireless CarPlay Android Auto Adapter support YouTube videos?

A:It doesn't support YouTube directly.

To watch YouTube, follow these steps:

1. Open your browser and search for "AAADAPK."

2 . Download and install the APK.

3. Open the AAAD app and download "Carstream."

4. Open "Carstream" and enable desktop mode in settings.

5. You can now enjoy YouTube videos on your car's screen.You can now enjoy YouTube videos on your car's screen.
