Product Overview

The Powerology Pico 36W Dual-Port Car Charger is designed to provide fast and efficient charging for your devices while on the go. Equipped with both USB-A and USB-C ports, this charger supports both PD 36W and QC 18W technologies, ensuring high-speed charging for your devices. The charger is built with universal compatibility to work with most devices, and features over-voltage protection to safeguard against potential damage. With Smart Quick Charge, PPS Charging support, and built-in safety features, the Powerology Pico Car Charger offers a reliable and efficient charging solution for your car. Its sleek design ensures ease of use while maintaining durability for long-lasting performance.

Specifications

| | |
|----------------|------------------------------------|
| Input Voltage | DC 12V-24V |
| USB-A Output | 5V/3A, 9V/2A, 12V/1.5A, QC 18W Max |
| USB-C Output | 5V/3A, 9V/3A, 12V/3A, PD 36W Max |
| PPS Output | 3.3-11V/3A (33W Max) |
| Sharing Output | 5V/3A, 15W Max |
| Model Number | PCCSR023 |

Product Features

- A. Dual-Port Charging:** Includes USB-A and USB-C ports for charging multiple devices simultaneously.
- B. High-Speed Charging:** Supports PD 36W and QC 18W for rapid charging of compatible devices.
- C. Universal Compatibility:** Works with a wide range of devices, including smartphones, tablets, and more.
- D. Smart Quick Charge:** Automatically adjusts the power output to match the connected device, ensuring fast and safe charging.
- E. PPS Charging Support:** Provides efficient charging for compatible devices using Programmable Power Supply (PPS) technology.
- F. Over-Voltage Protection:** Built-in safety feature that protects devices from overcharging or voltage spikes.
- G. Compact and Durable Design:** Designed for convenience and longevity, perfect for use in vehicles.

Operation Instructions

- 1. Insert the Charger:** Plug the Powerology Pico Dual-Port Car Charger into the 12V or 24V DC car outlet (cigarette lighter port). Ensure the charger is securely connected.
- 2. Connect Your Devices:** Use a certified USB-A or USB-C cable to connect your device to the charger. The charger supports both USB-A and USB-C ports, so choose the appropriate port for your device.
- 3. Start Charging:** Once connected, your device will automatically begin charging. The charger provides fast charging using PD 36W or QC 18W, depending on your device's compatibility.
- 4. Monitor Charging Status:** The charger will adjust the power output to your device's needs, ensuring safe and efficient charging. You may

see a charging indicator on your device confirming the charging process.

5. Unplugging the Charger: Once your device is fully charged or you need to disconnect, safely remove the charger from the car outlet by gently pulling the connector, not the cable.

6. Turn Off Vehicle: If you no longer need to charge, unplug the charger and store it safely. You can leave the charger plugged in when the car is off, but it is recommended to unplug it when not in use to conserve your vehicle's battery.

Safety Precautions

1. Use in Proper Vehicle Outlets: The Powerology Pico Dual-Port Car Charger is designed for use in 12V-24V DC car outlets only. Using it with a higher voltage may damage the charger and your devices.

2. Avoid Overheating: Make sure the charger has good airflow while in use. Do not block it or place it in direct sunlight. If it gets too hot, unplug it and let it cool down before using it again.

3. Do Not Open the Charger: The charger has no parts that can be repaired by the user. Do not try to open it. If it is damaged, contact the manufacturer for help.

4. Keep Dry: Do not use the charger in wet or damp conditions. Water can cause damage or electrical problems.

5. Use Certified Cables: Always use high-quality, certified charging cables with the charger to avoid damage to your devices or the charger.

6. Keep Away from Children: Keep the charger out of reach of children to prevent accidents or injury.

7. Avoid Overloading: Do not connect too many devices at once. This could overload the charger and cause damage or overheating.

8. Check for Damage: Regularly inspect the charger for any signs of damage such as frayed cables or broken parts. If damaged, stop using it and replace it.
9. Properly Unplug: Always pull the connector, not the cable, to unplug the charger to avoid damaging it or the vehicle outlet.

Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

Warranty

Products that you buy directly from our **Powerology** website or shop come with a 24-month warranty.

The 24-month warranty applies to products purchased directly from our **Powerology** website or store. If **Powerology** products are bought from any of our verified retailers, then the product is eligible for only a 12-month warranty. To extend your product's warranty, visit our website <https://www.powerology.me/warranty> and fill in your details in the provided form along with an uploaded picture of the product to process your request. Once approved, you will receive a confirmation email of the extended product warranty. Upload the required information within 48 hours of purchase to be eligible for a 24-month warranty period.
