Product Overview

The Porodo 8-in-1 Multi-Port USB Hub is designed to expand connectivity for USB-C devices, providing fast data transfer and efficient charging. It supports PD 100W fast charging, 4K HDMI output, and high-speed data transfer up to 5Gbps. With universal compatibility, this hub is ideal for devices such as iPad Pro, MacBook Pro, Nintendo Switch, and other USB-C enabled products. The plug-and-play functionality ensures ease of use, while the compact design allows for convenient portability, making it suitable for everyday use in various environments.

Product Features

- 1.** The 8-in-1 Multi-Port USB Hub is universally compatible with devices such as iPad Pro, MacBook Pro, Nintendo Switch, and other USB-C enabled devices.
- 2.** It supports PD 100W fast charging, providing quick power delivery to compatible devices.
- 3.** The hub offers 4K HDMI output at 30Hz, delivering high-quality video to compatible displays.
- 4.** High-speed data transfer of up to 5Gbps is supported, allowing for rapid file sharing and data management.
- 5.** It features multiple ports, including USB 3.0, USB-C, SD, TF card slots, and an Ethernet (LAN) port, offering a wide range of connectivity options.
- 6.** The hub is plug-and-play, meaning it requires no additional drivers or software for easy setup and use.
- 7.** Its compact and portable design makes it convenient for everyday use and travel.

Specifications

Material	Aluminum Alloy
Power Delivery	100W
Video Resolution	4K @ 30Hz
USB 3.0 Data Transfer Speed	5Gbps Max
USB-C 2.0 Data Transfer Speed	480Mbps
SD/micro SD Card Transfer Speed	480Mbps
Ethernet	RJ100 45Mbps
USB-C Charging	100W/20V/5A PD Charging, or 60W/20V/3A PD Charging, or 18W/9V/2A QC Charging, or 5W/5V/1A Normal Charging.
Supported OS	Windows, Mac OS, Chrome OS,
Nintendo Switch	Nintendo Switch

Product Size	2 x 2 x 11.3cm
Product Weight	48.5g
Model Number	PD35038IN1

Usage Instructions

1. Connecting the Hub

Connect the USB-C cable to your device's USB-C or Thunderbolt 3 port. The hub will automatically connect and be ready to use.

2. USB Ports

The two USB 3.0 ports can be used to connect USB devices, such as a keyboard, mouse, or external hard drive. The USB-C port supports both data transfer and charging.

3. HDMI Output (4K @ 30Hz)

Connect your TV or monitor to the HDMI port using an HDMI cable to display content in 4K resolution at 30Hz.

4. LAN Port

Use the LAN port to connect your device to a wired network for a more stable and faster internet connection.

5. SD and TF Card Slots

Insert SD or TF cards into the respective slots to transfer data between your device and the cards.

6. PD 100W Charging

The PD port supports charging up to 100W for compatible devices, providing fast and efficient power delivery.

Notes

- a. Ensure that your device supports multiple connections for optimal performance.
- b. Always safely eject external storage devices to prevent data loss.

Important Notes

1. This product contains only the hub; power adapters, cords, and other accessories are not included.
2. The USB 3.0 USB-A port supports a maximum total charge output of 5V/500mA and is backward compatible with USB 2.0/1.1. The USB 2.0 port supports a maximum charge output of 5V/500mA, with a data transfer speed of 480Mbps, and is backward compatible with USB 1.1/1.0.
3. To ensure a stable connection, avoid using this hub with high-power devices. It is recommended for use with one hard drive only.
4. The PD function can power and charge the connected USB-C laptop. The laptop's USB-C port must support Power Delivery; the hub supports charging but does not support data transfer.
5. If the laptop's USB-C port only supports data signals (DisplayPort Alt Mode) and does not support Power Delivery, the hub will only transfer data but will not power the laptop.
6. To support 4K HD display, ensure you use a 4K HDMI cable. This can achieve resolutions such as 3840x2160 60Hz/30Hz, 1080p at 23.98/24/50/59.94/60Hz, 720p at 60/59.94/50Hz, etc.
7. The maximum speed for SD/Micro SD cards is 480Mbps.
8. Operating humidity: 10% to 85% RH (non-condensing).
9. Storage temperature: -10°C to 70°C.
10. Storage humidity: 5% to 90% RH (non-condensing).

Tips

To help reduce interference from USB 3.0 radios on some laptop wireless connections, try one of the following options:

1. Connect your computer to a 5GHz Wi-Fi network.
2. Use a high-quality shielded USB 3.0 device, cable, or connector.

Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

Warranty

Products that you buy directly from our **Porodo** website or shop come with a 24-month warranty.

When you buy **Porodo** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at **<https://www.porodo.net/warranty>** and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.
