Important Safety Instructions

1. Use only water within the temperature range of 10°C to 50°C (50°F to 122°F). Please note: This product does not heat water.
2. Immerse the pump in water and press the start switch to begin.
3. When finished, use the quick connector to separate the pump from the water pipe.
4. If there's no water in the barrel, make sure to turn off the hose immediately to prevent any damage.
5. Avoid using the shower with seawater or water that's muddy or contaminated (e.g., from pools or rivers).
6. Before submerging the pump, double-check that the charger port is tightly closed to avoid water damage.
7. Recharge the pump using the recommended specifications: Output 5V, 2A.
8. Keep the pump away from extreme temperatures, freezing conditions, flammable materials, and explosives.

Disposal

Do not dispose of discarded electrical appliances as unclassified urban waste. They should be handed over to an officially designated recycling center, which is beneficial for environmental protection.
