Product Overview

The Porodo Rotarex MagSafe Car Mount with Powerful Suction Base offers a reliable solution for securely mounting your device in your car. Featuring a strong magnetic hold, it ensures that your phone stays in place even during bumpy rides. The mount allows for easy adjustments with a 360-degree rotating design, providing the flexibility to find the ideal angle for your viewing needs. Additionally, the adjustable viewing angle ensures comfort for both portrait and landscape orientations. Its quick setup and stable support make it easy to install on multiple surfaces, while the powerful suction base ensures a firm grip on your dashboard or windshield. This car mount is the perfect accessory for hands-free phone usage while driving.

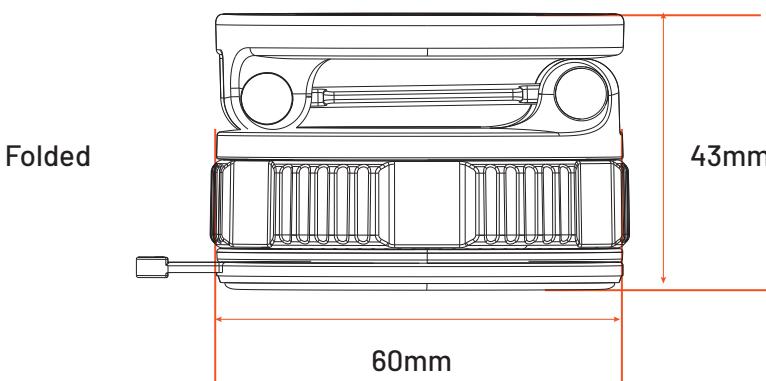

Specifications

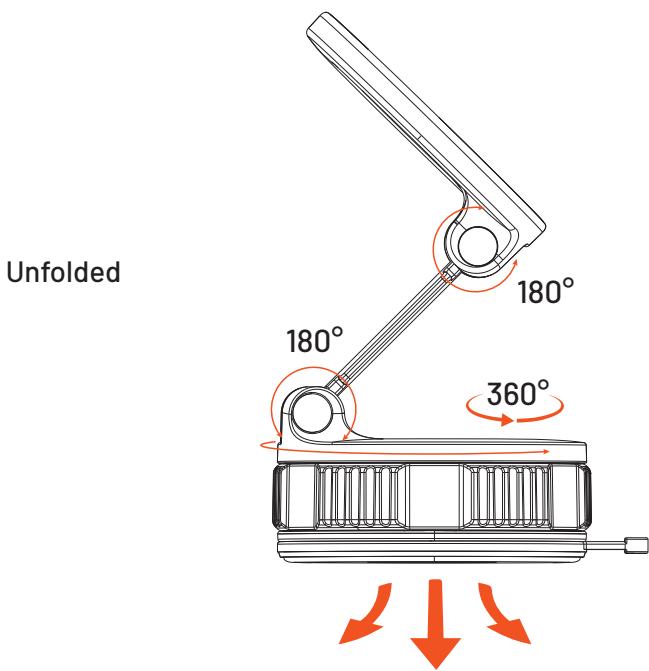

| | |
|----------------------|-------------------|
| Material | PC, Zinc Alloy |
| Magnet Type | N52 |
| Device Compatibility | 4"-7" Smartphones |
| Product Weight | 110.7g |
| Folded Size | 43 x 60 x 73mm |
| Model Number | PDCH11 |

Product Features

- a. Strong Magnetic Hold:** Ensures secure attachment for MagSafe-enabled devices, preventing accidental drops.
- b. 360-Degree Rotation:** Allows flexible adjustment of your device's position to find the perfect viewing angle.
- c. Adjustable Viewing Angle:** Enables both portrait and landscape orientations for optimal device visibility.
- d. Powerful Suction Base:** Provides a stable and firm grip on a variety of surfaces, including dashboards and windshields.
- e. Quick Setup:** Simple and tool-free installation for immediate use.
- f. Multi-Surface Mounting:** Works on a variety of surfaces, ensuring versatility in placement.
- g. Compact and Durable Design:** A sleek, space-saving design made with high-quality materials for long-term use.
- h. Enhanced Stability:** The powerful suction base ensures that the mount stays firmly in place even on rough or uneven surfaces, providing a stable and secure hold for your device.

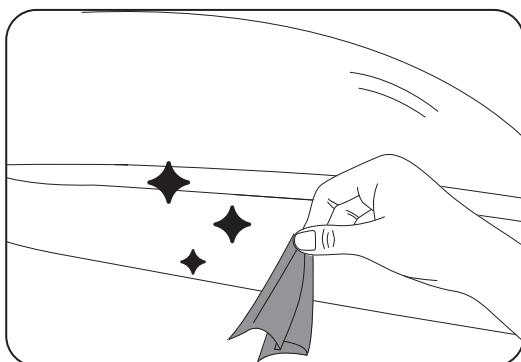

Product Dimensions

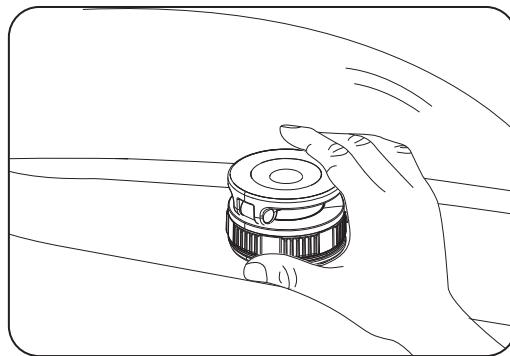

Setup and Installation

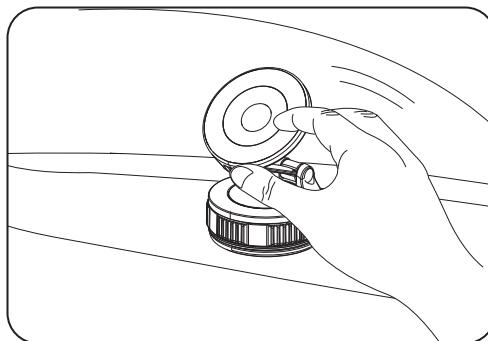

1. Choose the Mounting Location: Select a clean, smooth surface on your car's dashboard or windshield.
2. Clean the Surface: Wipe the area with a clean cloth to remove dust, dirt, and oils.

3. Clean the Suction Cup: Clean the suction cup to ensure a strong grip. You can gently wipe it with a damp cloth.
4. Attach the Suction Base: Press the suction cup firmly against the selected surface.
5. Push from the Bottom: Push the suction cup from the bottom to expel any air trapped underneath.
6. Lock the Suction Base: Loosen, reset, then twist the suction cup clockwise to secure it in place.

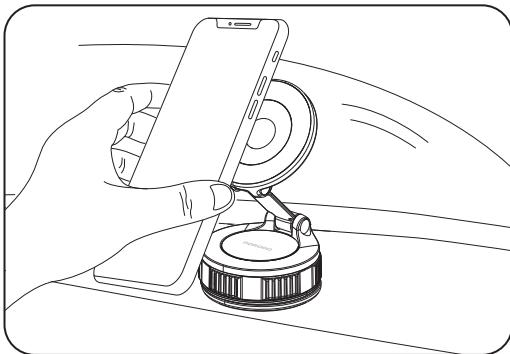

7. Adjust the Mount: Position the mount by adjusting its arm and ball joint to find your ideal viewing angle.

Note: The mount offers 360° rotation and tilting options for both portrait and landscape orientations.

8. Attach Your Phone: Place your MagSafe-compatible phone (or one with a magnetic adapter/ring) onto the magnetic pad. The magnets will snap the phone securely into place.

9. Adjust the Angle: Fine-tune the angle for comfortable use.

10. Check Stability: Ensure the phone is securely attached, and the mount is stable before driving.

11. Reposition or Remove the Mount: If needed, lift the edge tab of the suction base to release it and reattach it in a new location.

Cleaning and Maintenance

- 1. Regular Cleaning:** To keep the mount in good condition, gently wipe the surface of the mount with a soft, dry cloth to remove dust, dirt, or fingerprints.
- 2. Cleaning the Suction Base:** If the suction base becomes dirty or loses grip:
 - Carefully remove the suction base from the mounting surface.
 - Rinse the suction cup under lukewarm water to remove dust or debris.
 - Allow the suction cup to air dry completely before reattaching it to your vehicle.
- 3. Avoid Harsh Chemicals:** Do not use abrasive cleaners, alcohol, or harsh chemicals on the mount, as these may damage the surface or affect the suction.

4. Storage: When not in use, store the mount in a cool, dry place. Avoid exposing it to extreme temperatures, direct sunlight, or moisture to prevent damage to the components.
5. Magnetic Surface Care: To keep the magnetic pad working effectively, ensure that it stays clean and free from metal debris or dust.

Safety Precautions

1. Ensure the mount is securely attached to a clean, smooth surface before use. A loose or unstable mount can cause your phone to fall.
2. Always position the mount in a way that does not obstruct your view of the road, mirrors, or dashboard controls.
3. Do not use the phone for texting, social media, or other distractions while driving. Keep your focus on the road for safety.
4. Make sure the phone is properly secured in the mount before starting your vehicle to avoid accidents.
5. Ensure the mount does not interfere with airbags or vehicle controls. Improper placement could be dangerous in the event of an emergency.
6. Periodically check that the mount and phone are securely attached during your trip.
7. Follow local laws regarding phone use while driving; using a phone in a mount may still be prohibited in some areas.

Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

Warranty

Products that you buy directly from our **Porodo** website or shop come with a 24-month warranty.

When you buy **Porodo** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at <https://www.porodo.net/warranty> and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.
