## Product Overview

The Porodo VacuSeal Smart Suction Wireless Charging Mount is designed to provide a convenient and reliable solution for charging your phone while driving. It features 360° rotation, allowing for multi-angle viewing, making it easy to adjust the phone's position to suit your preference. With a strong magnetic hold and powerful suction, this mount ensures a secure attachment to the dashboard or any flat surface. The 15W wireless charging capability allows you to charge your device quickly while keeping it accessible, and the lightweight design adds to the mount's portability. It is designed for one-handed operation, offering ease of use while on the go. The VacuSeal mount ensures intelligent power delivery, making it an ideal accessory for every journey.

## Specifications

Input	5V/3A, 9V/2.22A
Wireless Output	5W/ 7.5W/ 10W/ 15W
Charging Interface	USB-C
Working Temperature	-10°C ~ 50°C
Product Size	60 × 76mm (Folded)
Net Weight	99g
Model Number	PDHSM28

## Product Features

- a. 360° Rotation:** The mount allows you to rotate your phone to any angle, making it easy to adjust for a better viewing experience while driving.
- b. Strong Magnetic Hold:** The powerful magnetic hold ensures that your phone stays securely attached to the mount, even on bumpy roads or during sharp turns.
- c. Powerful Suction:** The mount features a strong suction that keeps it firmly in place on any flat surface, such as your car's dashboard or windshield, preventing it from shifting.
- d. 15W Wireless Charging:** With 15W wireless charging capability, the mount provides fast and efficient charging for your phone without the need for extra cables.
- e. Lightweight Design:** The mount is designed to be lightweight, making it easy to handle and carry without adding unnecessary bulk to your vehicle.
- f. One-Handed Operation:** The mount is designed for easy use, allowing you to install and remove your phone with just one hand, providing convenience while driving.
- g. Intelligent Power Delivery:** The mount ensures that your phone is charged safely and efficiently, delivering the optimal amount of power for a reliable charging experience.

## Instructions for Use

- 1. Install the Mount:** Place the suction base on a flat surface such as your car's dashboard or windshield. Press down firmly to activate the suction and ensure it sticks securely.
- 2. Adjust the Viewing Angle:** Rotate the mount 360° to adjust the position of the phone holder to your preferred angle for optimal viewing.
- 3. Attach Your Phone:** Place your phone on the magnetic surface of the mount. The strong magnetic hold will keep the phone securely attached to the mount.

- 4. Activate Wireless Charging:** Once your phone is in place, ensure it is aligned with the charging area. The 15W wireless charging will begin automatically, providing fast and efficient charging.
- 5. Adjust the Phone:** You can easily adjust the angle of your phone while it is mounted by rotating the holder as needed.
- 6. Remove Your Phone:** To remove the phone, simply pull it off the magnetic surface. You can do this with one hand for added convenience.
- 7. Uninstall the Mount:** To remove the mount, gently lift the suction base from the surface. Ensure that the surface is clean before reattaching to avoid reducing suction strength.

## **Cleaning and Maintenance**

### **1. Cleaning the Suction Base:**

- 1.1.** Gently wipe the suction base with a damp cloth to remove any dust or dirt.
- 1.2.** If the suction power decreases, clean the base with warm water and allow it to air dry completely before reattaching it to a surface.
- 1.3.** Avoid using harsh chemicals or abrasive materials, as they can damage the suction surface.

### **2. Cleaning the Magnetic Surface:**

- 2.1.** Use a soft, dry cloth to wipe the magnetic surface where the phone attaches. This will prevent dirt or debris from interfering with the magnetic hold.
- 2.2.** Do not use any wet cloth or cleaning solutions on the magnetic surface, as moisture can affect the magnetic strength.

### **3. Phone Holder Maintenance:**

Check the phone holder regularly for any signs of wear or damage. If the magnetic surface becomes weak or loses its hold, replace the mount to ensure a secure attachment.

#### **4. General Maintenance:**

- 4.1.** Periodically check the mount for any loose parts or damage. Ensure that all components are functioning properly to maintain safe and effective use.
- 4.2.** Do not expose the mount to excessive heat, moisture, or direct sunlight for extended periods, as this may affect its performance.

### **Safety Precautions**

- 1.** **Ensure Proper Mounting:** Always ensure that the suction base is securely attached to a flat, smooth surface before use. Do not mount the device on surfaces that are textured or curved, as this may reduce the suction power.
- 2.** **Avoid Blocking Airbags:** Do not place the mount in a position that may obstruct the driver's view or interfere with the vehicle's safety features, such as airbags or controls.
- 3.** **Use with Compatible Phones:** The mount is designed to charge phones that support wireless charging. Ensure your device is compatible with the 15W wireless charging capability before use.
- 4.** **Avoid Extreme Temperatures:** Do not expose the mount or your phone to extreme heat or cold for prolonged periods, as it may affect performance and cause damage to the components.
- 5.** **Clean Regularly:** For optimal suction, clean the suction base and the mounting surface regularly to remove dirt or dust. Ensure both surfaces are dry before reattaching the mount.
- 6.** **Monitor Charging:** Do not leave your phone on the mount for extended periods while it is charging, especially if you do not need to charge it, to avoid unnecessary heat buildup.
- 7.** **Keep Away from Liquids:** Avoid placing the mount in areas where it could be exposed to water or other liquids, as this could cause damage to the charging components.
- 8.** **Check Stability:** Periodically check the stability of the mount and phone during use, particularly after driving on rough roads, to ensure the device remains securely attached.

## Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

## Warranty

Products that you buy directly from our **Porodo** website or shop come with a 24-month warranty.

When you buy **Porodo** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at **<https://www.porodo.net/warranty>** and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.
