# Product Overview

The LePresso Aurelio Ceramic Mug with Temperature Control Base is a sleek and modern solution for keeping your drink at the perfect temperature. With a 300ml capacity, this mug is equipped with an advanced temperature control base, ensuring that your beverages stay at the ideal temperature for a longer time. The intuitive temperature display on the base allows you to easily monitor and adjust the heat, providing a personalized drinking experience. The durable stainless steel design combines functionality and elegance, making it the perfect addition to your kitchen or office setup. Experience the future of drinking with the LePresso Aurelio Smart Mug.

## Specifications

Battery Capacity	3200mAh
Power Input	DC 12V/ 1.67A
Temperature Range	50°C to 62.5°C
Input	Type-C

# Product Design

# Usage Guide

## 1. Charging & Battery Life:

**a.** For optimal performance, regularly place your mug on the included charging coaster.

**b.** Portable battery life varies depending on the product. Enjoy all-day battery life with proper charging.

## 2. Keeping Drinks at the Right Temperature:

**a.** When the mug is in standby mode, simply pour hot drinks above 50°C into the container.

**b.** The mug will automatically detect the hot drink and activate the constant temperature feature to maintain the set temperature.

## 3. First Use:

**a.** On the first use, the mug defaults to 57°C. The temperature can be adjusted to your preferred setting.

**b.** The mug features a memory setting that retains your preferred

temperature until it's adjusted.

**4. Power-Off Feature:**

The mug features an automatic power-off function to ensure energy efficiency.

## Package Contents

Temperature Control Ceramic Mug x1

Charging Coaster x1

Charging Cable x1

## Operation Instructions

**1. Turning ON and OFF**

- a.** Press the power button to turn ON the device
- b.** Press and hold the power button for two seconds to turn OFF the device.

**2. Setting the temperature**

Press the power button to switch between different temperatures ranging from 50°C to 62.5°C, or switch to COLD to turn off the thermostat function in standby mode.

"F / °C

120

50.0

**3.** When turned OFF, double click the power button to switch the temperature unit display between Fahrenheit and Celsius.

COLD

#### **4. COLD**

the LED displays COLD when the thermal sensor does not detect a temperature change in the inner container.

EMPTY

#### **5. EMPTY**

the LED displays Empty when the temperature of the liquid in the mug is below 38°C without heating.

**6.** When a liquid above 38°C is poured in the mug, a wavy line is displayed.

RESET

#### **7. RESET**

Press and hold power button for 7 seconds.

## 8. Battery Level

When the cup is shaken or picked up, it displays the current water temperature first, followed by the battery level. If the cup battery is low and it is not being charged, it will automatically shut off after 30 minutes.

## 9. BAT COOLING

When the battery temperature rises above 61°C, the display shows "BAT COOLING." The mug powers off as a safety precaution to protect the battery.

## 10. BAT COLD

When the battery temperature falls below -19°C, the display shows "BAT COLD," and the mug enters power-off protection mode.

## 11. NOT NTC

The mug shows NOT NTC when there is a processing error due to a thermal sensor failure.

## 12. ERROR

ERROR is displayed when the mug has a processing error due to a hardware failure.

# Safety Precautions

- 1.** Ensure gold rings at the base of the mug and pins on the charging coaster are dry before charging.
- 2.** Keep the product away from heat-producing devices and avoid touching the inside when filled with hot liquids.
- 3.** Always supervise when the product is in use, especially around children.
- 4.** Only use the power supply and charging coaster provided with the product. Do not use any third-party accessories for charging.
- 5.** Always unplug the power supply from the wall when not in use and before cleaning. Clean the power supply and charging coaster with a clean, dry cloth to prevent damage or risk of fire.
- 6.** Do not microwave the travel mug. Hand wash only, using mild soap to clean.
- 7.** Do not operate if the product, power cord, plug, or coaster is damaged. Attempting to open or service the product can void warranties and may cause injury or further damage.
- 8.** If the instructions are not followed or the product is used improperly, it could lead to potential injury or malfunction. Always consult the manufacturer for assistance if necessary.
- 9.** For Consumable Liquids Only: This product is intended for liquids like coffee or tea. Do not use for other liquids.
- 10.** Do not microwave the temperature control travel mug. It is an electronic device and should never be placed in a microwave.

# Declaration of Hazardous Substances

Component Name	Declaration of Hazardous Substances
