Product Overview

The Porodo VacuSeal Smart Suction Magnetic Phone Mount is an innovative and practical accessory designed to securely hold your phone. It features a strong magnetic hold with twenty N52 magnets, ensuring your device stays in place even on bumpy roads. The mount is equipped with powerful suction, providing a reliable grip that can be easily installed and removed. With its one-handed operation, it's perfect for users who need quick and easy access to their phones while driving or traveling. The VacuSeal is engineered to offer intelligent power for journeys, making it an ideal choice for anyone seeking convenience and security for their mobile device during trips.

Specifications

Material	ABS, TPE, Silicone
Magnet Type	N52
Device Compatibility	5.5 - 6.9 inches
Product Weight	80g
Model Number	PDHSM27

Product Features

1. Equipped with twenty N52 strong magnets for a secure and stable grip on your phone.
2. Features advanced suction technology for a reliable and firm hold on various surfaces.
3. Designed for easy use, allowing you to place and remove your phone with just one hand.
4. Built with high-quality materials to ensure long-lasting performance and strength.
5. Works with a wide range of smartphones and devices.
6. Sleek and space-saving design that can be easily stored or moved between vehicles.
7. Simple setup process without the need for tools or complicated procedures.

Safety Precautions

1. Ensure the mount is securely attached to a flat, clean surface before use to prevent accidental detachment.
2. Do not place the phone mount in areas that could obstruct airbags or other essential safety features in your vehicle.
3. Periodically verify that the suction and magnetic hold are functioning properly to ensure your device stays securely in place.
4. Do not expose the mount to extreme temperatures, such as direct sunlight for prolonged periods, as this may affect the suction power and overall performance.
5. Ensure your phone is compatible with the magnetic mount to avoid any issues with magnetic interference or poor attachment.
6. Clean the mounting surface thoroughly before applying the suction to ensure a strong bond and prevent dirt or debris from weakening the hold.

7. Avoid placing multiple devices or excessively heavy phones on the mount, as it may reduce the strength of the suction and magnetic hold.
8. Check the mount for any signs of damage or wear over time, and replace it if necessary to maintain its safety and effectiveness.

FCC Statement

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference; and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for assistance.

RF warning statement:

The device has been evaluated to meet general RF exposure requirements. The device can be used in portable exposure conditions without restriction.

Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

Warranty

Products that you buy directly from our **Porodo** website or shop come with a 24-month warranty.

When you buy **Porodo** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at **<https://www.porodo.net/warranty>** and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.
