Specifications

Material	PC + ABS
Lens Material	Polarized Lens
Battery	150mAh
Wireless	V5.4
Transmission Distance	10 m
Speaker	10 mm
Sensitivity	95 dB ± 3dB
Impedance	7Ω
Frequency Response	2400–2480 MHz
Charging Type	Type-C
Charging Time	1.5 hrs
Playtime	5 hrs
Talk Time	5 hrs
Control Mode	Button + Touch
Product Weight	44 g
Lens Width	5.5 cm
Bridge Width	1.5 cm
Temple Length	15.5 cm
Warranty	2 Years
Quality	Premium
Happy Customers	30 Million
Model No.	GL-PX64
Material	ABS
Battery Capacity	10000mAh
USB-C Input	5V/3A, 9V/2A, 12V/1.5A (18W Max)
USB-C Output	5V/3A, 9V/2.22A, 12V/1.67A (PD20W)
Wireless Charging	15W Max
Product Weight	198g
Product Dimensions	15.7*71.5*107.6 mm

Product Components

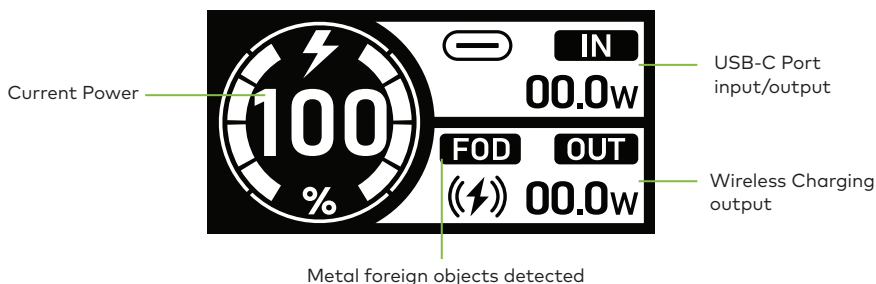

1. Power Button
2. Power Status Indicator Screen
3. USB-C Port

LED Display

1	Power On	
2	Standby	
3	Working	
4	Fault	

Note: When your power bank exceeds the temperature limit, the battery level indicator will turn off. Allow the power bank to cool before next use.

Important Information

This wireless charger is not compatible with non-MagSafe phone cases, such as the Otterbox Defender phone case.

Do not use chargers with an output of 5V/1A (5W) or less.

Wireless charging is more convenient than wired charging in many scenarios, but due to the limitations of current wireless charging technology, the charging speed is slower than wired charging.

High temperatures will reduce charging speed and limit power, which is a problem for all wireless chargers. It is recommended to charge the device in an environment below 0°C-40°C.

The material of the protective case of the charging device and the magnetic fit of the charging device on the wireless charger will affect the charging speed and stability. Try to keep the charging device and the coil position of the charger aligned during charging.

Safety Instructions

1. When using this product, basic precautions should be taken, including:
2. Store the product in a cool and dry place.

Do not store the product in a hot or humid environment.

Using a power supply or charger not recommended or sold by the manufacturer of this product may cause the risk of personal injury.

4. The operating temperature should be between 0°C and 40°C.
5. Do not disassemble the product. When repair is required, please hand it over to a professional repairman. Improper disassembly and assembly may cause product damage or even personal injury, and the user shall bear the adverse consequences caused by this behavior.
6. If the product is not used for a long time, it should be charged and discharged once every three months.
7. When charging, this product may heat up. This is normal and there is no need to worry.
8. Under normal circumstances, battery performance will gradually deteriorate over a few years.
9. Do not expose this product to high temperatures or fire.
10. Do not use harmful chemicals or detergents to clean this product.
11. Improper use, dropping or excessive force may cause product damage.
12. When disposing of used batteries, please separate batteries off electrical devices.
13. Please note that discharged batteries may cause fire or smoke. Please use tape to cover the positive and negative electrodes for insulation.

Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

Warranty

Products that you buy directly from our **Green Lion** website or shop come with a 24-month warranty.

When you buy **Green Lion** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at <https://www.greenlion.net/warranty> and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.

For more info, please check:
