Overview

The Green Lion Container Power Bank offers a compact and durable solution for on-the-go charging. Equipped with a real-time LED display, built-in flashlight, and multiple fast-charging ports, it provides up to 22.5W of power. Designed for efficiency and portability, it supports modern charging needs .

Precautions

1. For the first use, ensure the product is fully charged. The four lights will continue to blink for 20 minutes.
2. When using this product, ensure the electronic device screen is open and the charging connector is securely connected to guarantee proper operation.
3. During the charging process, if the blue power indicator turns off, this indicates that the product's battery is low and needs to be recharged.
4. Once the electronic device is fully charged, disconnect the output cable to avoid unnecessary power loss.

Security Features

1. The intelligent control system provides multiple protections: charging control, discharge protection, overload protection, and short circuit protection.
2. The USB 5V output design is highly compatible with international standards, supporting devices such as mobile phones, iPhones, Samsung P1000, handheld consoles (PSP, NDSi, NDSL), MP3/MP4 players, GPS Bluetooth, iPads, and other tablet computers and digital cameras. Simply plug in the device, and it will charge your device conveniently.

3. With a wide voltage input range (DC4.5V-20V), the internal smart chip provides buck protection, allowing direct charging of the mobile power bank without concerns over voltage compatibility, electricity safety, or security issues.
4. The LED indicators display charging status, output power, and battery levels. The charge indicator simplifies the product design, making it easier to use with clear LED notifications.

Instructions

Improper use may result in battery failure, excessive heat, or even fire and explosion. To avoid personal injury and property damage, please follow these guidelines for safe use and storage:

1. This product is not a toy. Keep it out of reach of children, and prevent them from using or playing with it to avoid accidents.
2. Use a charger that complies with local safety standards (such as China's 3C certification) to prevent electric shock or battery damage.
3. Avoid pressing or hitting the product, and protect it from severe drops or strong vibrations. If liquid enters the product, it may cause damage. If the battery or circuit is damaged or short-circuited, stop using it immediately and dispose of it properly.

Safety Instructions

A. Charging the Product

Press the button. If the lamp is not lit, the battery needs charging. A bright blue light will appear when charging.

Method 1: Connect to a Computer

Connect the provided charging cable to the product's DC-IN port.

Plug the other end of the cable into your computer's USB port.

The charging indicator will flash. When fully charged, the light will stop flashing.

Method 2: Using a USB Adapter

Connect the provided charging cable to the product's DC-IN port. Plug the other end of the cable into a USB adapter with a DC5V output. The charging indicator will flash. When fully charged, the light will stop flashing.

B. Charging Digital Products

This product can charge mobile phones and other digital devices using the DC5V input. Make sure to use the appropriate charging cable and adapter for the device you're charging.

Maintenance

1. This product is designed with classic elegance, making it easy to carry and maintain. Follow the guidelines for proper care to ensure long-lasting use.
2. Keep the product dry. Exposure to rain, moisture, or liquids can damage the electronic components and wiring.
3. Avoid using the product in hot environments. High temperatures can shorten the lifespan of electronic devices, cause battery issues, and result in plastic aging or even explosions.
4. Do not drop or knock the product. Rough handling can damage the internal electronic components and circuit boards.
5. Do not attempt to disassemble the product.

Specifications

Model No	GL-PX63
Material	ABS
Battery Capacity	50000mAh

USB-C1 Input	5V/2.1A, 9V/2A, 12V/1.5A (18W)
USB-C2 Input	5V/2.8A, 9V/2A, 12V/1.5A (18W)
USB-C2 Output	5V/3A, 9V/2.22A, 12V/1.67A
USB-A1 Output	5V/3A, 9V/2A, 12V/1.5A, 10V/2.25A (22.5W Max)
USB-A3 Output	5V/3A, 9V/2A, 12V/1.5A, 10V/2.25A (22.5W Max)
USB-A2 Output	5V/2.1A (10.5W)
USB-C+USB-A Output	5V/3A
Product Weight	976 g
Product Size	6.7*7.2*14.7 cm

Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

Warranty

Products that you buy directly from our **Green Lion** website or shop come with a 24-month warranty.

When you buy **Green Lion** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at <https://www.greenlion.net/warranty> and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.
