Product Overview

The Green Lion Smartwatch offers a stylish design with a 2.01-inch AMOLED display, providing clear visibility of notifications and activities. It features Bluetooth 5.3 for seamless connectivity and is IP68 waterproof for added durability. With a 300mAh battery, it supports up to seven days of exercise tracking and includes health monitoring features such as heart rate and sleep tracking. The smartwatch also offers music playback, camera control, and voice assistant functions, making it a practical choice for everyday use and fitness.

Charging Time	<3 Hrs
Working Time	3-5 Days (15 Days Standby)
Waterproof	IP68
Product Weight	45.2g
Product Dimensions	10.02 × 40.40 × 49.13mm

Bluetooth Connection Guide

1. Open the Da Fit app and select "Add Device" on the device page. Add the device by searching through Bluetooth and follow the on-screen instructions.

2. Bluetooth Call Function Connection:

Once the watch is successfully paired with the app, a pop-up will appear asking whether to pair with the "GL-SWA47". Click to allow

pairing. Only after pairing is successful can the phone function be used. (Note: If you do not click to allow pairing, the phone function will not be available. You will need to search for "GL-SWA47" in your mobile phone's Bluetooth settings and click to pair. The phone function will only be available after successful pairing.)

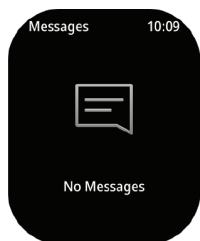

Note:

- a. Do not pair directly from the Bluetooth list in your phone's system to avoid the "Da Fit" app being unable to connect to the watch.
- b. Please ensure that the "Da Fit" app has permission to access "location," "phone," "camera," and other required permissions to ensure successful pairing.

Operation Instructions

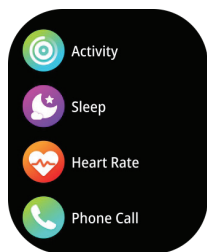

a. Swipe Up — Information

b. Swipe Down — Control Center

c. Swipe Right — Menu

d. Swipe Left — Quick Function

e. Crown and Button Functions

1. Upper Button: Press the button to turn the screen on/off and return to the previous function interface.
2. Rotating Crown: Long press the crown to turn the device on/off. Press the crown to enter the menu list, and rotate the crown to scroll up and down within the menu interface.
3. Lower Button: Press the button to enter the sports list and return to the previous function interface.

Product Features & Functions

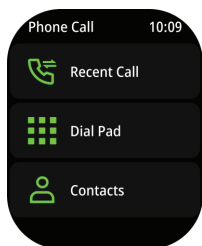

Activity: Tracks the number of steps, calories, and exercise duration of the day. Detailed information analysis and data records can be viewed in the APP.

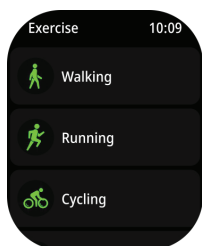

Sleep: Records the total sleep time from the previous night, including the duration of deep and light sleep. More detailed analysis and data records are available in the APP.

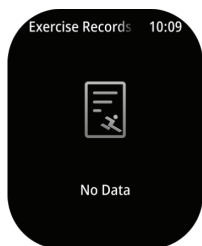

Heart Rate: Measures the current heart rate and allows for 24-hour heart rate monitoring via the APP. Detailed analysis and data records can be reviewed in the APP. (Note: This is for reference only and cannot be used as medical evidence.)

Phone Call: Allows you to make and receive calls, access recent calls, and dial contacts directly from the APP. The phone function requires the watch to be paired with your mobile device.

Exercise: Supports various activities such as walking, running, outdoor cycling, skipping, badminton, basketball, football, mountaineering, tennis, rugby, golf, yoga, fitness, dancing, and more than 100+ sports modes. Detailed activity analysis and data records can be viewed in the APP.

Exercise Records: Records the latest 5 exercise sessions.

Blood Pressure: Measures the current blood pressure value and records the latest 7 blood pressure measurements. Detailed analysis and data records are available in the APP. (Note: The values are for reference only and cannot be used as medical evidence.)

Blood Oxygen: Measures the current blood oxygen level and records the latest 7 measurements. More detailed analysis and data records can be viewed in the APP. (Note: The values are for reference only and cannot be used as medical evidence.)

Stress: Measures the current stress level. You can enable 24-hour stress monitoring on the APP. Detailed analysis and data records are available in the APP. (Note: The values are for reference only and cannot be used as medical evidence.)

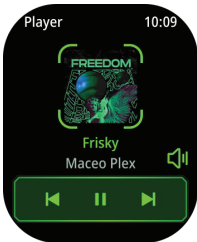

Weather: Displays weather information for the current day and the next 6 days. Weather information requires connection to the APP to obtain data. If the connection is lost, the weather information will not be updated.

Messages: Synchronizes information notifications from your mobile phone and displays the latest 8 messages. (Note: Ensure the notification switch is turned on in the APP settings.)

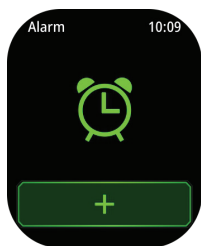

Shutter: After connecting to the APP, open the photo control on the APP to remotely control photo-taking.

Player: After connecting to the APP, the watch can control music playback (play/pause/previous song/next song) and adjust the volume on the phone.

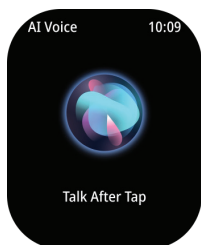

Timer: You can set a timer for various durations such as 1 minute, 5 minutes, 10 minutes, etc.

Alarm: You can set up to 8 alarms and configure the reminder time. The alarm clock will vibrate and light up the screen to alert you.

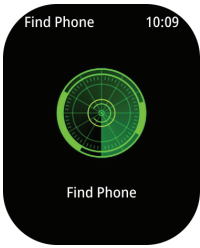

Stopwatch: Supports recording up to 99 time intervals for precise time tracking.

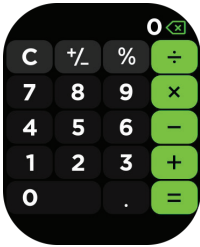

Voice Assistant: Click on the voice assistant icon to activate it and say the function you want to use. (Note: The watch must be connected to the phone via Bluetooth for this feature to work.)

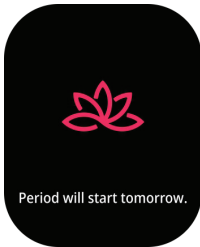

Flashlight: Tap the icon to turn on the flashlight, and tap again to turn it off.

Find Phone: Click the "Find Phone" button, and the phone will vibrate and ring to help you locate it.

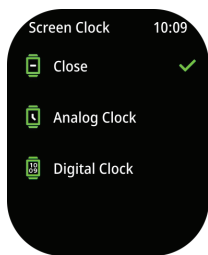

Calculator: Perform basic calculations such as addition, subtraction, multiplication, and division using the built-in calculator.

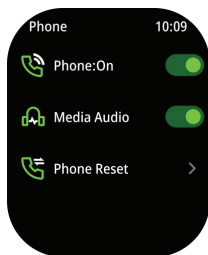

Menstrual Period: Set the menstrual period function on the APP, and the watch will display the corresponding menstrual period, predicted period, and ovulation period reminder.

Settings: Adjust display brightness, vibration and sound settings, do not disturb mode, low power mode, media audio, usage preferences, and system settings.

Screen Clock: Choose between a digital or analog clock to be displayed when the watch screen is off. (Enabling this feature will reduce battery life.)

Media Audio: Control the entertainment sound for music, TikTok, watch movies, and videos. The watch will play sound, but the phone will not. (Main control is through third-party music apps.)

Other Functions:

Additional features include the e-business card, find my watch, 12/24-hour format, online watch face push, unit settings, raise-to-wake screen, drinking reminder, sedentary reminder, low battery alert, high heart rate alert, and goal achievement reminder.

Charging Guidelines

1. Attach the charging cable to the watch charging port, ensuring the metal pins are fully connected.
2. Please use the correct charging adapters with a rating of 5V 0.5A or higher.

Note: If the watch cannot be powered on after being left unused for a long time, please clean the charging metal pins to ensure a proper connection.

Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

Warranty

Products that you buy directly from our **Green Lion** website or shop come with a 24-month warranty.

When you buy **Green Lion** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at <https://www.greenlion.net/warranty> and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.
