# Product Overview

The Porodo LifeStyle LUMALITE 2600 Rechargeable Flashlight features a high-quality LED light source, a high-density lithium battery, and a durable aluminum alloy body. With a specially treated surface for added resilience, it offers high brightness, long endurance, anti-fall protection, wear resistance, and a waterproof design. Perfect for everyday use, emergency lighting, and outdoor activities like hiking and camping, the LUMALITE 2600 ensures reliable illumination in any situation. Its versatile, portable design makes it an essential tool for both work and play.

## Specifications

Input	5V/1A
Battery Capacity	5000mAh
Rated Power	30W
Brightness	2600LM
Distance	700m
Charging Interface	Type-C
Charging Time	6.5H
Working Time	3.8H

Water-Resistance Level	IPX5
Product Size	43.8 × 60.2 × 214mm
Product Weight	530g
Model Number	PDFL9972

## Key Features

- 1. Premium LED Technology:** Equipped with a high-quality LED light source for powerful illumination.
- 2. Long-Lasting Battery:** Powered by a high-density lithium battery, ensuring extended usage time.
- 3. Durable Construction:** Built with high-strength aluminum alloy for enhanced toughness and resilience.
- 4. Waterproof and Impact-Resistant:** Specially designed to withstand the elements with water resistance and anti-fall protection.
- 5. Versatile Lighting Options:** Perfect for everyday use, emergencies, and outdoor activities like hiking, camping, and work inspections.
- 6. Portable and Convenient:** Rechargeable for on-the-go use, offering flexibility and ease of operation wherever you need it.
- 7. Wide Application:** Ideal for various settings, including security lighting, outdoor exploration, and temporary or emergency lighting needs.

## Schematic View

## Battery Display

The flashlight is equipped with a feature that helps you track the remaining battery life. The LED display shows the power level, ranging from 0% to 100%, for easy monitoring of your device's charge status

# Usage Instructions

## 1. Lightning Modes:

Press the button once to cycle through the available light settings. You can select from the following modes:

- a. Normal Mode:** In Normal Mode, the light is normal. Press the button once to cycle through the different light settings.
- b. High Light Mode:** This mode provides maximum brightness, ideal for brightening large areas or when you need maximum visibility.
- c. Low Light Mode:** This setting offers a softer, more energy-efficient light, perfect for reading or close-up tasks where a dimmer light is needed.
- d. Off Mode:** Press the button to turn off the flashlight completely when it is not needed.

## 2. Special Lightning Modes:

In Special Mode, quickly double-click the button to enter one of the following advanced lighting options:

- a. Flash Mode:** This mode activates a rapid flashing light, typically used for signaling or emergencies where attention needs to be drawn immediately.
- b. SOS Mode:** The flashlight will emit a series of short and long flashes in the universal SOS distress signal pattern (three short, three long, three short flashes), which is commonly used for emergency distress signaling.

**Note:** To deactivate either the Flash Mode or SOS Mode, simply press the button again to return to the normal light settings or turn the flashlight off.

# Safety Precautions

- 1. This product is equipped with rechargeable lithium batteries.** Please ensure that you follow the proper charging guidelines specific to the product model. Improper charging methods can cause significant damage to the battery,

potentially resulting in short-circuiting, fire, or even an explosion.

**2.** When using detachable batteries, be extra cautious to avoid damaging the battery casing. A damaged battery casing can easily lead to a short-circuit or, in severe cases, cause an explosion due to battery leakage.

**3.** This flashlight can withstand light rain and splashing. However, it is strictly prohibited to submerge the flashlight in water. Water damage can affect the internal components, especially the battery.

**4.** Always ensure that the flashlight is fully charged before storing it for an extended period. Failure to do so may result in over-discharge, leading to permanent damage to the battery.

**5.** Never attempt to disassemble the flashlight. Mixing different types of batteries or using incompatible ones can result in malfunction or battery damage.

**6.** When using the high-powered flashlight, the beam becomes more intense, especially in long-range settings. This is a normal feature of the product, but it is essential to adjust the brightness to a safer level to avoid burns or eye strain.

**7.** Under no circumstances should you shine the flashlight directly into anyone's eyes, as this can lead to short-term blurred vision or, in extreme cases, cause short-term blindness.

**8.** Never expose the lamp to fire or extreme heat. Doing so may lead to damage or create a serious safety hazard.

**9.** Always use the proper USB power adapter and charging cable that are compatible with the lamp. Using an incorrect or faulty adapter may cause serious issues such as electrical leakage, short-circuiting, or even fire.

## **Disposal**

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

## **Warranty**

Products that you buy directly from our **Porodo** website or shop come with a 24-month warranty.

When you buy **Porodo** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at [porodo.net/warranty](http://porodo.net/warranty) and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.
