## Product Overview

The Porodo TurboBlast Portable Air Blower is designed for powerful airflow with adjustable speed settings. It features a 160W brushless motor that delivers an impressive 130,000 RPM, ensuring efficient performance. The device includes an air nozzle attachment for versatility and offers three speed levels to suit different needs. With USB-C charging, it ensures fast and convenient power-up, while its low-noise operation makes it ideal for various environments without disturbing the surroundings. The TurboBlast is a reliable and portable solution for anyone seeking high-powered air blasting with minimal noise.

## Specifications

Input	DC 5V/2A
Output Power	160W Max
Charging Interface	USB-C
Working Time	32 Min (Low), 23 Min (Medium), 10 Min (High)
Charging Time	2.5h
Battery Capacity	2 x 3000mAh
Noise Level	≤ 80dB
Motor Speed	130000rpm

Product Size	42.3 x 111.7 x 158.2mm
Product Weight	315g
Model Number	PDADUS

## Product Features

- 1. High-Speed Performance:** Equipped with a 160W brushless motor, the TurboBlast generates up to 130,000 RPM. This high-speed capability ensures powerful and efficient airflow for a wide range of tasks, from cleaning delicate surfaces to drying off items quickly.
- 2. Adjustable Speed Control:** With three speed levels, users can easily adjust the airflow to suit different needs. Whether you're tackling larger areas that require more power or focusing on precision tasks that need gentle airflow, the adjustable speed provides flexibility and control.
- 3. Air Nozzle Attachment:** The included air nozzle attachment allows for more focused and concentrated airflow. This feature is particularly useful when you need to direct the air precisely, making it ideal for cleaning electronic devices, keyboards, or intricate machinery.
- 4. USB-C Charging:** The TurboBlast features modern USB-C charging for quick and efficient power replenishment. This ensures you're always ready to go, offering the convenience of using widely available charging cables and reducing the time spent waiting for a recharge.
- 5. Low-Noise Operation:** Designed with noise reduction in mind, the TurboBlast operates with minimal sound, making it suitable for use in environments where quiet operation is important, such as home offices or shared spaces. You can work without disturbing others around you.
- 6. Portable Design:** Compact and lightweight, the TurboBlast is easy to carry and store, offering true portability. Its ergonomic build ensures comfortable

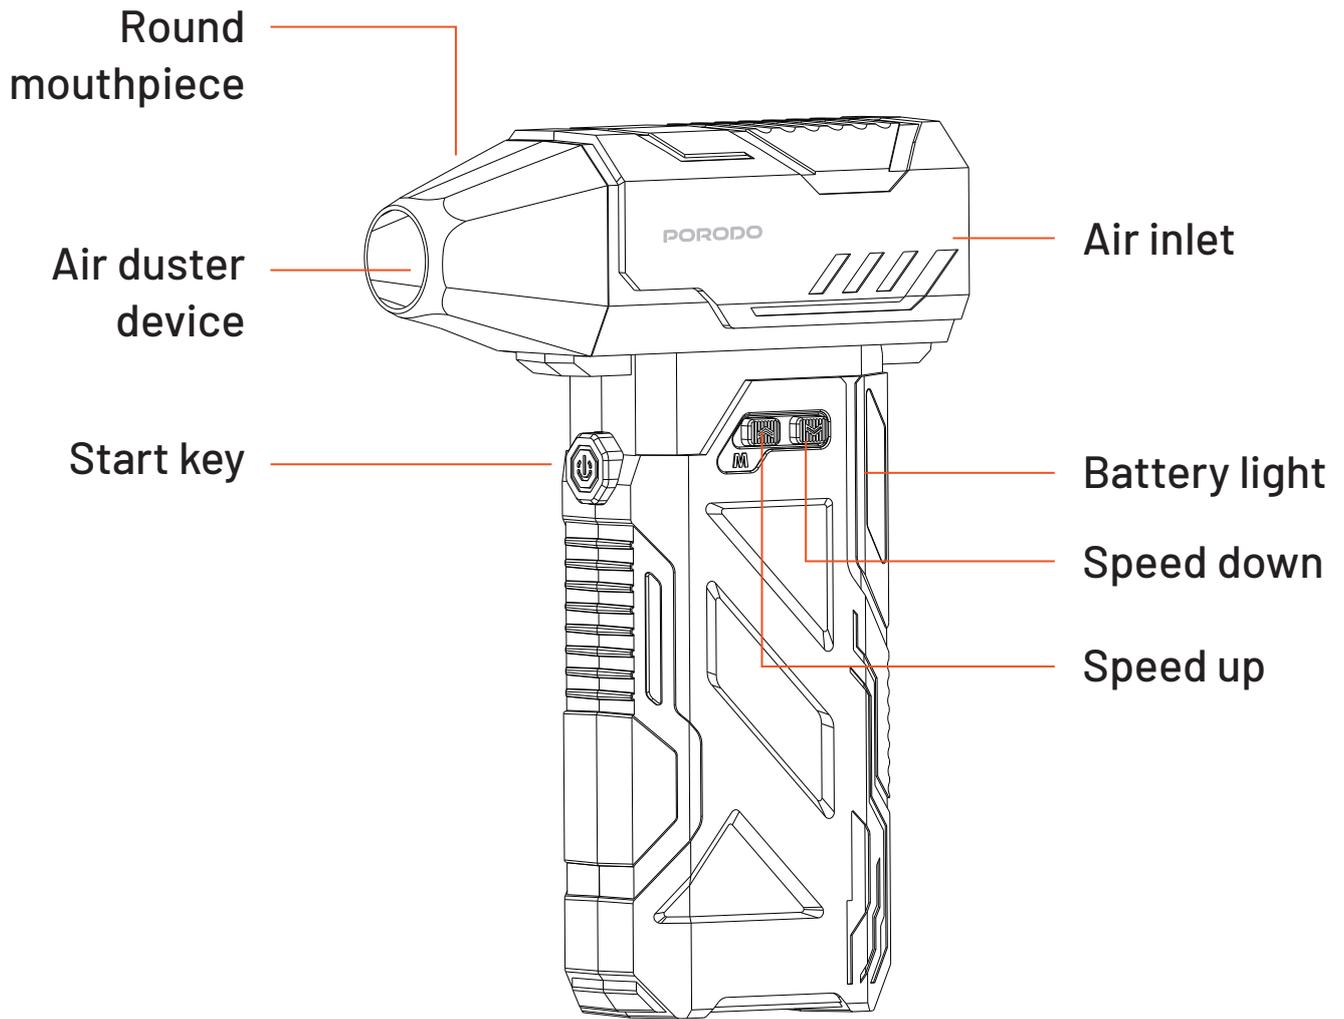

handling during extended use, whether you're using it for cleaning, drying, or other tasks.

**7. Durable Construction:** Built to last, the TurboBlast is crafted with quality materials that can withstand regular use. The robust design ensures long-term reliability, making it a great addition to both professional and personal cleaning kits.

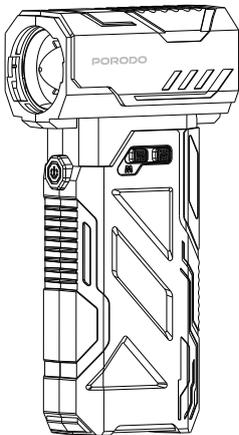

## Safety Precautions

- 1.** Do not use the product with wet hands.
- 2.** Avoid using the product in environments where water splashes or immersion may occur.
- 3.** Ensure the air outlet or air inlet is not blocked during use.
- 4.** Do not insert foreign objects into the air outlet or air inlet.
- 5.** Keep the product away from heat sources such as stoves.
- 6.** Do not use the product near gas stations, petroleum gas, or flammable products like paint thinner, volatile agents, or sprays, as these could cause explosions or fires.
- 7.** Do not drop or collide with the product, as it could damage it and cause a malfunction.
- 8.** If the product malfunctions, contact customer service immediately.
- 9.** Avoid pulling, twisting, squeezing, or modifying the charging cable. If the cable overheats or gets damaged, stop using it immediately.
- 10.** If the product produces abnormal noise, an odor, becomes too hot, or if the fan blades do not rotate properly, stop using it immediately.
- 11.** Do not disassemble the product. If accidental disassembly causes a malfunction, contact after-sales service.

## Nozzle Installation Guide

1. Align the nozzle with the air outlet.
2. Insert the nozzle body so that it fits into the hole position.
3. Rotate the nozzle to the right to secure it in the correct position.

**Warning:** To avoid damage, do not block the air intake or outlet while the machine is running.

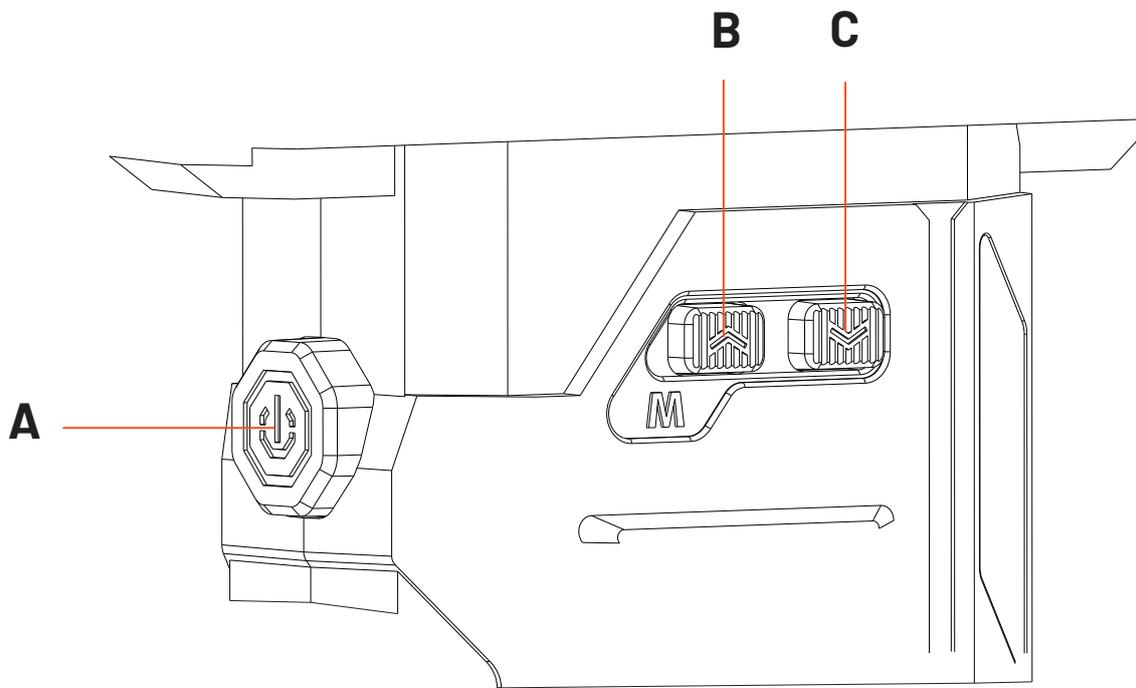

## Switch Operation Guide

### 1. Starting and Closing:

Press A briefly to start, and then press A again briefly to close.

### 2. Acceleration and Deceleration:

Press A to start, then press B to accelerate or C to decelerate.

## **Maintenance**

1. This product is not waterproof. Avoid cleaning it with liquids such as alcohol, nail polish remover, or detergent. Use a clean, soft cloth to wipe the product.
2. Regularly remove any attachments from the air outlet and air inlet.
3. Do not press or rub the air inlet or air outlet with fingernails or sharp objects.
4. Avoid overcharging or overdischarging the battery, as this may damage the battery cell.

## **Light Indicators**

Understanding the light indicators on your device helps you monitor its operational status and battery level. The following provides detailed information about the different light signals:

### **1. Full Constant Light**

**Status:** Indicates the device is either fully charged or currently operating with complete power. This means no further charging is required, or it is functioning optimally.

## 2. Flashing Light

**Status:** The device's battery is low, indicating it's either about to shut down or requires charging soon. A flashing light alerts you to plug in the charger to ensure continued use.

## 3. Slow Blinking Light

**Status:** This light signals that the device is charging. It shows that the device is actively charging, but not yet fully powered up.

# Battery Removal and Disposal

### a. Precautions:

1. The batteries used in this product are recyclable and should be disposed of responsibly.
2. Please ensure the battery is handed over to a certified recycling facility for proper disposal.
3. Before discarding the battery, ensure it is disconnected from the product and powered off.
4. The battery should be disposed of safely.

### b. Battery Removal Steps:

1. Use appropriate tools to pry off the switch cover.
2. Disconnect the battery lead terminal from the motherboard.
3. Use professional tools to cut the casing and safely remove the battery.

# Troubleshooting

## 1. Device not working?

The battery may be low. Please charge it.

## 2. The light isn't shining?

Ensure the adapter is securely plugged into the power outlet and that the charging cable is correctly connected to the device's Type-C port.

## Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

## Warranty

Products that you buy directly from our **Porodo** website or shop come with a 24-month warranty.

When you buy **Porodo** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at **porodo.net/warranty** and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.
