Product Overview

The Green Lion Desktop Air Cooler is a compact and portable cooling solution designed to deliver 8 hours of cooling on a single fill. It features adjustable airflow, three wind speeds, and energy efficiency for optimal performance. The cooler also has a 7-color night light and a USB-C plug-in for convenience. With a 400 ml water tank, it efficiently cools areas up to 5.2 square feet, making it ideal for personal spaces. Its LED indicator ensures easy operation, and the Turbo Cool Mode provides enhanced cooling when needed.

Specifications

Material	ABS
Power	10W
Fan Speed	3 Levels
RPM Range	2800–3000 RPM
Airflow	5.2 m/s
LED Light	8 Modes
Water Tank	400 ml
Noise Level	≤60 dB
Input Port	Type-C
Power Input	5V/2A
Product Weight	830 g
Product Dimensions	160*140*170 mm
Model No	GL-DC10

Product Sections

Setup Guide

1. Place the Portable Desktop Air Cooler on any flat surface. The cooler uses a USB interface for power.

Plug the USB cable into a suitable power source – Power Adapter (5V, 2A), Power Bank, Laptop, or Desktop.

Power Adapter and Power Bank not included.

2. Use the drawer tab to open the filter cover, then remove the filter.

3. For optimal performance, pre-soak the filter under cold running water. For enhanced cooling, place the wet filter in the freezer for 30 minutes to 1 hour until fully frozen.

4. Open the water tank lid and fill it with 400 ml of cold water. The water level can be checked by looking at the side of the tank. For an extra chill, you can also add ice to the water tank.

Fan

Long press the fan button to turn on the cooler.

Default setting: Low speed mode.

Adjust airflow up or down to your preference.

Note: The cooler is designed to work at 50% humidity. The runtime will vary with moisture levels.

Night Light

Choose the night light setting by pressing the button . There are 7 LED color settings. Press the button to cycle through the colors one by one.

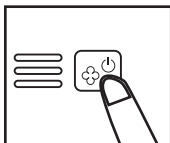

The final press in this sequence will activate automatic color changing.

Ultra-Cool Option

Press the Ultra-Cool button  once for High Cool effect; the light will flash. Press again for Low Cool effect; the light will remain on. Press and hold for 3 seconds to turn on the Turbo function. The 3 indicator lights will flash, and the unit will enter High Cool mode. Press and hold for 3 seconds to turn off the Turbo function.

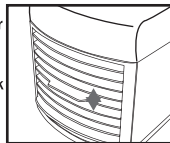

Long Press the fan button to turn on the cooler.
Default setting is Low speed mode.

1st Mode	Power On – Low
2nd Mode	Medium
3rd Mode	High
Long press	Power Off

Adjust the airflow up or down as per your preference.

*Subject to room temperature & humidity. Cooler is designed to work at 50% humidity. The run-time will change subject to moisture levels

Safety Precautions

Do not carry or move the Desktop Air Cooler when filled with water. Use only clean water. If necessary, use distilled water to prevent calcium buildup.

If a leak or spill occurs on the surface of the device, leave the Cooler to dry.

When not in use for extended periods, empty the water tank, remove, and clean the filter until dry.

Do not touch the power supply or power cord with wet hands.

Cut off the power supply when cleaning, removing/replacing the filter, or moving the device. For best results, place the Cooler on a higher surface like a table or countertop.

Keep the Cooler away from other heat sources or electrical equipment.

Avoid placing the Cooler in high-traffic areas or passages where there is a risk of tripping or knocking it over.

Do not place any items on top of the Cooler.

Do not block the front and back grills. Do not turn the Cooler upside down or cover it.

Do not submerge the Cooler in water or other liquids.

Keep the Cooler away from open flames or fire sources.

People with limited physical, visual, or mental abilities, or those lacking the proper experience/knowledge, should only use the device under supervision.

The Cooler will be completely switched off only when disconnected from the power supply.

In certain conditions, water droplets may form on the front grill. This is normal and can be wiped off with a cloth. To minimize water droplets from spilling onto surfaces, adjust the airflow by changing the direction of the blades.

Place the Cooler on a suitable waterproof surface to avoid potential water stains.

Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

Warranty

Products that you buy directly from our **Green Lion** website or shop come with a 24-month warranty.

When you buy **Green Lion** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at <https://www.greenlion.net/warranty> and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.
